### Financial and Commercial Affairs.

The course of the Money market throughout the week has been favorable to borrowers in good standing, despite the disturbing tenor of the reports of the several failures and suspensions in the financial and commercial lines. The demand for accommodation has been moderate for the season, as well on speculative as on mercantile account, and has been quite promptly met at the ruling figures. Call loans were quoted here at the close at from 4@7, in most instances at 5@6 per cent to the Stock Exchange operators, and very choice to prime mercantile credits were rated at 5½@8 per cent per annum for the best names. The City bank exhibit of last week indicated an increase in the loan and discount average of $340,000, and in the item of circulation of $124,700. The average of deposits was augmented $2,944,200. The legal tender reserve was enlarged $879,500; and the specie average $692,300. The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $9,714,325, as against $8,878,575 the preceding week. The City bank exchanges in currency reached $401,980,936, or a daily average of $66,996,823.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency, $19,003,807; special deposit of legal tenders for the redemption of certificates of deposit, $39,680,000; Coin, $131,827,586, including of Coin certificates, $33,049,900.

The outstanding amount of legal tender notes is $354,490,892. The National bank circulation is now $319,152 576 of currency notes and $1,432,-120 of national gold bank notes. National Bank notes received at the Treasury Department last week for redemption were to the amount of $4,-035,000.

A fair investment inquiry has been reported for the leading issues of Government securities which have been held with firmness, the available supply in the open market having been comparatively moderate. At the close on Wednesday the current quotations were as follows:

United States currency sixes, 121⅜@122; do. 6s, 1881, registered, 110@110¼; do. coupon, 110⅜@110⅛; do. 1865, new, registered, 105⅞@106; do. coupon, 105⅞@106; do. 1867, registered, 108⅜@108⅝; do. coupon, 108⅛@108⅜; do. 1868, registered, 110⅛@110⅜; do. coupon, 110¼@110½; do. ten-forties, registered, 107⅞@108; do. coupon, 108⅜@108⅝; do. five per cents, 1881, registered, 106¾@106⅞; do. coupon, 106⅝@106⅞; do. 4½ per cents, 1891, registered, 104¼@104⅜; do. coupon, 105¼@105⅜; do. 4 per cents, 1907, reg., 102⅜@102½; do. coupon, 102⅛@102¾; Central Pacific Gold Bonds, 108@108⅛.

The amount of U. S. bonds held by the Treasurer of the United States as security for the National Bank circulation is $344,724,900, and $14,-495,500 as security for public deposits.

State Bonds have been attracting a fair share of attention from investment buyers, and have been generally well supported in price. Railway Mortgage loans have been moderately active and quoted, in several instances, stronger as to values. And in the line of Railway and Miscellaneous share property the business of the week has shown comparatively little animation, the dealings having been mostly on account of street operators, and representing few outside orders of any importance. Prices have been variable, closing with more readiness.

Gold has fluctuated slightly, mainly, as influenced by the reports and rumors from Washington, relative to pending financial schemes and prospects before Congress, which at the close had sufficient weight to stimulate speculation and strengthen the price. The demand has been moderate, however, on nearly all accounts. The extremes of the price during the week have been 102⅛@103¼, closing on Wednesday at 103¼, as against 102⅛ on Wednesday of the preceding week. The specie outflow last week was only $75,900, making the total exports of specie hence since January 1, $24,197,383, against $42,063,680 the same time in the preceding year. The imports of specie at this port last week were $199,-281, and since January 1st have been $12,844,-800 as against $11,424,053 same time last year. The Customs demand for gold last week reached $1,262,753 or an average of $210,459 per day.

Foreign Exchange has been more sought after and quoted firmer on a somewhat lighter offering of prime bills. Bankers' sixty day bills on London closed on Wednesday at $4 80¼@$4 81; sight bills on London at $4 84¼@$4 85 to the £ sterling. The week's imports of Dry Goods and general merchandise were to the specie value of $5,-53 7,579 as against the very moderate amount of $4,706,785 the corresponding week of 1876. The week's import entries of Foreign Merchandise at New York included $972,202 of Dry Goods, and $4,595,377, of General Merchandise. The week's export of Domestic Produce and Miscellaneous Goods from this port were to the value of $6,503,-061, against $5,872,740 same week in 1876.

The income of the Government from internal revenues last week was about 2¼ millions, and from Customs last week again about 1⅞ millions.

A fairly active business has been transacted in the leading kinds of domestic produce. Breadstuffs have been in generally good request, and prices toward the close quoted firmer. Provisions, Cotton, Petroleum and Naval Stores have been moderately sought after, but quoted unsettled as to values. Foreign merchandise has been in less demand though buyers have had the advantage as to values.

Less activity has been reported in Metals which have been quoted, however, as without important alterations as to prices. Eglinton Pig Iron quoted at $24@$24 50; Glengarnock $24 75@$25; Coltness $26 50@$27; No. 1 American Pig at $19@$20; No. 2 do. at $17 50 @$18 50. Forge $16@$17; American Rails at works $34@$38. Old Rails $18 @$19. Wrought Scrap $22@$23. Steel Rails, on the basis of $48@$47. Ingot Copper dull on the basis of 17¾@17⅞ for early delivery. Pig Tin and Slate dearer, and offered sparingly.

Barley now forms an important item in the Grain exports hence to the United Kingdom.

The trade movements in Hardware, Boots and Shoes and Dry Goods have been on a moderate scale, and prices have been quoted generally about steady for really desirable styles of stock.

Ocean freights have been much less active and quoted weaker under freer offerings of accommodation though closing more steadily. Liverpool steamer rates at the close for Grain, quoted at 7½@8d. Provisions, 30s.@37s. 6d.; Leather, 50s. Measurement Goods at 20s.@25s. per ton; Cotton, 7-32d.@¼d. per lb. Liverpool, by sail. Cotton, 13-64d.@7-32d. Grain, at 7½d.@8; Measurement Goods 15s.@17s. 6d.; Tobacco 25s.; Grain rates on charter hence for Cork and orders left off at 6s. 3d.@6s. 4½d.; for the Continent at 6s. 6d. @6s. 9d.; and from Baltimore for Cork and orders, 6s. 4½d.@6s. 6d., and from Philadelphia at 6s. 3d. @6s. 6d. per quarter. Refined Petroleum hence for Cork and orders, 4s. 1½d.@4s. 6d.; for the Continent, 4s. 6d.@5s. per bbl. Cotton by sail from Charleston or Savannah to Liverpool or Havre at 7-16d; from Galveston, at ½d; from Mobile for Bremen, at 1ct. The Cotton chartering business for Southern port loading was somewhat freer during the week.

### Boston and Providence Railroad.

At the annual meeting of the stockholders of the Boston and Providence Railroad Company, held in Boston on the 21st inst., it was voted:

That to provide means for payment of the maturing obligations of the corporation, the directors be authorized to issue the notes of the corporation on such time not exceeding ten years, and for such amounts not exceeding in all eight hundred thousand dollars and at such rate of interest as they shall see fit.

From the report which was presented it appears that the receipts for the year ending September 30, 1877, were $1,873,361, a decrease from the previous year of $94,898, and the expenses $1,125,407, a decrease of $24,066.

The following gentlemen were elected directors: Henry A. Whitney, Royal C. Taft, T. P. I. Goddard, J. Huntington Wolcott, William R. Robeson, Francis M. Weld, Joseph W. Balch, J. Felt Osgood, D. R. Whitney.

☞ The New London Northern Railroad is replacing the bridges washed away by the Stafford flood with iron ones. Two of the bridges near Stafford, of spans 100 and 150 feet long, were recently tested by running three locomotives on each, causing only a half-inch deflection. The pile bridges between New London and Norwich will be replaced with iron ones of 8 and 14 feet spans. A 24-feet bridge is being built at South Windham, an 18 feet one at Palmer, Mass., and a 35 feet three track bridge at Stafford freight yard.

☞ The income of the Monadnock railroad for the year ending September 30, 1877, was $14,858. A dividend of two per cent has been paid, amounting to $4,108.

☞ No reference whatever is made in the report of the Baltimore and Ohio Railroad Company to the great strike of July last, which began upon that road.

### Columbus and Gallipolis Railroad.

At a meeting of the citizens interested in the proposed Columbus and Gallipolis Railroad held in Lithopolis, Ohio, on the 13th inst., Capt. White, Superintendent of the road, stated that the people along the east line are making every effort to have the road built upon that route. A new survey will be made in a few days, when, it is expected, the route will be shortened to the same length of the western route. It will cost about the same to build either line, as the grade on both routes is nearly equal. The estimated cost of building the road is $300,000. The road will be connected with the Chesapeake and Ohio Railroad at Gallipolis.

☞ Under a decree of foreclosure signed by Judge Redfield at Montpelier, Vt., Nov. 12, the Missisquoi Valley Railroad, extending from St. Albans to Richford, thirty miles, has gone into the hands of the trustees of the first mortgage of five hundred thousand dollars, Worthington C. Smith, Benj. P. Cheney and Wm. B. Stevens. The road has been operated since 1871 by the Central Vermont receivers and managers, under a lease by the terms of which they were to pay interest on the mortgage bonds. The decree finds that this has not been done since January 1, 1875. The road will be operated by the trustees under the immediate management of Worthington C. Smith.

☞ A certificate of incorporation has been issued by the Secretary of State of West Virginia to the Kanawha and Gauley River Railroad Company, to be constructed from Hawk's Nest Station, on the Chesapeake and Ohio Railroad, to Gauley river, via the Mill and Rich creeks, and thence along Gauley river to Kanawha Falls.

☞ The stockholders of the Highland Street Railway Company have authorized the directors to issue bonds of the company to an amount not exceeding $100,000, for a term not exceeding twenty years, at a rate of interest not exceeding 6 per cent.

☞ The coal tonnage of the Philadelphia and Reading Railroad for the week ending November 10, amounted to 140,298 tons; and for the year to that date to 6,784,646 tons, against 5,135,920 tons to corresponding date last year, an increase of 1,648,725 tons.

☞ The managers of the Vermont Valley Railroad have brought suit against the Central Vermont Railroad Company for $20,000, the amount claimed to be due for rent.

☞ Frederick L. Ames has been elected a director of the Old Colony Railroad company, to fill the vacancy occasioned by the death of Oliver Ames.

☞ It is stated that the Central Vermont Railroad Company proposes to build a track to Maquam from Swanton, under the general railroad law.

☞ Fred. L. Ames has been elected a director of the Duxbury and Cohasset (Mass.) Railroad company, vice Oliver Ames, deceased.

☞ Albany, Oregon, has subscribed $7,000 for the Yaquina Railroad.

### French Railroads.

The official returns published by the Ministry of Public Works show that at the beginning of the present year the total length of railways open in France was 12,715 miles, in addition to which there are 3,757 miles in course of construction or for which a concession has been granted. This total does not comprise 2 887 miles of local railways and 109 miles of line belonging to mining and other companies. Out of the 81 principal French ports 61 are already in possession of railway communication, and six will be so shortly; so that for 14 communication has yet to be provided. Out of the 329 fortified places and garrison towns, 276 are provided with railway communication, and 21 others will be so shortly. The international lines number 40, 12 of which are not yet open for traffic. Of the 28 which are, 15 connect France and Belgium, 6 France and Germany, 4 France and Switzerland, 2 France and Italy, and 1 France and Spain. It may be noted that a second line between France and Spain, from Perpignan to Barcelona, will be opened very shortly, thus placing all the Eastern provinces of Spain in direct communication with France. The Algerian lines have a total length of 820 miles, the greater part of which are worked by the Paris, Lyons and Mediterranean Company.

### Vermont Valley Railroad.

A dispatch from Brattleboro, Vt., Nov. 18th, says that a controversy has arisen between the Vermont Valley Railroad Company, whose route is between Brattleboro and Bellows Falls, and the Central Vermont Railroad Company, owing to the non settlement of a balance by the two roads, and then adds:

Until within three weeks, the Vermont Valley managers have been in the habit of making daily settlement with the Central Vermont Company, but they now refuse to pay over certain amounts of collections until payment of the rent claimed to have been due to the Vermont Valley Railroad Company, June 1, 1875, at which time the lease of the Vermont Valley Company to the Rutland road expired. The amount claimed to be due by the Central Vermont Company for rent is $36,000, and the Vermont Valley Company refuse to make any further advances in cash for freight delivered daily at Bellows Falls to the Valley road from the Central until this rental account is settled. All freight from the Central line is now taken over the Cheshire branch of the Fitchburg, Springfield and Athol Railroad, which company, it is claimed, are in sympathy with the Central managers, much to the inconvenience of parties doing extensive freighting on the line of the Valley Road.

☞ At the annual meeting of the stockholders of the Baltimore and Ohio Railroad Company, held in Baltimore on the 19th inst., the following gentlemen were elected directors for the ensuing year: Galloway Cheston, Francis Burns, John Spear Nicholas, John Gregg, Wm. W. Taylor, Samuel Kirby, John King, Jr., G. A. Von Lingen, Decatur H. Miller, Joshua G. Harvey, Wm. Donnell and Henry C. Smith.

☞ The corner stone of the new depot of the Erie Railway Co. in Paterson, N. J. was informally laid on the 17th inst. under the direction of a committee from the Paterson Board of Trade, a body which has been active in urging the erection of the new building, and has given the railway company practical assistance in the matter.

☞ The Pennsylvania Railroad Company have plans adopted and are about ready to build a handsome iron bridge over the Raritan River at New Brunswick, N. J., to take the place of the present wooden structure.

☞ At the annual meeting of the Baltimore and Cantonsville Horse Railroad Company, held in Baltimore on the 19th inst. the following officers were elected: President, John C. Holland; Treasurer, H. H. Graue; Secretary, W. W. Orndorff. The receipts of the year amounted to $32,785 78; working expenses, to $22,537 86, leaving the net earnings $10,177 92, being an increase in the net earnings over the previous year of $570 60. During the year 22,956 passengers were carried, being a very small decrease on the previous year.

☞ A dispatch from Panama dated November 1, says that Mr. Ross passed through Panama en route for Europe with the contract made with the Colombian Government for the construction of a Central Railroad, to cost twenty millions of dollars. It is said that the Panama Railroad subsidy of $250 000 was given up to Ross for 22 years, and he to have besides 25 per cent. of the customs revenue. The laying of the ten miles of steel rails on the Panama Railroad has been completed.

☞ When the Chicago Railway Review again rails at "the foolish utterance of one American railway journal against Canadian railways," it should mention the name of the "journal" to which it alludes. *Nous pense qu'oui.*

**Can I Obtain a Patent?**

This is the first inquiry that naturally occurs to every author or discoverer of a new idea or improvement. The quickest and best way to obtain a satisfactory answer, without expense, is to write to us describing the invention, with a small sketch. All we need is to get the *idea*. Do not use pale ink. Be brief. Send stamps for postage. We will immediately answer and inform you whether or not your improvement is probably patentable; and if so, give you the necessary instructions for further precedure. Our long experience enables us to decide quickly. For this advice we make *no charge*. All persons who desire to consult us in regard to obtaining patents are cordially invited to do so. We shall be happy to see them in person at our office, or to advise them by letter. In all cases, they may expect from us a careful consideration of their plans, an honest opinion, and a prompt reply. TOTAL COST OF U. S. PATENT, ONLY $55. *N. ### Western Union Telegraph.

The history of the Western Union Telegraph is probably the worst illustration extant of the evils of watered stock. This company grew out of the New York and Mississippi Valley Printing Telegraph Company, which was organized in 1851. The Western Union was incorporated in 1856, and was a consolidation of the company named above with the Lake Erie Telegraph Company. At that time the combined companies owned 1,400 miles, representing an actual outlay of only $360,000 The first watering of stock took place in 1858, when a stock dividend of 414 per cent was made; then followed dividends in stock in 1862 of 27 per cent, in 1863 of 100 per cent; in December of the same year of 33⅓ per cent, then an issue of $2,000,000 stock to pay for purchased lines; and in 1866 a dividend of 100 per cent in stock was made. At that time the capital stock was $22,000,000, and since then, by new issues for the purchase of rival lines, etc., it has increased to $41,078,410, of which $7,255,355 is held by the company in its own treasury. In twelve years after its organization the company had a capital of $20,000,000, which cost the stockholders less than $400,000 The first dividend in money was 8¼ per cent, paid in December, 1857, and within ten months thereafter 74¼ per cent in dividends had been paid. Besides the enormous stock dividends that were made between 1858 and 1866, the cash dividends averaged about 7 per cent a year. Between July 1, 1866, and June 30, 1877, the dividends were $12,121,987 34.—*Pittsburg Gazette.*

## American Railroad Journal.

New York, Saturday, December 1, 1877.

☞ The Philadelphia and Erie Railroad Company are making preparations to lay a double track between Williamsport and Sunbury.

☞ Three-fourths of the Clifton Forge (Va.) Railroad are completed, and it is expected that by the first of next June the whole road will be ready for cross ties, if not for rails.

☞ The narrow gauge railroad between Latrobe and Ligonier, Penn., a distance of 11 miles, was completed on the 17th ult. Messrs. Thomas A. & James R. Mellon were the contractors, and are the principal stockholders.

☞ The capital stock of the Pittsburg and Lake Erie Railroad Company has been increased from $1,500,000 to $2,000,000. Two thousand hands are now at work on the road between Pittsburg, Pa., and Youngstown, Ohio, and rapid progress is being made upon the work.

☞ Nineteen miles of the Pittsburgh, Castle Shannon and Washington Railway are now ready for iron, and the rails will be laid as rapidly as possible. It is impossible to state how far this road may extend, but it has already been decided to go as far southwardly as Morgantown, West Virginia.

### Erie Railway.

The following is a synopsis of the annual report of the Erie Railway Company and its branches, as made up for the State Engineer:

| | 1876. | 1877. |
|---|---|---|
| Earnings | $15,852,461 14 | $14,708,889 92 |
| Expenses | 12,231,201 78 | 10,899,839 60 |
| Net | $3,621,259 36 | $3,809,050 82 |
| Add ferry, express & other receipts, and interest on securities | 687,304 19 | 727,668 71 |
| Total credits | $4,308,563 55 | $4,536,719 03 |
| Deduct miscellaneous expenses and interest on all bonds | 5,538,193 74 | 5,837,803 54 |
| Deficit | $1,229,630 19 | $1,301,084 51 |
| Decrease of earnings 1877 | | 1,143,571 22 |
| Decrease of expenses 1877 | | 1,331 362 18 |
| Net increase 1877 | | $187.790 96 |
| Increase ferry receipts, etc., 1877 | | 40,364 52 |
| Total increase 1877 | | $228,155 48 |
| Increase of miscellaneous expenses 1877 | | 299,609 80 |
| Increase deficit 1877 | | $71,454 32 |

The bonded interest in default during the past year is $2 873,920, so that the year's operations left a surplus of $1,572,835 49. The floating debt was diminished $379,029 37 during the year; the cash on hand, October 1, 1877, was $374,772 42; the receiver's certificates outstanding on the same date were $1,879,149 66.

The earnings and expenses per mile for each ton of freight and each passenger compare as follows:

| Per Mile. | 1875-6. Cents. | 1876-7. Cents. |
|---|---|---|
| Ton—Earnings | 1 098 | .955 |
| Expenses | .855 | .752 |

| Passenger—Earnings | 2.102 | 1.884 |
| Expenses | 1.854 | 1.472 |
| Net | .248 | .412 |

☞ The last wood burning engine of the Boston and Albany Railroad, the Huron, has been changed to a coal burner.

### Test on the Covering of Steam Pipes.

The building committee having in charge the erection of the several structures on the Trinity College site, at Hartford, Conn., recently instituted on the premises some experiments with materials at present extensively used for covering steam pipes, whereby radiation of heat as well as condensation and freezing is prevented. As there are about 8,000 lineal feet of pipe, varying in diameter from two to six inches, in the buildings, the question regarding the best and most suitable non-conducting material for this purpose became an important one. After the reception of tenders by competing firms for the covering of the pipes, it was deemed best to make an exhaustive test upon a portion of the pipe. Accordingly samples of pipe covering were put on by the following companies: the H. W. Johns' Manufacturing Co., the Asbestos Felting Co., the United States and Foreign Salamander Felting Co., and the Chalmers-Spence Co., all of New York.

The samples were placed around a six inch pipe to the satisfaction of the respective parties. A wooden box was constructed with an open bottom and two of the sides cut in a semicircle to fit closely to the covering. A light of glass was fitted in one side of the box, through which a thermometer could be seen suspended from the top until it hung within an inch of the pipe covering. This done, all cracks or openings were securely fastened up so that the box was perfectly airtight.

The H. W. Johns Co.'s covering consisted of one and a half inches of asbestos mixed with other ingredients, upon a lining of heavy felt paper laid next the pipe. During thirty minutes in which this test was made the thermometer rose from 97° to 103°.

The Asbestos Felting Co.'s covering, two inches in thickness, was next tried, and in ten minutes the thermometer rose from 97° to 102°, and in half an hour from 97° to 105°.

The patented "Air-space" covering of the Chalmers-Spence Co. was next tested. This, as the name indicates, is a method of covering by which a dead air chamber is formed between the covering and the surface covered. This air space is formed in the following ingenious manner: heavy wire cloth is used, to which is fastened every four or six inches a stud one inch or more in length. The wire cloth is then placed over the surface to be covered, the studs keeping it at the proper distance. Plastic covering is then applied to the thickness of half an inch, and this partly penetrates the meshes of the wire cloth and keys itself, thus giving a strong durable hold. The second coat of plastic is then applied and finished smoothly. At this test the thermometer did

not rise above 94°, the time allowed being thirty minutes. A test was also made of the "plain" covering made by the same firm. This consisted of one and a half inches of the composition used in the first method, without the air space. During thirty minutes when it was tested the thermometer rose from 97° to 102°. On the application to the Salamander covering, consisting of one and a half inches of cement, the thermometer rose from 97° to 102°.

All the above tests were made under a pressure of ten pounds of steam. A synopsis of these trials, as communicated to us, is as follows:

| Covering. | Test commenced when thermometer reached | Rose in 30 minutes to |
|---|---|---|
| H. W. Johns' Manuf. Co.... | 97° | 103° |
| Asbestos Felting Co.... .... | 97° | 105° |
| U. S. and Foreign Salamander Felting Co.... .... .... | 97° | 102° |
| Chalmers Spence Company's "plain" ... .... .... .... | 97° | 102° |
| Chalmers Spence Company's "air space".... .... .... | 90° | 94° |

During the test the method employed was to watch the thermometer inside the box until it indicated a temperature of 97°, when, after leaving it in for thirty minutes, the temperature was again noted. But in testing the "air space" covering the temperature was so much less than the others, that after waiting until the thermometer indicated 90° it was found that it would not reach over 94°, although left in over one hour.

It was thus demonstrated that the "air space" covering showed the best results, and the contract was accordingly awarded to the Chalmers Spence Company.—*Scientific American.*

### Boston and Maine Railroad.

The annual report of the Directors of the Boston and Maine Railroad to the stockholders for the twelve months ending September 30, 1877, embraces the financial and other statistics already given in the railroad returns. In reference to the decrease in the gross receipts of the road they state there have been now four years of great depression in all kinds of business that contribute to the support of a railroad. They have felt it from year to year in the reduced receipts from local business, and never more so than in the receipts from passengers the past year, with no general improvement in business. The people along the line of the road have become poorer, ride less and in many instances have given up business altogether. The low rates on freight from the Western States has seriously affected the gross earnings. Another cause for decreased traffic as well as increased expenses over ordinary years was the strike, which caused an entire suspension of freight business for nearly a week, and a considerable reduction in passenger traffic. The effect of this disturbance remained well into the summer before traffic in both passengers and merchandise had fully resumed its accustomed line of travel.

A large share of the alarming increase of municipal indebtedness has been put upon the railroads until the taxes on them have become a grievous burthen. The taxes on the Boston and Maine Railroad have been increased from $6000 per annum in 1860 to $106,000 per annum in 1876.

Another large item of expense the past year has been the purchase and laying of 2060 tons of steel rails, at an expense of more than $100,000. These facts, which account for the reduction in receipts, also show a healthy and sound condition of the road. If under these disadvantages the property could yield one dividend of two and another of three per cent. during the year, and have something left to add to its reserve profit, there is nothing very discouraging in the result. Allusion is made to the Ballardvale accident of November last, by which three lives were lost, as the most serious that has occurred on the road for several years. In regard to the "strike," the report says that on the 12th of February last, at 4 o'clock in the afternoon, all the engineers and firemen on the road, to the number of 134 men, left their work upon only two hours' notice of their determination so to do. This was in trades-union parlance a strike, its sole object and purpose being to coerce the managers of your property to do that which they believed to be detrimental to your interests; in other words, to dictate to your Directors the terms and conditions on which they would continue to run your locomotives. If their terms and conditions were assented to, well; if not, all business on your road must come to a stand-still until your managers agree to their terms or break the strike. These men did not leave their engines with any expectation that they would not return to them again and resume work in the course of a few hours at the most; backed as they were by a powerful trade-union organization, flushed with victory gained on other fields, they had no doubt they would gain an easy victory here.

It is not necessary to recount in this report the history of this strike. The same was fully investigated at the time by the Railroad Commissioners of Massachusetts, as part of their official duty; and a copy of their full and exhaustive report upon the subject, made to the Legislature of Massachusetts, was mailed to each stockholder of this corporation. The determined stand taken during the struggle by your directors gained you a complete victory, although at considerable cost. Much praise is due to our General Superintendent, Mr. James T. Furber, for his prompt, vigilant and earnest effort, during the disturbance, to bring order out of confusion and protect the property of the company, as well as to all other employes who remained loyal to the road. While we had generally good men to run our engines before the strike, we had no difficulty in well filling their places, and those now in our employ are quite as good as those who left us—yea, better, inasmuch as they are bound to no secret organization, and consequently are free agents.

Not one of the men who voluntarily left us on the 12th of February is now in our employ; very few of them have been able to obtain any employment since. This is the natural result of labor unions, in whose interests they worked. It is hardly probable that, in the face of this result, another similar conspiracy could be organized in New England.

The floating debt of the corporation has been reduced $120,000 during the year, and Sept. 30, 1877, amounted to $32,009 08. The $99,500 of the 1894 bonds, unsold at the date of the last report, have since been sold and applied to the liquidation of the floating debt. The statistics of the business of the road the past year as compared with 1876 show a net loss of $644,800 passengers, and for one mile a net loss of 6,118,147, and in freight a loss of 3064 tons, and for one mile again of 5,614,291 tons.

The roadbed and track are in good condition. They have laid 2060 tons of steel rails during the year. Experience with steel shows their great superiority over iron rails. The first introduction of steel on this road on a large scale was commenced in the year 1871, and has been continued every year since; so that at the close of business September 30, 1877, our trains run on 91 3433-5280 miles of steel track.

The passenger houses at Wyoming Station and at the Highland Station in Melrose have been built over and much improved. An additional structure has been erected on the west side of the track at Melrose, for the accommodation of passengers, and a new freight house has been constructed at Plaistow. Four new first class locomotives have been purchased, and two have been entirely rebuilt during the year. The number of locomotives owned by, and now in the service of the company is 77.

They have added during the year to the rolling stock two combined smoking and baggage cars. No addition to the number of freight cars has been made during the year.

The bridge over the Merrimack river at Haverhill has been thoroughly repaired, and is believed to be in excellent condition.

### Grand Trunk Railway of Canada.

The usual half-yearly meeting of the shareholders of this company was held in London, on the 30th of October. The president Sir H. W. Tyler, in moving the adoption of the report, gave particulars as to his recent visit to America. He said:

The gross receipts for the half year upon the whole undertaking were £874,411, which was reduced by the discount on American Currency to £860,886. When the working expenses were deducted, there remained a sum of £190,890, and after the payment of the interest on the first and second equipment bonds and the 5 per cent perpetual debenture stock, a balance of £701 18s. 9d. The working expenses, including renewal, amounted to £664,467, showing a decrease of £69,480 as compared with 1876. The passenger receipts were less by £7,325, and the number of passengers was decreased by 3,578.

The receipts in the June half-year were: 1872, 1.42 cents; 1873, 1.49 cents; 1874, 1.31 cents; 1875, 1.07 cents; 1876, .94 cents.

The total number of tons handled during the half-year was greater than in any previous June half-year, amounting to 1,052,873 tons. The number of tons moved one mile was:

For the June half-year, 1877..... .... 342,228,380
For the June half-year, 1876..... .... 352,794,352

Comparing the rates of 1872, as above given, with those of 1877, the difference is represented by no less a sum on the ton mile than $1,900,000—say £390,000.

The number of passengers carried one mile was, in 1876, 49,890,C06, against in 1877, 51,431 801; showing an increase of 1,500,000. The competition extended also to the passenger traffic, and reduced the remuneration received. The rate per passenger per mile was thus:

In 1877..... .... .... .... .... .... 2.26 cents.
Against for 1876.... .... .... .... 2.39 cents.

The utmost economy consistent with efficiency was necessarily exercised. The result of the half year's working was, that whilst we earned during the half year, £75,973 less than in 1876, the working expenses, including renewals, amounted to £664,000, or £69,480 less than in 1876; and we have, by adding the balance from the previous year, only been able to show a profit sufficient to meet our preferential charges. Of the above reduction of £69,000 in the working expenses, £19,500 was for wages, fuel, oil, &c., in the locomotive department, £8,000 in the traffic department, £9,600 for rent of rolling stock, and £7,400 for wages of trackmen.

The way and works are altogether in better order than at any previous time. We have steel rails for about 1,070, out of 1,388 miles, and they are giving us satisfaction. We shall proceed to relay the remaining portions of the line with steel, as circumstances require and will admit of our doing so. Much has been done in replacing inferior masonry or brick piers and abutments with solid stone work of superior quality. The company's cars are in excellent condition, and have in no way suffered from undue economy. The engines are also in good working order. * * * * *

The Intercolonial Railway was open for through traffic, as you are aware, in July, 1876, and there has since been a steady increase of business over our Riviere du Loup section. This traffic has, doubtless, been to some extent drawn away from our route to the Lower Canadian Province via Portland. * * * * * * *

It is expected that within four or five years the Intercolonial Railway will begin to pay the working expenses, and obtain some remuneration for the Dominion Government. Meanwhile as the traffic on the Intercolonial Railway improves, so the traffic on the Riviere du Loup section of our line will also improve; and that section of line, which actually yielded a profit for the half-year ending last June, will ultimately become a remun-

erative property, yielding a considerable revenue to the Government, who will, we hope, before that time have leased it or acquired possession of it on fair terms.

**Pittsburg, New Castle and Lake Erie R. R.**

The first estimate of the engineers of the Pittsburgh, New Castle and Lake Erie Narrow Gauge Railroad, in favor of the contractor, was paid on the 15th of November, and the reports submitted in connection with the estimate, show that the work is progressing very satisfactorily. As previously announced thirty miles of the new road is under contract, having been let in September last. This thirty miles embraces the route between Etna, Allegheny county, and Harmony, Butler county. Work has been going on upon the entire thirty miles, and were it not for the heavy work on the tunnels the line would be in readiness for the cars in sixty days. Seven miles of the road east of Zelienople have been graded and at other points between the tunnels, eight miles of the grading completed. In fact, all of the light grading has been finished, and fifteen miles of the line are ready for the cross ties. One of the tunnels is 700 feet in length, and the other 200 feet. It will require four months to open and render safe for the passage of trains the long tunnel, but by that time all the other sections will have been finished and the rails laid. The total distance to New Castle, by this route, is 50 miles. From Etna—which borough is reached by the way of Pine creek and the Plank road, recently purchased by the railroad company—the new road seeks an outlet to the western limits of Allegheny City, in order to reach the mills in that locality. It is also designed to bring the line into Pittsburgh via the Forty-third street bridge and the Allegheny river to Ninth street. The new line will open a very fine section of country, and the object of running the tracks direct to the mills of Allegheny and Pittsburgh is for the purpose of unloading ore and other materials, and loading iron and its product with facility. The road may be said to be in a very forward state at present.

☞ Three Pennsylvania corporations — the Keystone Bridge Company, of Pittsburg; the Edgemoor Iron Works, of Chester; and the Phœnix Iron Company, of Phœnixville—are to furnish the iron for and construct the Gilbert Elevated Railway of New York. Each of the above companies has a contract for a section of one mile in length, and will, as soon as present legal impediments to the construction of the road are removed, proceed at once with the work.

☞ The Sinking Fund Commissioners of the District of Columbia report the funded debt, which at last report stood at $8,405,676 21, has been reduced by redemptions to $8,379,691 96. The 3.65 bonds remain at $13,748,250, on which the United States has paid the interest. There has been an aggregate reduction of the public debt since December 1, 1874, of $503,788 22.

☞ In the cases of the Cairo and St. Louis Railroad against Union County, and the City of Jonesboro, Ills., to compel the issue of railroad aid bonds to the amount of $75,000, the mandamus was refused, mainly on the ground that the railroad was not completed according to the contract made conditional to the receipt of subscriptions.

☞ The directors of the Pittsburgh, and Birmingham Passenger Railway Co., recently elected, are: M. W. Beltzhoover, H. F. Jones, W. W. Patrick, Wm. M. Hersh, John McD. Crossan. The officers are: M. W. Beltzhoover, President; John G. Holmes, Treasurer; W. W. Patrick, Secretary.

**European Railway Tariffs.**

[TRANSLATED FROM THE PESTHER LLOYD.]

The intimate connections of commerce render it impossible for the railway tariff question in any country to be isolated. Like a liquid in pipes, every increase or decrease will be finally distributed over the whole. It is therefore of interest to us to be informed that there will be a general rise in the railway tariff in France before a long period—at least, such is the opinion of the trade papers. At first sight this might seem to injure only our rivals in the great grain trade, Americans and Russians; but a little examination will show us that this change is being produced by circumstances which equally obtain with us. It has been considered as a maxim that the tendency of commercial operations is toward cheapness, so that the lowering of the tariff was looked on as quite natural. We are among those who consider the cheapest possible transport as a great factor in material welfare, but we also recognize that there are conditions which demand a contrary course. The competition of the great transit lines lowered the freights in Germany, so that the income of the railways, although with a continually increasing business, only paid 6 per cent on the stock capital in 1871, and this income had sunk to 4 per cent in 1873. With a constantly diminishing income from freights was joined a continually increasing cost of all railroad materials and work. The contest between the authorities and the companies finally resulted in the railways raising their freight 20 per cent. In France, the continual increase of cost and decrease of income produced an equilibrium in 1874, in other words, it cost the railways as much to forward a certain weight as they received for doing so. Only the old lines run on a profit, the new or net lines only pay 60 per cent of the cost of running, and they comprise 8,000 of the 19,000 kilometres of railways. As there is no competition on these secondary lines, there are only two causes for such a state of matters: (1) The reduction of the tariff failed to increase business; (2) the continual increase in cost of all railway materials—iron, coal, provisions and wages. The factors which in England reward any cheapness of railway rates are absent in Austria, and even in Germany and France.

☞ The Comptroller of the State of Tennessee left Nashville on the 23d ult. for this city, to receive from the Illinois Central Railroad Company, the principal and accumulated interest, amounting to $1,250,000, of the debt due from the Mississippi Central and Tennessee Railroad Company, purchased some time ago by the Illinois corporation. This payment reduces the State debt to that extent and leaves only one road indebted to the State—the Mississippi and Tennessee road—which owes the State about $300,000.

☞ The grade line survey for the direct railroad from Virginia to Reno (Nevada) has been completed between Truckee and Steamboat Springs. The surveyors report the route much easier than they had anticipated, the heaviest grade to be overcome at any point being less than that of the Virginia and Truckee road from Steamboat Springs to Washoe.

☞ A certificate of incorporation has been filed with the Secretary of State of Ohio of the Shawnee and McConnelsville extension of the Shawnee, Hocking Valley and Southern railroad, to run from Shawnee to McConnelsville, Morgan county; capital stock $200 000, in shares of $50 each, by John F. Jones and others.

☞ The ordinance recently passed by the Cumberland (Md.) Councils authorizing the issue of bonds to the amount of $65,000 to aid in the extension to that place of the Bedford Division of the Pennsylvania Railroad, was vetoed by the Mayor, and the veto sustained upon three points, viz: a clerical error as to time in the preamble; a formality in issuing the bonds, and a provision that the railroad company shall give bonds to the city. With these amendments the ordinance was passed unanimously and it was signed by the Mayor. The ordinance as passed is to be submitted to the voters of Cumberland on the 12th of December.

☞ The rapidity with which the work on the Pittsburgh and Castle Shannon Narrow Gauge Railway has been pushed forward has awakened a lively interest in an extension of the road, and $125,000 have already been subscribed for the construction of a branch along the valley of Peter's Creek, from Findleyville, Washington county, fourteen miles from the present terminus, towards Morgantown. The latter place is fifty miles distant, and there is no doubt that a sufficient sum of money, not exceeding $240,000 in the aggregate, will be raised in a short time to build the road to that point.

☞ The annual meeting of the stockholders of the Richmond, Fredericksburg and Potomac Railroad Company was held at Richmond on the 21st ult. The annual report shows the earnings of the road for the year ending September 30, 1877, to have been $323,013 04, expenses $176,804 58, net revenue $146,208 46, which net revenue is less than that of the preceding year by $43,967 53 in consequence of a diminution of gross receipts.

☞ Articles of incorporation of the Columbus and Coal Valley Extension of the Columbus and Northwestern Railway have been signed by J. H. Young and others. The line marked out is via Reynoldsburgh, Bremen and Shawnee to McConnellsville. The determination is to keep at work until the whole line is in operation from McConnellsville to Columbus, from Columbus to Fort Wayne, and from Urbana to Eaton.

☞ Eighteen thousand men are now engaged in the express business. Express companies cover 60,000 miles of railroad, and it is estimated that their messengers daily travel 300,000 miles. Three thousand five hundred horses are employed, and over 8,000 offices are required to transact their business in, and an amount of capital is invested of not less than $30,000,000.

☞ The gross earnings of the Philadelphia and Erie Railroad for the month of October, 1877, were $393,151 46, the gross expenses $185,813 09, and the net earnings $207,338 37, against $154,867 19 for the month of October, 1876, an increase of $52,971 18.

☞ The iron for 11 miles of the Extension of the Victoria Railway (1,000 tons) arrived at Port Hope last week and was put on cars for carriage to Kinmount.

### Financial and Commercial Affairs.

Though no important changes have occurred in the course of Money during the week, rather more firmness has been apparent as to rates, chiefly, toward the close, in the line of call loans, which have been more or less disturbed, in part by speculative manipulation, with a view to influencing values at the Stock Exchange. The demand, however, has not been very urgent, either for Street use or for mercantile purposes, and responsible borrowers have experienced very little difficulty in making prompt provision for their wants. Call loans were quoted here at the close at from 4@7, in most instances at 5@6 per cent to the Stock Exchange operators, and very choice to prime mercantile credits were rated at 5½@7½ per cent per annum for the best names. The City bank exhibit of last week indicated a decrease in the loan and discount average of $978,500, and an increase in the item of circulation of $255,600. The average of deposits was reduced $266,600. The legal tender reserve was enlarged $516,400; and the specie average $811,000. The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $10,658,875, as against $9,714,328 the preceding week. The City bank exchanges in currency reached $417,104,419, or a daily average of $69,517,403.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency, $13,050,274; special deposit of legal

tenders for the redemption of certificates of deposit, $41,355,000; Coin, $133,190,170, including of Coin certificates, $32,854,500.

The outstanding amount of legal tender notes is $354,490,892. The National bank circulation is now $319,188,741 of currency notes and $1,432,120 of national gold bank notes. National Bank notes received at the Treasury Department last week for redemption were to the amount of $4,332,000.

More liberal dealings have been reported in the leading issues of Government securities which have been quoted somewhat stronger in price, in the open market. Several important purchases have been made on investment account. The offerings have been on a moderate scale, especially of the favorites of the coin interest bearing bonds. At the close on Tuesday the current quotations were as follows:

United States currency sixes, 121¾@122; do. 6s, 1881, registered, 110⅜@110½; do. coupon, 110⅞@111; do. 1865, new, registered, 106¼@106⅜; do. coupon, 106¼@106⅜; do. 1867, registered, 109@109¼; do. coupon, 109@109¼; do. 1868, registered, 111@111¼; do. coupon, 111@111¼; do. ten-forties, registered, 108@108⅛; do. coupon, 108⅛@108¾; do. five per cents, 1881, registered, 106⅞@107; do. coupon, 106⅞@107; do. 4½ per cents, 1891, registered, 104⅛@104¾; do. coupon, 105⅛@105⅝; do. 4 per cents, 1907, reg., 102⅝@102¾; do. coupon, 102⅝@102¾.

The amount of U. S. bonds held by the Treasurer of the United States as security for the National Bank circulation is $344,940,550, and $14,423,500 as security for public deposits.

State Bonds have been in generally good request for investment purposes, and have been quoted firmer, on restricted offerings of the favorite loans. Railway Mortgage loans have been more sought after by investment buyers and have been ruling stronger. And in the line of Railway and Miscellaneous share property the business of the week has been on a very moderate scale, generally, the speculation lacking spirit throughout, and giving little promise of an early revival. Street operators have been left in practical control of the market, and the influences which have been at work to shape the course of values have been mainly of local origin. The fluctuations in prices have been frequent, and toward the close the drift has been to increased depression.

The income of the Government from internal revenues last week was about 2½ millions, and from Customs last week again about 2½ millions.

Gold has been ruling weaker in price on a tamer speculative movement, and a very moderate inquiry for specie for shipment, and for coin for custom house purposes. Washington advices as to pending legislative projects have been deemed of less weight. The extremes of the price during the week have been 102¾@103⅜, closing on Wednesday at 102⅞, as against 103⅛ on Wednesday of the preceding week. The specie outflow last week was only $75,500, making the total exports of specie hence since January 1, $24,272,688, against $42,272,218 the same time in the preceding year. The imports of specie at this port last week were $361,273, and since January 1st have been $13,206,073 as against $14,388,099 same time last year. The Customs demand for gold last week reached $1,986,787 or an average of $331,131 per day.

Though not active, Foreign Exchange has been ruling rather stronger, on a restricted offering of prime bills especially as representing the current outflow of domestic produce. Bankers' sixty day bills on London closed on Wednesday at $4 80⅛@$4 81⅛; sight bills on London at $4 84@$4 85 to the £ sterling. The week's imports of Dry Goods and general merchandise were to the specie value of $4,718,585 as against $4,576,918 the corresponding week of 1876. The week's import entries of Foreign Merchandise at New York included $770,219 of Dry Goods, and $1,015,686, of General Merchandise. The week's export of Domestic Produce and Miscellaneous Goods from this port were to the value of $7,424,413, against $6,188,047 same week in 1876.

More demand has been noted for the leading kinds of domestic produce, especially for Breadstuffs and Provisions, which have been in better request, in good part for export, and toward the close quoted as a rule, stronger in price. On Monday, the dealings in Corn here were unusually extensive, having exceeded 800,000 bushels, more than half of which amount was for prompt delivery, and largely for export. Cotton, Petroleum and Naval Stores have been in moderate request and quoted variable as to price. Foreign merchandise has been in fair demand, but the advantage as to values has been generally in favor of purchasers. Coffee has been quoted higher, and more active. Sugars lower, and slow of sale.

Metals have been moderately active and have been quoted generally steady as to prices. Eglinton Pig Iron quoted at $24@$24 50; Glengarnock $24 75@$25; Coltness $26 50@$27; No. 1 American Pig at $19@$20; No. 2 do. at $17 50@$18 50. Forge $16@$17; American Rails at works $34@$38. Old Rails $18 @$19. Wrought Scrap $22@$23. Steel Rails, on the basis of $48@$47. Ingot Copper slow of sale, on the basis of 17¾@17¾ for early delivery. Pig Tin firmer, on light offerings.

A moderate inquiry has been noted for the leading kinds of Hardware, Boots and Shoes and Dry Goods, prices of which have been fairly supported on restricted offerings of really desirable styles of stock.

Ocean freights show more animation, and for tonnage for the Grain trade, rates have been quoted firmer under lighter offerings. Liverpool steamer rates at the close for Grain, quoted at 8d. Provisions, 32s. 6d.@40s.; Leather, 60s. Measurement Goods at 22s. 6d.@25s. per ton; Cotton, ½d. per lb. Liverpool, by sail. Cotton, 13-64d.@7-32d. Grain, at 7½d.; Measurement Goods 15s.@17s. 6d.; Tobacco 27s. 6d.; Grain rates on charter hence for Cork and orders left off at 6s. 4½d.@6s. 6d.; for the Continent at 6s. 9d.@7s.; and from Baltimore for Cork and orders, 6s. 3d.@6s. 6d., and from Philadelphia at 6s. 3d.@6s. 6d. per quarter. Refined Petroleum hence for Cork and orders, 4s. 6d.@5s.; for the Continent, 4s. 6d.@5s. per bbl. Cotton by sail from Charleston or Savannah to Liverpool or Havre at 7-16d; from Galveston, at ½d; from New Orleans for the Continent 15 16@1ct. The Cotton chartering business for Southern port loading has been to a fair aggregate during the week, chiefly for New Orleans loading.

At the auction sale of Scranton coal on Tuesday, prices further receded, on sales of 5,000 steamer at $2 30 to $2 32½, against $2 30 to $2 50 in October; 20,000 tons of grate at $2 22½ to $2 27½, against $2 42½ to $2 50 in October; 20,000 tons of egg at $2 27½ to $2 30, against $2 47½ to $2 55; 40,000 tons of stove at $2 55 to $2 62½, against $2 80 to $2 90; 10,000 tons of chestnut at $2 25 to $2 40, against $2 35 to $2 42½, and 5,000 tons of pea at $1 32½ to $1 37½, against $1 40 to $1 57½ in October.

☞ At the annual meeting of the stockholders of the Old Colony Railroad Company, held in Boston on the 27th ult., the following gentlemen were elected directors for the ensuing year: Charles F. Choate, Cambridge; Frederick L. Ames, Easton; T. J. Borden, Fall River; John S. Brayton, Fall River; Uriel Crocker, Boston; S. L. Crocker, Taunton; Francis B. Hayes, Boston; Jacob H. Loud, Plymouth; George Marston, New Bedford; Onslow Stearns, Boston; Royal W. Turner, Randolph; Elisha W. Willard, Newport; Ephraim N. Winslow, Hyannis. At a meeting of directors held subsequently, Charles F. Choate was elected President, and George Marston Clerk.

☞ The directors of the Third Avenue Railroad Company, recently elected, are: S. L. Phillips, Henry Hart, Wm. Remsen, Thurlow Weed, R. G. Remsen, Samuel Hall, Moses Mitchell, Henry Morrison, J. D. Smith, F. B. Noyes, Alexander S. Webb, John M. Samler and Samuel Willetts.

☞ The James W. Waterbury, a new iron ferry boat, built for the Nassau Ferry Company, of New York, was launched at the shipyard of the Harlan & Hollingsworth Company, in Wilmington, Del., on the 26th ult.

☞ At the annual meeting of the stockholders of the Erie Railway Company, held in this city on the 27th ult., the following Board of Directors was elected: Hermann R. Baltzer, John B. Brown, Thomas Dickson, R. Suydam Grant, Solomon S. Guthrie, Giles W. Hotchkiss, Hugh J. Jewett, John Taylor Johnston, Edwin D. Morgan, Asa Packer, Cortlandt Parker, Homer Ramsdell, Marshall O. Roberts, Samuel Sloan, Henry G. Stebbins, George F. Talman, J. Lowber Welsh.

☞ The narrow gauge railroad—a branch of the road that is being built from Fredericton, New Brunswick, along the eastern bank of the St. John river to the river Du Loup in Canada—recently opened to Fort Fairfield and Caribou, on the Aroostock river, pierces the finest tract of land for agricultural purposes in the State of Maine. Caribou, its present terminus, is only 26 hours from Boston.

☞ The directors of the Highland Street Railway Company, recently elected, are: Donald Kennedy, Jacob Pfaff, Solomon S. Rowe, Charles J. Hayden, Henry Pfaff, Joseph H. Chadwick, Samuel Little and Moody Merrill. The officers are: Moody Merrill, President; Samuel Little, Treasurer; John L. Swift, Clerk; Thomas L. Clark, Counsel, and J. E. Rogg, Superintendent.

☞ The contract just entered into by P. & T. Collins, of Philadelphia, for the construction of 180 miles of narrow gauge railway in Brazil, will cover an expenditure of five millions of dollars! The iron and materials are to be furnished by the Reading Coal and Iron Company, and as the payments are largely for cash the movement is one of great importance, individually and nationally.

☞ A movement is on foot to induce the municipalities along the line, as well as the Ontario Government, to vote $900,000 for widening the gauge of the Toronto, Grey and Bruce Railway and otherwise improving it. It is proposed to ask $600,000 from the municipalities and $300,000 from the Government.

☞ The receipts into the Treasury of the City of Philadelphia during the month of October (including $4,428,023 15 from the previous month) was $5,154,184 09, and the disbursements $1,774,548 52, leaving a balance on hand October 1, 1877, of $3,379,635 57.

☞ The tonnage of the Philadelphia and Reading Railroad for the week ending November 17th was 182,9[illegible],7 tons; and for the year to that date 6,907,60[illegible], against 6,885,687 for the corresponding period of 1876, an increase of 1,591,916.

☞ The people of Hollis, N. H., have in contemplation the construction of a narrow gauge railroad from Nashua through the centre of Hollis to Brookline, to connect with the proposed railway from Manchester to Fitchburg.

☞ The sale of the New Jersey Southern Railroad is announced to take place on the 6th of December. It is reported that there will be a reorganization of the road, and a branch from Manchester to Camden constructed.

☞ The last rail on the Waterloo and Magog Railroad was laid on the 10th ult. It will be operated by the Vermont Central Railroad Co.

☞ The section of the Miniequet and Black River Railway, extending from Huntingdon Mines to Bolton Springs, was completed on the 26th ult.

**Can I Obtain a Patent?**

This is the first inquiry that naturally occurs to every author or discoverer of a new idea or improvement. The quickest and best way to obtain a satisfactory answer, without expense, is to write to us describing the invention, with a small sketch. All we need is to get the *idea*. Do not use pale ink. Be brief. Send stamps for postage. We will immediately answer and inform you whether or not your improvement is probably patentable; and if so, give you the necessary instructions for further procedure. Our long experience enables us to decide quickly. For this advice we make *no charge*. All persons who desire to consult us in regard to obtaining patents are cordially invited to do so. We shall be happy to see them in person at our office, or to advise them by letter. In all cases, they may expect from us a careful consideration of their plans, an honest opinion, and a prompt reply. TOTAL COST OF U. S. PATENT, ONLY $55. *N. B.—These are by far the* SAFEST, BEST *and* CHEAPEST *terms offered by any responsible Patent attorney in the United States.* For all further information, please address: HENRY GERNER & SON, 24 Barclay st., P. O. Box 4,544, New York.

☞ Foreign holders of stock of the Erie Railway Co. have applied for an order directing Receiver Jewett to execute to the United States Treasury a release of claims against it by non-resident alien stock and bondholders for income tax deducted from them by the Erie Railway Company under the internal revenue laws prior to 1867, which deduction the United States Supreme Court has declared illegal. The court granted a reference.

☞ The Dom Pedro II Railroad has reached its highest point, an altitude of 3,550 feet, 225 miles from Rio Janeiro, in traversing the gorge of Juan Ayres, in the Mantiqueira range, whose highest peak is Itatiaia, 8,880 feet high. The Pyrenees range, in Goyaz, although not so towering in outline as the Mantiqueira range, has been found to be over one thousand feet higher and to be the highest in Brazil, its real backbone.

☞ By a decision in the Youngstown, Ohio Court the Pittsburgh and Lake Erie Railroad is allowed to use the old canal bed between Youngstown and the Pennsylvania State line.

☞ The decree granting seven per cent guarantee of interest on £400,000 additional capital for the Madeira and Mamore Railroad (Colonel George E. Church's concession), was signed by the Emperor of Brazil on the 24th of October.

### The New York and Gilbert Elevated Railroads.

It has been decided between Mr. Foster, President of the Gilbert Elevated Railroad Company, and Mr. Field, President of the New York Elevated Railroad Company, to have but a single row of pillars for the two roads in Chatham Square where the roads meet, thereby obviating the difficulty of overcrowding such a busy thoroughfare. It is expected that the Gilbert Elevated Railroad by the 1st of March will have that section of the road completed and trains running from Worth street to Forty-second street on the west side, the route of this section of the road being from Worth street through West Broadway and South Fifth avenue to West Third street, thence to Sixth avenue to Forty second street. Work on the foundations is being pushed with energy on Sixth avenue and they will be completed next week. This part of the work is done by contract, and the company have under consideration the advisability of letting the other portions of the work out also by contract. The foundations in South Fifth avenue will be completed in a few days. The line will extend south of Worth street to Murray street, thence to Church street down to New Church street and into Morris street, where it will run to Bowling Green, and round Bowling Green to Beaver street, through Beaver to Pearl street, along which it will run side by side with the road of the New York Elevated Railroad. The two roads will diverge at Chatham square, the Gilbert road taking an easterly course through Division street to Allen, to First avenue and Twenty-third street; along Twenty-third street to Second avenue; thence to the Harlem River, where it will follow the bank to Eighth avenue. Down Eighth avenue to 110th street, thence to Ninth avenue to Fifty-third street, along which it will take its course to Sixth avenue, down to Forty second street, at which point it is proposed to establish a temporary terminus. The line will be extended from Forty-second street along Sixth avenue to Central Park.

The route of the new east side road will extend from Whitehall street, at the southern terminus, to Front street, through which it will extend to Coenties slip, thence to Pearl street, New Bowery, Bowery and Third avenue to the temporary terminus at Sixty-first street. Branch roads will run through John street, Burling slip, South street to Fulton ferry, and at other points. An important branch will extend from Chatham square down Chatham street, around the Staats Zeitung building, up Centre and Park streets to Mott and Pell streets, Chatham square and the Bowery.

### Stamping Boiler Iron above its Tensile Strength.

A circular from the office of the Supervising Inspector General informs supervising and local Inspectors of steam vessels that that office has become aware that some manufacturers of boiler iron are stamping iron of their manufacture at much higher tensile strain than such iron will bear when tested by the Riehle testing machine, as provided in Rule 4 of the Revised Rules and Regulations for 1877. In consequence of this practice, injury has resulted to boiler manufacturers who innocently purchased such iron, and failed to apply the test until after the completion of the boilers, as recently occurred in two cases in the local districts of New York and Philadelphia. To prevent a practice so unjust and manifestly dangerous, Inspectors are directed to obtain samples from plates of all boilers about to be constructed in their Districts, and subject them to an actual test before the boilers are begun, and to represent to boiler manufacturers the importance to themselves of this precaution. Whenever results of such tests fall below the tensile strength stamped on the iron, Inspectors must report such results at once to this office, in a statement according strictly with the formula prescribed in Rule 4, page 18, Revised Rules and Regulations. Inspectors are also directed to carefully ascertain that all samples of boiler-plates tested by them have the homogeneousness and toughness required by section 4,430 Revised Statutes, and to be especially careful in that respect where the plates are stamped above 50,000 pounds tensile strength.

### The Brooks Locomotive Works.

The annexed drawings represent two locomotives of different pattern as constructed at the Brooks Locomotive Works, Dunkirk, N. Y. These Works are quite extensive, furnished with superior tools, and have facilities for constructing locomotives adapted for every class of railway service. There are no better locomotives in this country than those built at these works. They are symmetrical in appearance, strong, uncomplicated and well finished. Some idea of the proportions and general construction of two engines adapted for different purposes may be obtained by reference to the line drawings given here of an eight-wheeled locomotive "passenger engine;" and, what is termed, a "Saddle Tank Switching Locomotive Engine."

The former has the following dimensions, &c.: Cylinders 17 inches in diameter and 24 inches stroke; drivers 4 in number, and 60½ inches in diameter outside of the tyre; gauge 4 feet 8½ inches; fuel, bituminous coal or wood; weight of engine in working order, about 67,000 pounds; total wheel base of engine 22 feet 5 inches; rigid wheel-base 8 feet; total wheel-base of engine and tender 42 feet 5 inches. The boiler is of the type kind known as the "Wagon Top," and is made of homogeneous cast steel 5-16ths inch thick. The cylinder courses are of one plate each, the horizontal seams placed above the water line. The

horizontal seams and waist connection seams are double riveted. The cylindrical part of the boiler at the smoke box end is 46½ inches in diameter, made telescoping back; dome, 28 inches in diameter and 26 inches high, placed over the fire box. There are 160 iron flues, 2 inches in diameter, 11 feet 5 inches long, set with copper bushing at fire-box end. Boiler is tested under a steam pressure of 165 pounds before the lagging is put on. The fire-box also made of homogeneous steel is 66 inches long, 35 inches wide inside; sides, crown and back sheets 5-16ths inch thick; flue sheets ½ inch thick; water space 3 inches back and sides, 4 inches front, stay bolts of Ulster iron ½ inch diameter, placed 4½ inches apart, screwed and riveted over sheets at both ends; crown bars made of two bars iron 4½ by ½ inch, welded at both ends, placed 5½ inches from centre to centre; ends have a firm bearing on side sheets; crown sheet is securely fastened to bars by rivets placed not over 4½ by 5½ inches apart.

The tender wheels are 30 inches in diameter, and the tank has a capacity for 2400 gallons.

Weight of engine in working order:

| | |
|---|---|
| On each driver, about | 11,000 lbs. |
| On all the drivers, about | 14,000 " |
| On truck, about | 23,000 " |
| Total weight of engine, about | 67,000 " |

Tonnage the above engine will haul, in addition to the weight of the engine and tender, the track being in good condition and comparatively free from curves:

| | | |
|---|---|---|
| On a level | 1,200 | gross tons. |
| " 20 ft. grade | 550 | " " |
| " 40 ft. " | 320 | " " |
| " 60 ft. " | 240 | " " |
| " 80 ft. " | 170 | " " |
| " 100 ft. " | 135 | " " |

The Saddle Tank Switching Locomotive Engine has six coupled wheels; cylinders 16 inches diameter and 22 inches stroke; six drivers, 44 inches in diameter outside of tyre; gauge 4 feet 8½ inches; fuel bituminous coal or wood; weight of engine in working order about 70,000 pounds; total wheel-base of engine 9 feet 9 inches; rigid wheel-base 9 feet 9 inches. The Boiler is of the kind known as "Straight" and is of homogeneous steel 5-16ths inch thick; 46½ inches diameter at smoke box end, made telescoping back; dome 26 inches diameter and 26 inches high, placed forward of fire box; there are 133 flues, 2 inches diameter, 12 feet long; boiler is tested under a pressure of 165 pounds; fire box of homogeneous steel is 51 inches long, 35 inches wide inside; sides, crown and back sheets 5-16ths inch thick; flue sheets ½ inch thick; water space 3 inches, back, sides and front. The tank over boiler has capacity for 1000 gallons of water.

Weight of the above engine in working order, including the weight of 1,000 gallons water:

| | |
|---|---|
| On each driving wheel, about | 11,666 lbs. |
| On all the driving wheels, about | 70,000 " |
| Total weight of engine, about | 70,000 " |

Tonnage the above engine will haul, in addition to the weight of the engine, the track being in good condition and comparatively free from curves:

| | | |
|---|---|---|
| On a level | 1400 | gross tons. |
| On a 20 ft. grade | 675 | " " |
| On a 40 " " | 430 | " " |
| On a 60 " " | 315 | " " |
| On a 80 " " | 250 | " " |
| On a 100 " " | 200 | " " |

These engines are finished with substantial fittings, without elaborate ornamentation, they have a solid mechanical appearance, indicating strength and capability for the work to be done, and no pains are spared to secure proportions and materials which experience has proved to be the best.

The officers of the Brooks Locomotive Works are H. G. Brooks, President and Superintendent, and M. L. Hinman, Secretary and Treasurer.

### Boston and Providence Railroad.

Compared with the previous year, the gross earnings show a decrease of $94,397 96, with a decrease in expenses of $24,066 16. The report says:

The directors regret to say that the falling off in receipts which has been noticed for the past five years, still continues. The gross receipts of these years were as follows:

| | |
|---|---|
| 1872 | $1,716,899 |
| 1873 | 1,822,108 |
| 1874 | 1,687,279 |
| 1875 | 1,581,258 |
| 1876 | 1,467,759 |
| For the year closing Sept. 30, 1877 | 1,373,361 |

There has been a very marked decrease in expenses in each of these years, as compared with the preceding ones, as has been indicated in the successive annual reports.

The falling off in gross receipts is likely to continue for some time longer, owing to many and varied causes.

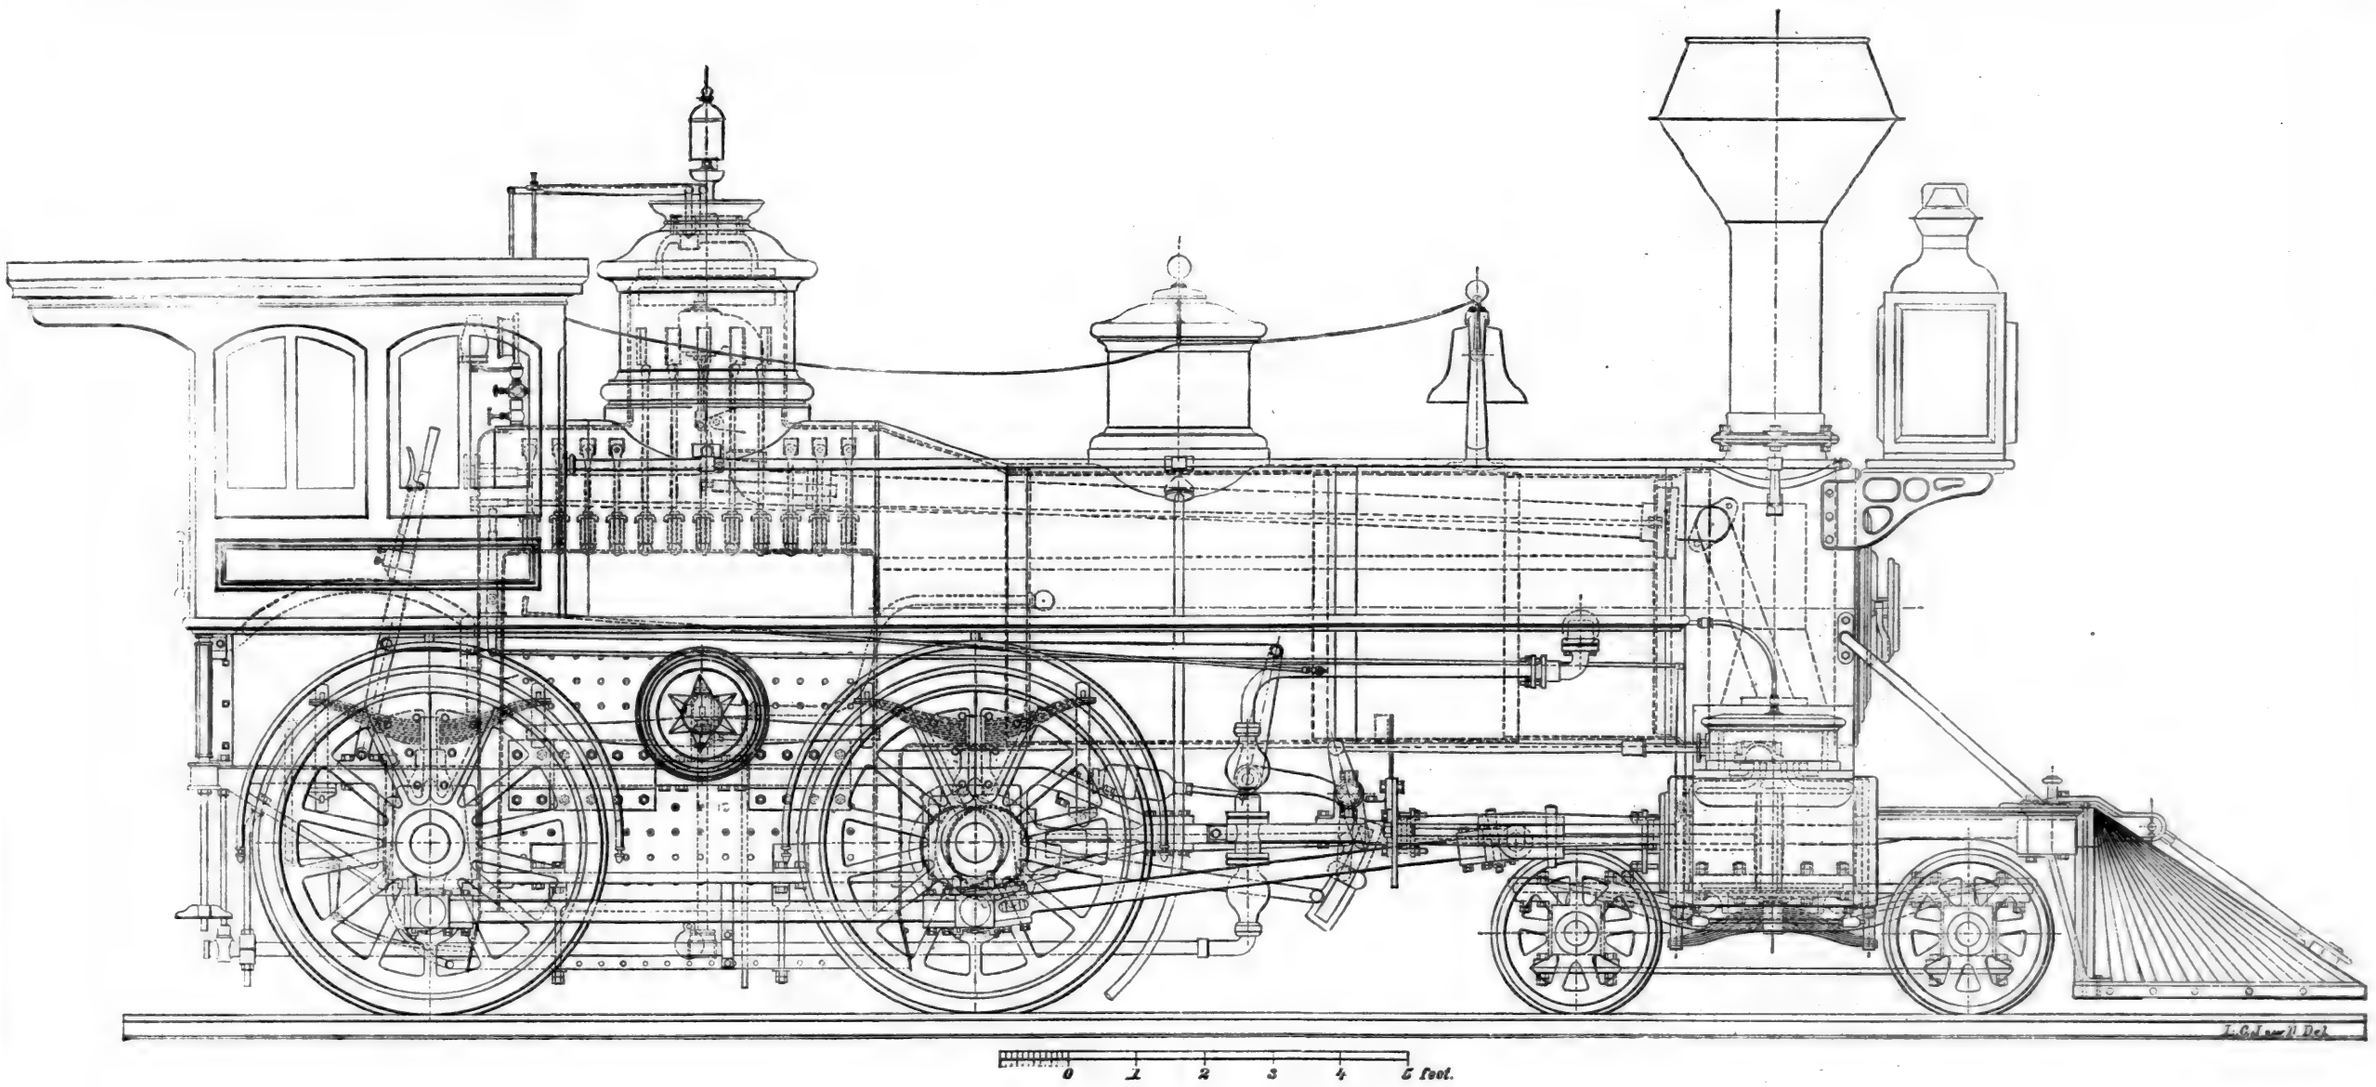
The report of the directors to the Railroad Commissioners shows the number of miles run by our trains during the year to have been 893,067, against 894,871 the previous year. The whole number of passengers carried this year was 8,197,600, against 8,475,378 for the former period. The whole number carried one mile 35,995,048, against 37,648,007, and the number of tons of freight 631,850, against 589,643.

In the reduction of our receipts, the amount of $59,442 14 is due to the diminution of our freight business, and $30,712 15 to the falling off in returns from passenger traffic.

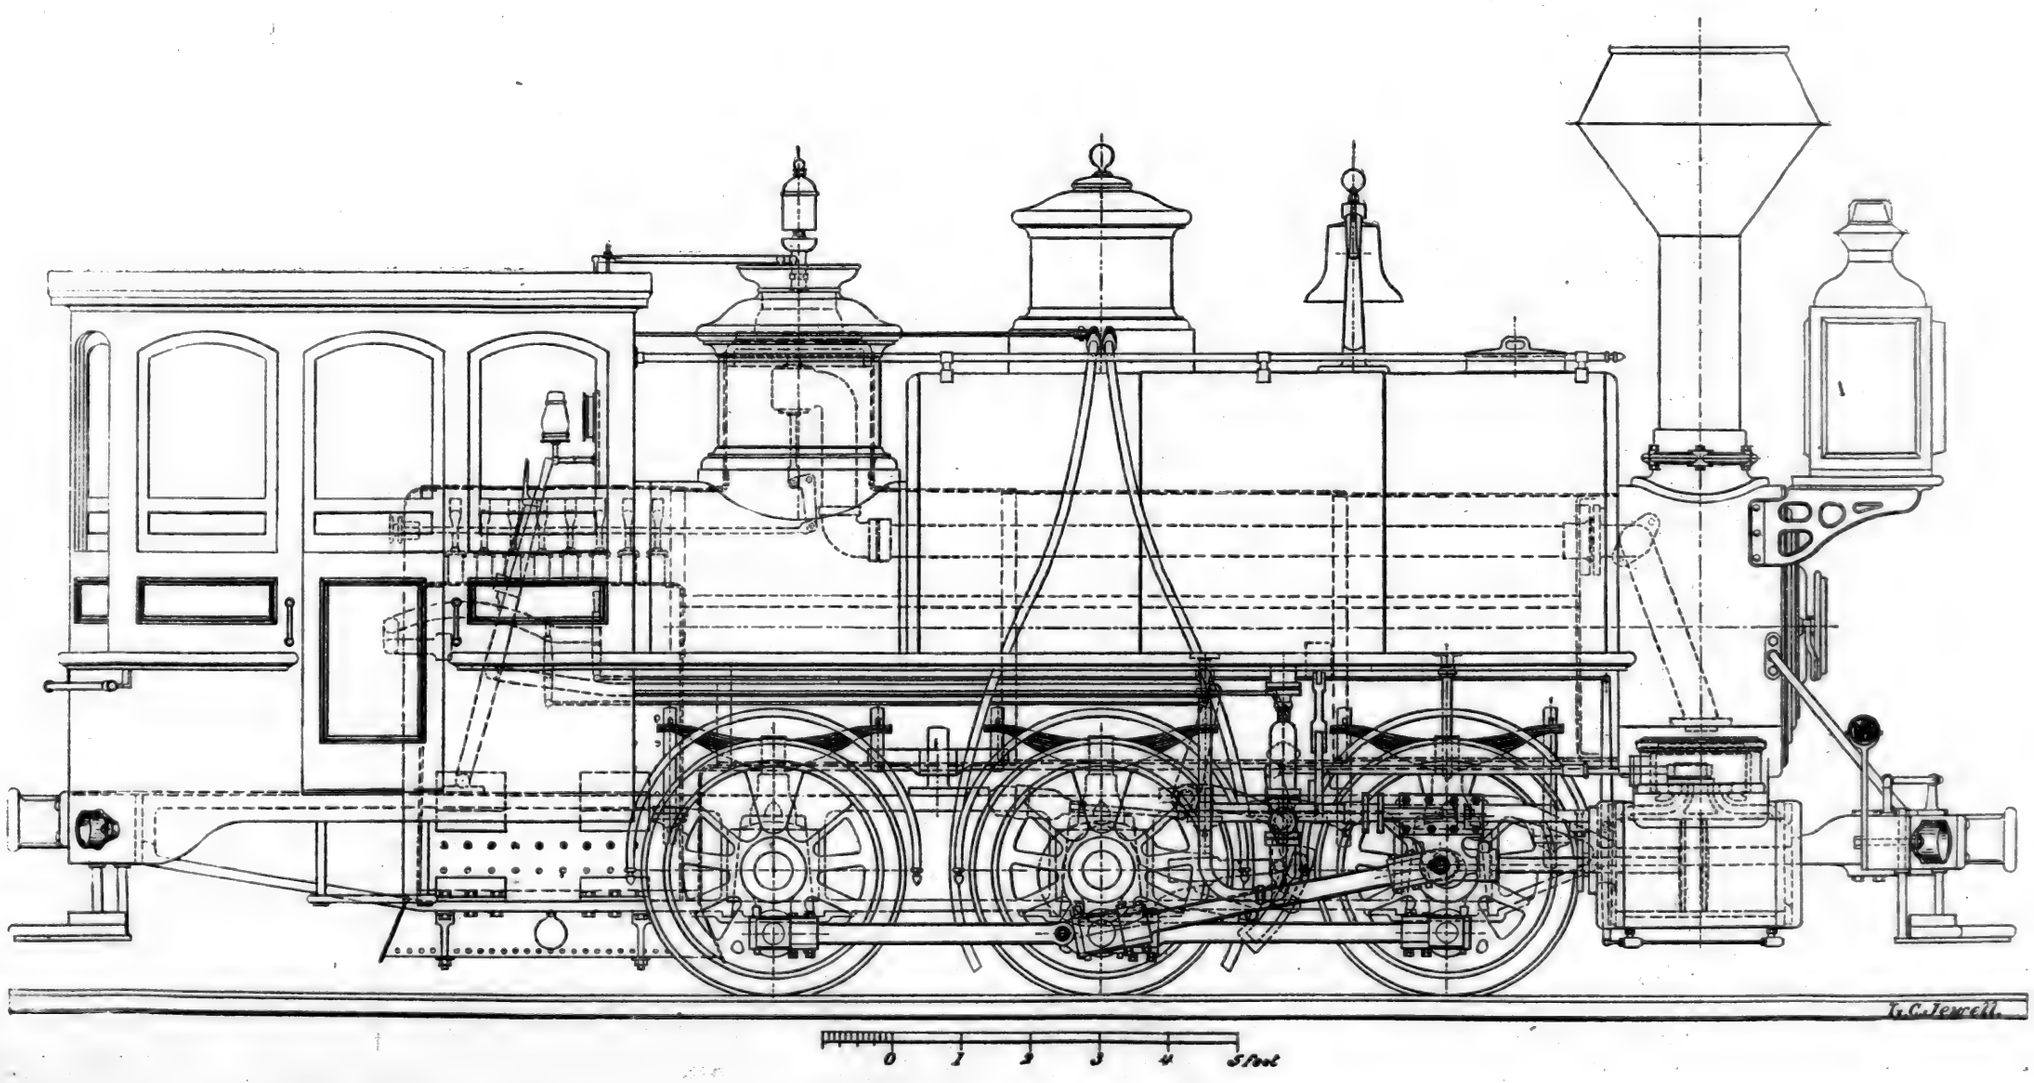
SUMMARY.

| | |
|---|---|
| Less miles run the present year as compared with the last | 1,804 |
| Less number of passengers carried the present year as compared with the last | 277,778 |
| Less number of passengers carried one mile the present year as compared with the last | 1,952,964 |
| More tons of freight carried the present year as compared with the last | 42,216 |

The accounts of the year have been made up very thoroughly and carefully. Two dividends of three per cent. each have been declared, free of taxation, amounting to $240,000, while a surplus of $7,953 77 was carried to the credit of profit and loss account. The State and local taxes amounted to a trifle more than one dollar fifty cents on each share.



In 1873, the directors were authorized to issue one million of seven per cent. bonds, having twenty years to run, which with outstanding notes would have been more than ample to close up all indebtedness. Only one half of these long bonds were issued, and the remainder of the debt was thrown into notes covering a series of years. This plan was adopted on the theory that as the notes fell due, they could probably be renewed at lower rates of interest, and that at times they might be temporarily, if not permanently reduced in amount. There has been no floating indebtedness, these notes being held for the most part by savings banks or moneyed institutions in large amounts, and they mature as follows:



| | |
|---|---|
| 1877, Notes | $227,000 |
| 1878, do | 47,000 |
| 1879, do | 100,000 |
| 1880, do | 200,000 |
| 1881, do | 120,000 |
| 1882, do | 100,000 |
| | $794,000 |
| 1893, Bonds | 500,000 |
| | $1,294,000 |

Authority to renew such portion of these notes when they mature, as may be necessary, will be asked, in accordance with the notice given in the call for the Annual meeting.

The new bridge over the Blackstone River, at Central Falls, has been completed and subjected to severe tests. The entire cost will not exceed sixty five thousand dollars, about equally divided between masonry and iron, while six years ago the estimated cost of the iron alone was sixty thousand dollars. It is a matter of congratulation that this important bridge has been so thoroughly rebuilt, and great credit is due to the Edge-Moor Iron Company, of Wilmington, Delaware, for the workmanship.

The necessity for this outlay will be apparent to any of the stockholders who were so unfortunate, during the past spring, as to be inconvenienced in their passage to or from New York, by the burning of the wooden Cos-Cob bridge on the line of the New Haven Railroad. The part destroyed was almost identical in length with the Central Falls bridge. As stated in the last report, the rebuilding of the piers and abutments was even more necessary than the replacing of the bridge proper. Forty thousand dollars of the

cost of this new work have been charged directly to profit and loss, and the remaining cost, for the most part, has already been charged to expenses.

Ten miles of single track or five miles of double track remain to be renewed with steel rails on the main road bed.

The line of larger boats from Providence to New York which started in June last, proved to be very attractive and popular, and took its fair share of travel. It was closed for the season a month earlier than was intended, owing to the disaster which befell the Massachusetts. This powerful steamboat is being most thoroughly repaired, and, without doubt, will be even more staunch than when first launched.

The Boston and Providence Railroad Corporation has no ownership of any description or nature in any steamboat, nor in the stock or bonds of any steamboat company, but it naturally takes a great interest in all such connecting lines.

It is proper to state that the greater efficiency of this, the original steamboat route between Boston and New York, was construed as a hostile attack by one of the competing lines. Consequently an agreement for the sustaining of freights at remunerative rates, was broken up, in April last, thirty days notice to that effect having been previously served upon us, and much of the business between Boston and New York is at present done at little profit, if not at a positive loss.

A direct competing line to Providence, four miles longer than your road, was opened in September last, over the Massachusetts and Rhode Island and Rhode Island and Massachusetts roads, leased to the New England Corporation, to which your attention was called last year.

The effects of this competition are not yet fully developed, and cannot be definitely estimated.

### South Mountain Railroad.

The Lebanon (Penn.) Daily News says that work has been resumed on the South Mountain Railroad between Jonestown and Fredericksburg, and then adds:

The road is to be leveled off and receive its final dressing preparatory to the sills being laid down, which will take place as soon as possible, teams having been brought into requisition and at present are delivering the same. This looks decidedly like business, and if nothing interferes in a short time a track will be laid between the above two places. The road is graded over three-fourths between Harrisburg and Hamburg, and in the space of six months the road could be placed in running condition were it not for the scarcity of money and the necessity of waiting for the completion of the Poughkeepsie bridge.

### Pittsburg and Connellsville Railroad.

At the annual meeting of the stockholders of the Pittsburg and Connellsville Railroad Company, held at Pittsburgh, Penn., on the 3d inst., the following gentlemen were re-elected directors for the ensuing year: John King, Jr., Mendes Cohen, Hugh Sisson, Charles Webb, John Donnell Smith, Baltimore, Md.; W. S. Bissell, G. L. B. Fetterman, Wm. Baldwin, Charles Donnelly, John D. Scully, Pittsburg, Pa.; W. H. Koontz, Somerset, Pa.; and W. H. Markle, Greensburg, Pa. John King, Jr., was re-elected president, C. Donnelly treasurer and J. B. Washington secretary.

From the report which was presented we learn that the gross earnings for the year ending September 30, 1877, were $1,888,484 22, the operating expenses $982,015 58, and the net earnings $406,418 64—a decrease, compared with the previous year: in gross earnings of $270,540 18, in operating expenses of $147,284 47, and in net earnings of $123 255 66.

The ratio of working expenses was 70.73 per cent, an increase of 0.267 per cent., as compared with last year.

During the year 699,276 tons of coke were transported, and 438,792 tons of coal, of which 280,430 tons were gas coal.

The revenue from the transportation of passengers was $250,006 59; from the transportation of coal, $249,390 36; and from the transportation of oil, $149,704 27.

The cost for maintenance of road was $307,877 83; for maintenance of equipment, $335,885 74; and for transportation, $287,823 67.

About 2,150 tons of new rails were purchased, of which 1447 tons were of good iron, and about 704 tons were of steel.

### New York and New England Railroad.

At the annual meeting of the stockholders of the New York and New England Railroad Company, held in Boston on the 4th inst., the second annual report was presented, and the following gentlemen elected directors for the ensuing year: George W. Baldwin, LeGrand B. Cannon, Thomas Dickson, R. Suydam Grant, William T. Hart, Lewis Hecht, Frederick J. Kingsbury, Edward W. Kinsley, Jesse Metcalf, George S. Moulton, Gorham P. Pomroy, George M. Rice, James Roosevelt, James Sturgis, William W. Tucker.

This list is the same as that of last year, Mr. John F. Slater retiring and giving place to Mr. George S. Moulton, and Mr. William W. Tucker taking the place vacated by Mr. Charles Dana. President Hart referred to this change, and said it was for the interest of the road and the State that Mr. Tucker should have a place in the Board, as he is of the Executive Council of the State, and the State has so large an interest it would be well for the Council to be represented at the meeting of the Directors.

Mr. Moulton is of the State of Connecticut, on the line of the road, and will ably fill the vacancy in the quota from that State. The list as presented was adopted, the vote representing 40,800 shares, all of which were given each name.

One of the stockholders asked concerning the condition of the road, to which Mr. Hart replied that the road had much improved during the past year, not only in the character of the stock but in the returns for business. The Philadelphia business had increased largely in the last two months, and the road had been obliged to enlarge their facilities in Boston for handling the extra freight. The north side of the passenger station is now being partitioned off for the reception of outgoing freight. The arrangements made for additional advantages by these connections promise well, and there is every reason to feel encouraged with the prospects. Mr. Hart referred to the stockholders looking to the State for aid. He hoped the stockholders would try and rely upon themselves and take care of them, for the bonds ought to be worth par. The road would not need money very fast, and the investment he considered a prime one.

An Auditing Committee was suggested by the President, and Messrs. Henry N. Stone, Matthew Boiles and John Goldthwait were chosen. The meeting then dissolved.

### Columbus and Maysville Railroad.

The Columbus and Maysville Railroad is described by one of the corporators as follows:

It starts on the Ohio river, as its base; thence north at ten miles it is intersected by the Cincinnati and Portsmouth Narrow gauge; thence again north ten miles by the Cincinnati Eastern Narrow-gauge; thence again north ten miles, by the Cincinnati and Fayetteville railroad; thence again north seven miles by the Hillsboro and Cincinnati railroad; thence again north ten miles by the Marietta and Cincinnati railroad; thence again north fifteen miles by the Muskingum Valley railroad and the Dayton and Southeastern Narrow-gauge and Springfield and Pomeroy Narrow gauge at Washington C. H.; and thence again north thirty five miles to Columbus, the center of the railroad system of the State. And with none of these roads is our road in competition, but they are severally feeders to it, as it is to each of them at their several intersections.

### Ohio Railroads.

The survey for the new route of the Columbus and Gallipolis Railroad has been completed. The estimates will soon be made, when the matter of awarding the contract for the construction of the road will be considered by the directors.

Trains on the Scioto Valley Railroad will not run through to Portsmouth until about a week before Christmas.

Work will soon be commenced on the Wheeling and Lake Erie railroad, between Sandusky and Milan.

Tracklaying has been commenced on the Bellaire and Southwestern Narrow Gauge Railroad.

A railroad is proposed from Ripley to Xenia.

☞ The Toledo and Ann Arbor Railroad Company has been organized by the election of James M. Ashley of Dundee, Mich., President, and A. W. Hamilton Secretary. The Ann Arbor Courier says "it is the intention of the company to push the road through to a completion at the earliest possible moment, and workmen are now at work near Dundee. As nearly all the road bed is completed, many of the ties have been got out, and some of the bridges made, the work of finishing the road ready for the iron can soon be accomplished."

☞ Articles have been filed with the Secretary of State of California of consolidation between the Stockton and Visalia and the Stockton and Copperopolis Railroad Companies. The capital stock of the new incorporation is $7,000,000. Directors—Leland Stanford, Mark Hopkins, E. H. Miller, Jr., Robert Robinson and N. T. Smith.

### Sheehan's Steelifying Process.

We have read with interest the reports of 14 railways in the United States, now making use of this invention for the heating surfaces of locomotives, and are glad to learn it is about to be introduced into this country, as prominently amongst its many advantages stands cheapness, and our railways may be congratulated on its advent.

The reduction in cost arises in a great measure from the fact, that a great portion of the chemicals required for the process can be used and reused *ad infinitum* and the time occupied in the process is 6 hours as against 44 required for case hardening. Again the iron steelifying can be heated and softened so as to allow of its being easily worked in a lathe, planer, or vice, and afterward tempered in the ordinary way; there is also less trouble in finishing after being hardened, and when we remember the uncertainty of case hardening, the value of Sheenan's process can hardly be overrated.

Several of the American railway companies consider the saving quite 75 per cent, enabling, as it does, the engine to run a very much longer time without repairing, whilst all admit "it will do all it claims."

Case hardening is a mere crystallization of the surface; this process must not be supposed to coat with steel; it actually at will converts the worst Cleveland iron into fine steel to a depth of from 1 16 to ¼ of an inch, with, it appears, a positive certainty of success. No special furnaces are required nor is special knowledge necessary.

The plant may be said to consist of iron boxes rendered more valuable by having all the impurities of cast iron driven out of them during the process. The patentee claims adaptability to many other purposes, but we confine ourselves to noticing its value as applied to the tearing and rubbing surfaces of locomotives. The saving to all large companies will be very appreciable, and shareholders will doubtless view its introduction with satisfaction, when it is known that the only charge to the companies will be a small royalty per locomotive, and when its unquestionable advantages are considered, its general adaptation would no doubt speedily follow.—*Herapath.*

### United States Four per cent Bonds.

The following is the reply of the Secretary of the Treasury to Messrs. James B. Colgate & Co., of this city, who offered to purchase $150,000 in four cent bonds if the Secretary would receive in payment silver bullion to an amount sufficient to coin $150,000 in silver:

You offer to purchase $150,000 of four per cent bonds if I will receive in payment silver bullion to an amount sufficient to coin 150,000 silver dollars, containing in each 412½ grains of standard silver. I am authorized to issue these bonds only at par for coin, and as gold coin only is authorized by law, I can only receive gold coin. This department has sold within six months over $75,000,000 of these bonds at par for gold coin. With $150,000 of bonds or gold coin I can now buy silver enough to coin 168,830 of the silver dollars you offer, or, to state it differently, you can buy with $137,337 in gold coin enough silver dollars to pay, as you propose for $150 000 of four per cent bonds, and thus an experienced broker can make the handsome profit of $12,668. It is true you offer to take silver dollars for your interest, but I do not see how this helps the government, unless it makes this the pretext to pay silver dollars to those who paid gold for their bonds; but you would hardly think this fair or honest. The government might find this expedient to pay a cheaper dollar so convenient that it might think it better to adopt the Latin ratio of 15½ of silver to one of gold, and coin a dollar of 400 grains with which to pay you. I know you would not think this fair or honest. It might think a subsidiary dollar, containing 385 grains is good enough to pay to bondholders. This I am sure you would not think fair or honest. I must, therefore, respectfully decline your offer and ask you to pay gold coin, as others have done, with the confident hope that the United States will never pay you in a coin of less value than it exacts of you.

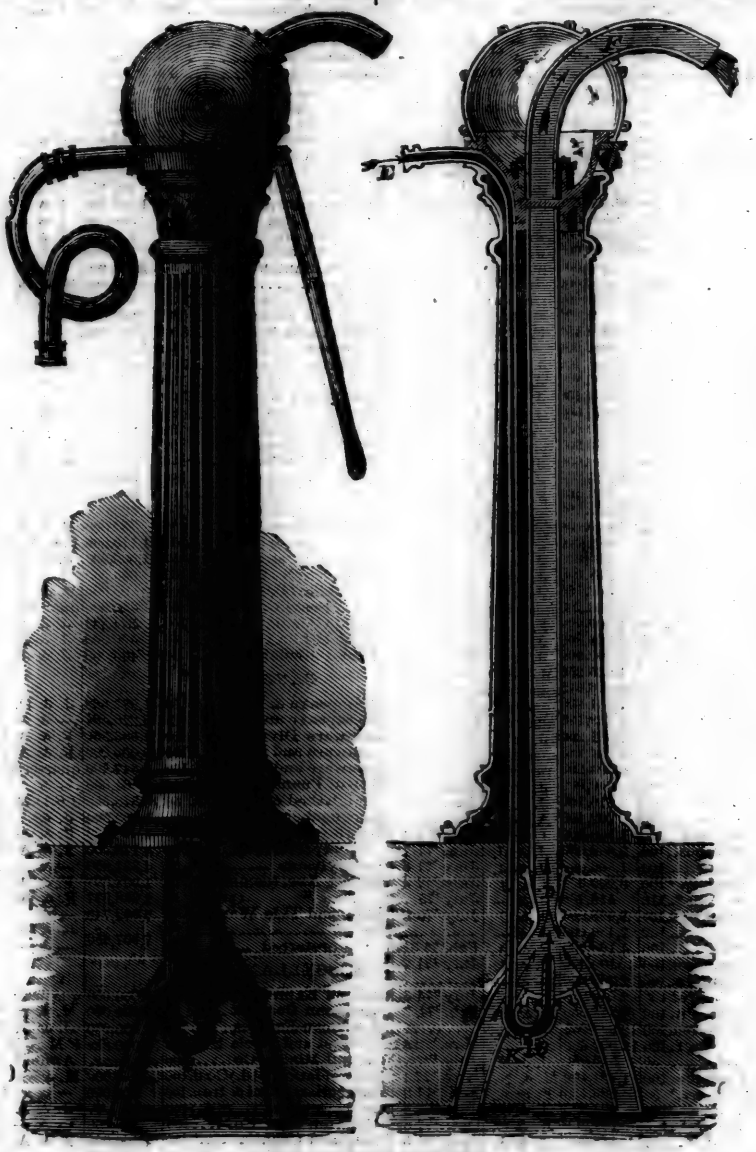
### The Grain Trade of Buffalo.

The Buffalo Commercial Advertiser, in publishing its statements of the flour and grain trade of that city for November, says:

"Our figures show a very gratifying gain over the business of preceding years, both for the month and season. The total receipts of all kinds of grain for November were 8,574,000 bushels this year, to 5,924,000 last year, and 8,355,000 in 1876. It should be remembered that the above cover the arrivals by lake alone. From the opening of navigation to Dec. 1 the receipts of grain, exclusive of flour, reached 60,524,000 bushels, to 44,553,000 last season, and 52,289,000 in the year preceding. With one single exception this is the heaviest grain movement in the history of the port. The exception in 1873, when the aggregate for the corresponding months was 65,198,000 bushels. The years standing next in order were 1871, which shows 59,932,000 bushels, 1872 showing 58,285,000 bushels, and 1862, which showed 58,115,000 bushels. The movement of flour by lake, however, has been steadily declining for several years. The receipts this season stand at 624,000 barrels, to 777,000 in 1876 and 1,311,000 in the previous year. The reason of this is the increased competition of the railways and the special inducements offered by them to the millers of the Northwest. The railways are determined to have the flour anyway. If they cannot secure it at one price they will be sure to offer another. The canal figures also compare very favorably with those for previous years. The total shipments for the season were 48,632,000 bushels, to 27,774,000 for last year, and 35,481,000 bushels in 1875. In 1873 the grain movement by canal exceeded the present one, standing at 50,854,000 bushels; but that is the single exception. One of the most pleasing features of the exhibit is that part showing that a much larger percentage of lake receipts went forward by canal this year than formerly. The total receipts by lake in 1876, as already given, were 44,552,000 bushels, and the shipments by canal were 27,774,000 bushels, indicating that 16,775,000 bushels sought some other route to the East. This year the aggregate grain arrivals by lake were 60,523,000 bushels, and the canal shipments were 48,632,000. By this it will be seen that the canal secured all but 11,891,000 bushels of the lake receipts this season, while it lost nearly 17,000,000 bushels in 1870. The greatest increase this year was in corn, the shipments of which showed a clear gain of 19,000,000 bushels over those for the preceding season, or an amount equal to one and a half times the entire movement for 1876. Taken as a whole, the season just closing has been a very fair one for the water route."

### Hawk's Nest and Gauley River Railroad.

A certificate of incorporation has been issued by the Secretary of State of West Virginia to the Hawk's Nest and Gauley River Railroad Company, who design constructing a railroad from Hawk's Nest station, on the Chesapeake and Ohio Railroad, by way of Mill and Rich creeks, to Gauley river, at or near the mouth of said Rich creek; thence down said Gauley river to a point at or near the falls of Kanawha river through the county of Fayette. The principal business office of said corporation shall be established at Anstead, in said county. The capital stock of the corporation will be $100,000, with the right to increase it to $500,000 when deemed necessary. The number of shares in the capital stock is 2,000, and the par value of each $50.



☞ The name of the Waynesville, Port Williams and Jeffersonville Railroad Company has been changed by decree of court to Columbus, Washington and Cincinnati Railroad Company; and the eastern terminus has been changed from

Jeffersonville to Washington, in Fayette county, Ohio.

### Leng & Ogden's Steam Railroad Water Station.

The annexed engraving represents an exterior and sectional view of an apparatus for steam railroad water stations. It consists of a hollow cast iron fluted column, with a spherical cap, which, besides being ornamental, serves to conceal from view and protect the pipes leading to and from the syphon that is placed below the base. The pipes are carried up to a convenient height, so that the locomotive engineer can easily move the hose to and from the tender. In the vertical section, A is the body of the syphon; B, drip valve; C, C, suction pipes; D, delivery pipe; E, steam pipe connected with boiler; F, discharge pipe, into tender; J, spherical hollow cap; K, water reservoir. The operation is similar to that already described. The engineer attaches a hose between E and a steam valve on the boiler. Steam passes through the pipe, E, to the body of the syphon, A, forces the air from it, forming a partial vacuum, and water rises into the pipe, D, and is discharged warm through F into the tender. The handle serves to turn the discharge pipe and hose in any direction; the discharge tube can be made of iron if preferred. When steam is shut off, all the water in the pipe returns into the well, and any condensed steam passes off through the drip valve, B, leaving nothing to freeze.

In using this steam syphon, tank houses, stationary power and attendance are dispensed with,

STEAM RAILROAD WATER STATION.

and its non-liability to freeze up is one of its best features. As sand, small chips, grain, etc., will not obstruct or interfere with its action, it becomes highly serviceable as a bilge pump for steam vessels. By placing a sufficient number of them on a steam vessel, the entire boiler power, if necessary, can be used in an emergency to free the vessel from water; and as the steam syphon does not depend for its action in any manner upon the engines of the ship, it will remain in perfect order, work effectively, and can be the means of saving the vessel, after all the engines are entirely disabled, and the other pumps have ceased to work.

The advantages of this contrivance are manifest. It is so extremely simple, and easily applied that it commends itself to all more immediately interested in the machinery of railroads and steam vessels. Furthermore, it takes up but little space, and has nothing about it that can wear out or get out of order. It can be used as a bilge pump, portable railway pump, fire pump, water station, or in breweries, chemical works, distilleries, gas works, mines, paper mills, tanneries, etc. The invention is protected by letters patent. Full particulars may be had from Messrs. Leng & Ogden, 4 Fletcher and 212 Pearl St., New York.

### Four per cent Registered Bonds.

The following circular in regard to the payment of interest on the four per cent registered stock of 1907, acts of July 14, 1870, and January 20, 1871, has just been issued by the Treasury Department:

The books of the registered four per cent bonds, authorized by the act of Congress approved July 14, 1870, and January 20, 1871, will be closed for the preparation of interest schedules as follows: the books embracing registered stock held abroad will be closed on the evenings of the last days of February, May, August and November, and reopened for transfer and exchange of stock on the mornings of the 16th of March, June, September and December following. The books embracing registered stock held in the United States will be closed on the evenings of the 15th of March, June, September and December, and reopened for the transfer and exchange of stock on the mornings of the 1st of January, April, July and October following. Stock issued on exchanges and transfers between the 16th of March, June, September and December and the first days of succeeding months will bear interest from April 1, July 1, October 1 or January 1, as the case may be.

☞ The directors of the Eastern Railroad Company are advised that the special statute and mortgage, under which they are now acting, in effect prohibits their paying interest on the bonds of the Portsmouth, Great Falls and Conway Railroad Co. To settle the question finally, suit has been brought in the Supreme Judicial Court, which will be pushed to the speediest possible conclusion, and will be decided, it is believed, within three months. Meanwhile, as security for the bondholders, the directors have set aside a fund equal to the interest accruing December 1, which is appropriated solely to paying that interest, should the Court decide in favor of the right of the company to pay it.

☞ The Mayor of Memphis, Tennessee, gives notice that the first coupon on the "Compromise bonds," due 1st January next, will be paid at maturity in New York city. The compromise bonds are the results of the refunding of the old debt of Memphis City at the rate of 50 cents in the dollar, including the unpaid coupons and interest on the same. The ordinance authorizing the refunding operations makes the coupons of the new bonds receivable for taxes, or any debt owing to the city. A sinking fund is provided for, and commissioners are appointed to whom the interest and the sinking fund are to be paid, and who shall act as trustees for the protection of the bondholders.

☞ The officers of the Duncan Silver Mining Co., recently elected, are: Thomas Appleton, President, L. B. Stone Secretary and Treasurer. The receipts during the past year have been $152,484 85, the expenses $152,456 03, balance $28 82. The present liabilities of the company are about $19,000.

### Financial and Commercial Affairs.

Notwithstanding the reports of financial troubles, and the somewhat adverse tenor of the last city bank statement, the Money movement has been comparatively easy for the borrowing interest, the urgent wants of which have been on a moderate scale, and readily met on the basis of the current rates, which have shown little variation. Call loans were quoted here at the close at from 4@7 as extremes, in most instances at 5 @6 per cent to the Stock Exchange operators, and very choice to prime mercantile credits were rated at 5½@7½ per cent per annum for the best names. The City bank exhibit of last week indicated an enlargement in the loan and discount average of $3,099,800, with an increase in the item of circulation of $9,800. The average of deposits was augmented $726,600. The legal tender reserve was increased $830,500; and the specie average reduced $1,448,800. The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $9 663,425, as against $10,658,375 the preceding week. The City bank exchanges in currency reached $369,512,965, or a daily average of $73,902,593.

The U. S. Sub-Treasury receipts in November were $56,688,660 (of which $6,902,228 from Customs;) payments, $58,688,665, (of which $4,948,-413 of coin interest.)

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency, $8,816,836; special deposit of legal

tenders for the redemption of certificates of deposit, $36,055,000; Coin, $133,970,214, including of Coin certificates, $32,891,400.

The outstanding amount of legal tender notes is $351,340,288. The National bank circulation is now $319,219,599 of currency notes and $1,412,120 of national gold bank notes. National Bank notes received at the Treasury Department last week for redemption were to the amount of $3,846,000.

A better demand has been reported for most issues of Government securities, since our last, especially from investment buyers, who have been purchasing in more liberal amounts, particularly of the later issues, on a somewhat firmer basis as to values. At the close on Wednesday the current quotations were as follows:

United States currency sixes, 120@—; do. 6s, 1881, registered, 107½@107¾; do. coupon, 110¾@111; do. 1865, new, registered, 103@103½; do. coupon, 106@106½; do. 1867, registered, 106@106¼; do. coupon, 109@109¼; do. 1868, registered, 108½@109; do. coupon, 111½@112¼; do. ten-forties, registered, 108½@108⅝; do. coupon, 108⅝@108⅞; do. five per cents, 1881, registered, 107@107½; do. coupon, 106⅞@107½; do. 4½ per cents, 1891, registered, 104⅞@105½; do. coupon, 104⅞@105½; do. 4 per cents, 1907, reg., 102⅜@102⅞; do. coupon, 102¾@103.

The amount of U. S. bonds held by the Treasurer of the United States as security for the National Bank circulation is $345,130,550, and $14,373,000 as security for public deposits.

The disbursements of the U. S. Treasury in November reached $15,840,922, including on account of civil and miscellaneous, $3,715,787 85; war, $7,553,239 27; navy, $1,517,720 79; interior (Indians and pensions), $3,054 174.

The aggregate of the outstanding U. S. currency of all denominations, December 1st, was $369,829,686; including of old demand notes, $63,702 50; legal tender notes, $351,340,288; one year notes of 1863, $54,165; two year notes of 1863, $16,050; two year coupon notes of 1863, $23,950; compound interest notes, $288,510; fractional currency, $18,043,020 52.

State Bonds have been more sought after on investment account, and have been generally quoted higher and quite firm, with very moderate offerings noted of the favorite loans. Railway Mortgage loans have been in better request, chiefly for investment purposes, and have advanced quite generally in price, closing buoyantly. And in the line of Railway and Miscellaneous share property the business of the week has been moderately active, and the temper of the speculation, in the main, bearish, though toward the close, rather more steadiness was apparent.

The income of the Government from internal revenues last week was about three millions, and from Customs last week again about two millions.

The liquidation of the public debt of the United States in November reached $1,323,685; and since July 1, $14,131,157.

Gold weakened toward the close, under a less confident speculative demand, and a limited call from mercantile sources. The extremes of the rice during the week have been 102⅝@103⅛, closing on Wednesday at 102⅛, as against 102⅞ on Wednesday of the preceding week. The sale of a million dollars in Gold on Government account on Dec. 1, was at 102.81@102.87. The specie outflow last week was only $248,795, making the total exports of specie hence since January 1, $24,521,678 against $42,537,823 the same time in the preceding year. The imports of specie at this port last week reached $1,082,652, and since January 1st have been $14,288,725, as against $16,132,359 same time last year. The Customs demand for gold last week reached $1,557,152 or an average of $311,431 per day.

Foreign Exchange has been in quite moderate request and quoted easier in price. Bankers' sixty day bills on London closed on Wednesday at $4 80½@$4 81; sight bills on London at $4 83½@$4 84½ to the £ sterling. The week's imports of Dry Goods and general merchandise were to the specie value of $5,432,058 as against $3,401,547 the corresponding week of 1876. The week's import entries of Foreign Merchandise at New York included $953,320 of Dry Goods, and $4,478,738, of General Merchandise. The week's export of Domestic Produce and Miscellaneous Goods from this port were to the value of $6,869,561, against $6,934,606 same week in 1876.

A fairly active business has been noted in the leading kinds of domestic produce, especially in Breadstuffs, Cotton, and Provisions, which have been freely purchased in good part for export, and toward the close quoted generally stronger in price, especially Spring Wheat, old crop Corn and Cotton. Foreign merchandise has been in less demand, but steady, as a rule, as to values. Coffee has been quoted higher. Sugars again lower.

Metals have been less active and quoted weak as to prices. Eglinton Pig Iron quoted at $24@$24 50; Glengarnock $24 75@$25; Coltness $26 50@$27; No. 1 American Pig at $19@$20; No. 2 do. at $17 50@$18 50. Forge $16@$17; American Rails at works $34@$38. Old Rails $18@$19. Wrought Scrap $22@$23. Steel Rails, on the basis of $43@$47. Ingot Copper in more request on the basis of 17¾@17⅞ for early delivery.

Trade in the leading kinds of Hardware, Boots and Shoes and Dry Goods, has been on a restricted scale, with prices however, quoted steady for really desirable styles of stock.

Ocean freights have been less active, and quoted generally lower. Liverpool steamer rates at the close for Grain, quoted at 7@7½d. Provisions, 32s. 6d.@40s.; Leather, 55s.@60s. Measurement Goods at 20s.@25s. per ton; Cotton, ½d.@9-32d. per lb. Liverpool, by sail, Cotton, 7-32d.@½d. Grain, at 7d.; Measurement Goods 15s..; Tobacco 27s. 6d.@30.; Grain rates on charter hence for Cork and orders left off at 6s.; for the Continent at 6s. 3d.@6s. 6d.; and from Baltimore for Cork and orders, 6s. and from Philadelphia at 5s. 10½d.@6s. per quarter. Refined Petroleum hence for Cork and orders, 4s @4s. 6d.; for the Continent, 4s.@4s. 6d. per bbl. Cotton by sail from Charleston or Savannah to Liverpool or Havre at 13-32@7-16d; from Galveston, at ½d; from New Orleans for the Continent 7-8@15 32ct. The Cotton chartering business for Southern port loading has been much during the week. Naval Stores from Wilmington or Charleston for cork and orders at 4s. 3d.@4s. 6d. and 6s. 3d.@6s. 6d.

### Railways Across the Continent of Asia.

No less than four great projects are now under consideration for railways across the Continent of Asia, viz:

The Baranowski project or shortest road between Moscow and Peshawur—the English fortress commanding the valley of the Indus. This starts from Saratoff, crosses the Kirghis country, follows the Amon-Deria, and traverses the mountainous region of the Hindoo-Coosh.

The Lesseps-Cotard project line extends from Orenburg to Peshawur via Omsk, Tashkend, Samare and Balk.

The Bogdanovitch project, line extends from Moscow to Pekin, via Kasar, Katherinoburg, Omsk, Tomsk and Irkutsk.

The Rutothofen project, line joins the Siberian line at Omsk, passing Taschkend, Samarkand and Balk. At the last mentioned point the route turns to the West to Teheran, and rejoins the Tiflis the Russian Caucasian line now under construction.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, November 30, 1877.

JOHN SHERMAN,
Secretary of the Treasury.

### Pacific Railroads.

The Report of the Secretary of the Interior presents a synopsis of the annual reports of the Pacific railroad companies and discusses their indebtedness to the government, as follows:

Under the act of July 1, 1862, and July 2, 1864, subsidy bonds were issued by the United States to six railroad companies (Central Pacific, Kansas Pacific, Union Pacific, Central Branch Union Pacific, Western Pacific and Sioux City and Pacific) to the amount of $64,623,512. These bonds, having thirty years from date to run, will mature, some in 1896, others in 1897 and others in 1898. The semi-annual interest paid on them will amount, at maturity of the bonds, to $116,822,821 60 at simple interest, and to $316,112,571 79 if compounded, or, the principal added thereto, $180,945,833 60 and $380,736,083 79 respectively.

Section 6 of the act approved July 1, 1862, provides that "all compensation for services rendered or the government shall be applied to the payment of said bonds and interest until the whole amount is fully paid." This, however, was amended by section 5 of the act approved July 2, 1864, which provides that "only one-half of the compensation for services rendered for the government by said companies shall be required to be applied to the payment of the bonds issued by the government in aid of the construction of said roads;" which amendment was confirmed by section nine of the act approved March 3, 1871, enacting that the Secretary of the Treasury is hereby directed to pay over in money to the Pacific railroad companies * * * one-half of the compensation * * * for * * * services heretofore or hereafter rendered."

The amount of one-half of transportation accounts for carrying mails, troops, supplies, &c., which has not been paid to the companies, but which has been applied by the government to the payment of their indebtedness, and covered into the Treasury for that purpose, to October 31, 1877, is as follows, viz:

| | |
|---|---|
| Union Pacific Railroad Co | $3,657,139 95 |
| Central Pacific Railroad Co | 1,423,555 74 |
| Kansas Pacific Railroad Co | 1,307,044 31 |
| Western Pacific Railroad Co | 9,865 75 |
| Sioux City and Pacific Railroad Co. | 34,391 46 |
| Central Branch, Union Pacific Railroad Co | 39,700 13 |
| Total | $6,471,197 84 |

The amount of one-half of the same accounts, which has not been paid to the companies, but withheld under provision of section 2 of the act approved March 3, 1873, whereby the Secretary of the Treasury was directed to withhold all payments, &c., and also under a stipulation entered into as regards the Union Pacific Railroad Company, whereby the judgment against the United States in case No. 571, October term, 1875, of the Supreme Court, was not to be collected until after final judgment in the suit to recover sums claimed to be due to the United States as the five per cent of net earnings, and which has been applied by the government to the payment of their indebtedness and covered into the Treasury for that purpose is as follows, viz:

| | |
|---|---|
| Union Pacific Railroad Co | $1,299,652 00 |
| Central Pacific Railroad Co | 708,611 62 |
| Kansas Pacific Railroad | 224,685 75 |
| Western Pacific Railroad Co | 1 25 |
| Sioux City and Pacific Railroad Co | 31,267 34 |
| Central Branch, Union Pacific Railroad Co. | 21,048 22 |
| Total | $2,285,216 18 |
| Total amount covered into the Treasury | $8,756,418 52 |

In addition to this sum the amount of transportation accounts rendered by the companies for services performed, and which remained unpaid October 31, 1877, for lack of proper appropriations or for reason that they were in process of settlement, is quite large, and from the best information to be obtained is as follows, viz:

| | |
|---|---|
| Union Pacific Railroad Co | $1,600,000 |
| Central Pacific Railroad Co | 450,000 |
| Kansas Pacific Railroad Co | 400,000 |
| Western Pacific Railroad Co | |
| Sioux City and Pacific Railroad Co | 12,000 |
| Central Branch, Union Pacific Railroad Co. | 3,000 |
| Total | $2,465,000 |

Total amount paid and to be paid as one-half of transportation accounts to October 31, 1877, is on above basis, $7,708,697 84.

The indebtedness of the companies to the government to October 31, 1877, is as follows, viz:

| | Principal. | Interest. | Total. |
|---|---|---|---|
| Union Pacific | $27,236,512 | $10,740,648 | $37,977,160 |
| Central Pacific | 25,885,120 | 12,519,447 | 38,404,567 |
| Kansas Pacific | 6,303,000 | 2,454,633 | 8,757,633 |
| Western Pacific | 1,970,560 | 988,891 | 2,959,451 |
| Sioux City & Pacific | 1,628,320 | 845,009 | 2,473,329 |
| Central Br., Union Pacific | 1,600,000 | 945,059 | 2,545,059 |
| Totals | $64,623,512 | $28,493,685 | $93,117,197 |

These amounts are subject to increase or decrease as to total indebtedness by the application of the $2,285,216 18 and the $2,465,000 before stated, as the Supreme Court may decide in the suits now pending.

**Can I Obtain a Patent?**

This is the first inquiry that naturally occurs to every author or discoverer of a new idea or improvement. The quickest and best way to obtain a satisfactory answer, without expense, is to write to us describing the invention, with a small sketch. All we need is to get the *idea*. Do not use pale ink. Be brief. Send stamps for postage. We will immediately answer and inform you whether or not your improvement is probably patentable; and if so, give you the necessary instructions for further procedure. Our long experience enables us to decide quickly. For this advice we make *no charge*. All persons who desire to consult us in regard to obtaining patents are cordially invited to do so. We shall be happy to see them in person at our office, or to advise them by letter. In all cases, they may expect from us a careful consideration of their plans, an honest opinion, and a prompt reply. TOTAL COST OF U. S. PATENT, ONLY $55. *N. B.—These are by far the* SAFEST, BEST *and* CHEAPEST *terms offered by any responsible Patent attorney in the United States.* For all further information, please address: HENRY GERNER & SON, 24 Barclay st., P. O. Box 4,544, New York.

### Southern Railroads.

The Secretary of War, in his annual report, calls attention to the fact that the balance due by certain Southern railroads to the United States for rolling stock and railroad materials sold them at the close of the war, is $1,865,793, and remarks that only $345 was collected on that debt during the year. Judgment was obtained in 1876 against the Nashville and Northwestern railroad for $866,150, but no money has been realized as yet under the decision. Congress has relieved some of the indebted roads, has directed compromises with others, but certain legislation necessary to settle outstanding accounts asked by the executive departments, has not been granted.

### Peru Railways.

The work on the Oroya Railway, and that of the Cerro de Pasco, together with the drainage of those famous mines, is about to receive a decided impulse in order to arrive at its termination as speedily as possible. The Government has at last acceded to the desire of Messrs. Olyphant & Co., relative to the manner in which the stipulated subsidy is to be paid, and a decree is published to the effect that the amount of the subsidy for the first year will be handed over to the representatives of the house in nitrate of soda, at the market price. The first annual subvention is to be paid in three installments at intervals of four months from Oct. 26 last, on which date the decree referred to was signed.

### The Hoosac Tunnel.

The Hoosac Tunnel was commenced in 1851. It is 4¾ miles in length, from 24 to 26 feet in width and from 20 to 22 feet high. Its portals are 766 feet above tide water. The grades through the tunnel are 26.4 feet per mile, with the central shaft, 1028 feet in depth, open for ventilating purposes. The tunnel, including $200,000 paid for the Southern Vermont Railroad, and the interest upon money advanced for the construction of the tunnel, has cost the State more than $18,000,000 The first train of cars passed through February 9, 1875; the first passenger train from Boston, October 18, 1875; and the first through freight from the West, April 5, 1875. The tunnel is under the control of the Governor and Council, who delegate the management to a manager appointed by them. The equipment is furnished by the Fitchburg Railroad Co., the State keeping the line and tunnel in repair. The State now takes two-thirds of the gross receipts of all business over its railroad, leaving one-third for the Fitchburg Railroad Co. We are unable to give the net receipts from the line for the past year. For the first five months the profit to the State, after paying salaries and line expenses, have varied from $500 for the month of January to $5,818 for the month of May. The net receipts for the five months were $19,500. For the past two years the tunnel and the line from North Adams to Boston has been controlled or worked in the interest of the Fitchburg Railroad Company. West of the tunnel, the line from North Adams to Troy is worked by the Troy and Boston Company. This company has a perpetual lease of the six miles of railroad, owned by the State of Massachusetts, crossing the southwest corner of Vermont to the New York State line; from there the Troy and Boston Railroad Co. owns the line following the Hoosac River to Troy, where it connects with the New York Central and Hudson River and Delaware and Hudson Canal Company's railroads, reaching to Binghamton, southwest, Saratoga and Canada north, and Buffalo west.

☞ According to the Panama Star and Herald, the Peruvian Government has recognized as the legitimate successors of the late Mr. H. Meiggs in everything relating to the public works contracted for by him and in course of execution, together with the responsibilities and rights connected therewith, the directory composed of Messrs. H. H. and M. K. Meiggs, A. Robertson, C. Watson, Jacob Backus and W. H. Cilley, and as their successors in the event of death, Messrs. W. M. Bush, J. L. Thorndike and C. S. Rand, in the order named. Mr. Charles Watson is also recognized as the President and representative of the said directory.

☞ Messrs. H. & F. Blandy of Zanesville, Ohio, have recently shipped two portable engines to Dom Pedro, Emperor of Brazil. They are for use in the forests through which the Emperor is now pushing his railway, for which Philadelphia parties have such large contracts for furnishing materials.

☞ B. J. McGrann, contractor on the Pittsburg and Lake Erie Railroad, reports that very satisfactory progress is being made. The different sections are under contract, and the work of grading to a line has been commenced along the entire route, excepting that portion leading immediately out of Pittsburg. The weather, since the work was commenced, has been very favorable.

### Chicago and Northwestern Railway.

The directors of the Chicago and Northwestern Railway Company have declared a dividend of 8½ per cent upon the preferred stock of the company, payable on the 27th inst. The transfer books of the company close on the 15th and reopen on the 28th inst. The following is a statement of the earnings and expenses of the last six months up to November 30, 1877, the receipts for the months of November being partly estimated:

| | | |
|---|---|---|
| Gross earnings | | $7,816,559 |
| Operating expenses, taxes, &c. | $3,927,002 | |
| Interest on bonds and gold premium | 1,683,563 | |
| Rent of leased lines | 648,491 | |
| | | 6,259,056 |
| Net | | $1,557,503 |
| Sinking funds | $106,120 | |
| Three and a half per cent on $21,522,409 preferred stock | 753,284 | |
| | | 861,404 |
| Surplus | | $696,099 |

The statement of the earnings and expenses for the six months ending November 30, 1877, and for the corresponding periods in 1875 and 1876 compare as follows:

| | 1875. | 1876. | 1877. |
|---|---|---|---|
| Gross earnings | $7,926,274 | $7,641,755 | $7,816,559 |
| Net earnings | 806,832 | 1,627,752 | 1,557,503 |
| Payments | 7,117,442 | 6,014,003 | 6,259,056 |

Hence the gross earnings for the past half year show an increase of $174,804 over those of the corresponding period of 1876, but a decrease of $109,714 09 from those of the same period in 1875. One hundred and eight thousand one hundred and twenty dollars have been placed to the sinking fund account, against $40,120 in each of the two preceding years. The last dividend declared was paid on the 22d of December, 1876, and amounted to 2½ per cent upon the preferred stock, no dividend having been declared before that time since June, 1872.

☞ The total cash receipts into the State Treasury of Ohio for the year ending November 15, 1877, were $5,418,433 42, and the total dis-

bursements $4,726,414 06, leaving an actual cash balance of $687,009 36.

☞ A certificate of incorporation has been filed with the Secretary of State of Ohio by S. W. Clark and others of the Island Creek and Richmond Mineral railroad. The termini of said road are Richmond, Jefferson county, and near Steubenville via Island Creek, in the same county. The capital stock is $60,000.

☞ The Chicago and Northwestern Railroad company have accepted the Menominee Range Railroad from the contractors and are now operating it.

**New York and New England Railroad Company.**

The earnings of the road operated by the New York and New England Railroad Company, (Eastern, Southbridge and Woonsocket Divisions, 139 miles) for the year ending September 30, 1877, were :

| | | |

| Add balance at commencement of the year | | 62,051 07 |
| Total surplus September 30, 1877 | | $132,572 67 |

It will be seen that the gross receipts of the road now operated by the company have been $1,010,336 84; the operating expenses and taxes, including those on the unfinished portion of the road in Connecticut and New York, and the whole cost of steel rails purchased during the year, have been $710,684 70—leaving net earnings for the year $239,651 14; out of which has been paid for rent of depot grounds and terminal lands in Boston $55,268 77—leaving a balance applicable to interest and permanent improvements of $184,388 37. The President, in his report, says :

The gross receipts of the corporation show an unexpected increase over the returns of the previous year. This is especially gratifying because in 1876 the centennial travel over our Philadelphia line, and a contract with the city of Boston for raising the grade of our road across the Swett Street District, added to our income; and because the competition during the current year between the various steamboat lines to New York has caused a great reduction in rates for freight.

The expenses charged to the operation of the road are large, being caused by needed renewals and repairs, which have accumulated upon the present management, owing to the neglect of the old corporation to maintain the road and equipment in good condition.

When the road has become first class in all its appointments, the annual cost of maintenance will be greatly reduced, and the ratio of its operating expenses to its earnings will then, it is believed, compare favorably with other roads running from Boston.

As to the amount charged to legal expenses, general salaries, office expenses, etc., it is proper to explain that, while the earnings which appear in our accounts are confined to the one hundred and thirty-nine miles of road now operated by the company, the general expenses necessarily cover a much wider range. Thus the general officers have the supervision of the very extensive traffic of the Norwich and Worcester, and Norwich and New York Transportation Companies; and the legal expenses include numerous suits brought by and against the trustees of the "Berdell mortgage," and the Receivers, and Assignees in bankruptcy of the old company, in the courts of Rhode Island, Connecticut, and New York, as well as Massachusetts, to determine numerous perplexing questions growing out of the foreclosure of the mortgage.

Many of the general expenses of a railroad company are necessary to its operation, and do not depend upon its mileage or its earnings. When its various departments have been once organized and its salaried officers appointed, these charges remain permanent, although the business of the road may be doubled. This corporation is now thoroughly organized, and the general salaries and other expenses in Boston will not be materially increased when we obtain possession of the Hartford, Providence and Fishkill Road, and are able to extend our line to the Hudson River.

During the last year a new road has been constructed by an independent corporation, extending from our line at Franklin to the Providence and Worcester Railroad at Valley Falls. It was built by cash subscriptions from the citizens of Franklin and other points upon the line, without any pecuniary assistance or encouragement from us. But as the road afforded a convenient link of communication between our Eastern, and Hartford, Providence and Fishkill divisions, and was possessed of no equipment of its own, your directors entered into a contract for its operation, which took effect October 1. By extending our short trains, which formerly stopped at Franklin, over the new road to Valley Falls, and thence by the Providence and Worcester Road to the city of Providence, a new route has been opened to that city.

It is well known that the Commonwealth of Massachusetts is the largest single holder of stock in our corporation, being possessed of shares to the amount of $3,600,000. These shares represent Berdell bonds, which were exchanged by the Boston, Hartford and Erie Railroad Company for scrip of the State, and which were converted into stock of the present corporation after the foreclosure of the Berdell mortgage.

At the last session of the legislature the Board of Railroad Commissioners was instructed to make careful examination and inquiry into the management, condition, business, and resources of the corporation, and to report the result. This duty was discharged by the board with great thoroughness and fairness, and their printed report, which was widely circulated at the time, contains much valuable information, and deserves, if it has not already received, the careful consideration of every stockholder.

This report was followed by the appointment of a joint committee of the two houses, to sit during the recess and report to the next legislature their recommendations as to the policy to be pursued by the State with respect to its large interest in the stock of this company. The committee so appointed have held frequent meetings, and have invited and received suggestions from the directors, and have given them careful and courteous consideration. Their report will probably be presented to the next legislature early in January; and whatever the result may be, your directors deem it fortunate that the question of further aid to be given by the State to this enterprise is to receive attention.

The chance of receiving such aid has always been one of the disturbing elements in the efforts made from time to time to persuade the individual holders of stock and Berdell bonds to subscribe to the new loan which is needed to fund our debt and complete our road; and the mere fact that a legislative committee has been appointed to consider the subject has prevented, during the last year, any substantial progress in the negotiation of our securities.

Public credit has been loaned so freely and so recklessly in the past in aid of railroad enterprises that a natural reaction has followed which makes it extremely difficult to obtain a favorable hearing for any new application for State aid, however meritorious. Your directors, therefore, will consider it no reflection upon the credit or condition of the property if the Commonwealth should decline to extend from the public treasury any further pecuniary assistance to our enterprise, beyond what it may think for its own interest as a present stockholder.

In all their attempts to negotiate the new bonds, your directors have kept in constant view the importance of obtaining a fair price for what they believe to be a first class security, and thus keeping the annual interest charge within reasonable limits. They believe that the earnings of the completed road will be more than sufficient to pay interest, if needed on the whole $10,000,000 of loan authorized; but they are not willing to burden the stockholders with a fictitious debt by forcing the bonds upon the market at an unreasonable discount for the sake of a few months' gain in the time of the completion of the road.

The directors feel, however, that they cannot impress too strongly upon the stockholders the necessity of obtaining immediate possession of the Hartford, Providence and Fishkill division. With that property in our possession, and a clear title to two hundred and sixty-nine miles of finished and equipped road which would then belong to this corporation, our earnings would be doubled, our future credit would be assured, and the completion of the unfinished section of seventy-six miles, between Waterbury, Connecticut, and the Hudson River, upon which $3,224,000 has already been expended, could be prosecuted at our convenience.

The sale of $4,000,000 of our new bonds at par would discharge the Hartford, Providence and Fishkill mortgage, and all other debts which are now a lien upon our property. The gross earnings of the two roads in their present incomplete state, estimated by the returns of the last two years, a period of great depression in railroad operations, would be at least $2,000,000, and the annual interest charge only $280,000. The two companies are now paying interest on $3,000,000. The net earnings of the Hartford, Providence and Fishkill Road are largely in excess of the amount needed to discharge the interest on its debt of

$2,000,000; and our own accounts for the current year, after paying operating expenses, renewals, taxes, rents, discounts, and interest on $1,000,000, and making cash purchases of steel rails to the amount of $64,000, show a surplus, which we have put into new equipment and new construction, but which, in case of necessity, could have been applied to interest on an additional million of bonds.

After the two roads have been united a further expenditure of about $3,000,000 will complete the unfinished portion, and supply the new buildings and equipments which the increased traffic will require. The whole debt will then be $7,000,000, which is a light burden upon a road three hundred and forty-miles in length, extending from the great cities of Boston and Providence to the Hudson River, and there connecting with the great trunk lines to the West and Southwest of the Erie and Pennsylvania Railway systems.

The remaining $3,000,000 of the authorized issue of bonds can be reserved for future emergencies, or deposited with the trustee named in the mortgage, as additional security for the $7,000,000 actually sold.

These figures contemplate united and harmonious action on the part of the State and the other stockholders which will lead to the taking of our new securities at or near their face value. This would be the part of true wisdom, especially for the State, which, being the largest stockholder, controls the management of the company, and is specially interested in its future prosperity. The stock it holds represents scrip advanced to the old company, upon which the State must pay, as interest, until the year 1900, $180,000 per annum. This annual burden must be met by taxation, except so far as the amount may be diminished by dividends received from the net earnings of this corporation after payment of interest on its new securities.

That such dividends will be earned and paid in the future your directors confidently believe, but the time and amount will depend largely upon the rate at which its mortgage bonds can be negotiated. Whatever is lost by the way of discount increases unnecessarily the principal of its mortgage debt, and absorbs permanently a share of the earnings which would otherwise be paid to the stockholders.

Your directors, as trustees for the Commonwealth, and the individual stockholders have felt it to be their duty to present these considerations, as urgently as they can, before final action is taken with respect to the new loan.

The company have, on the Eastern and Woonsocket divisions, 31 locomotives and tenders, 62 passenger, 13 mail and baggage, 127 eight-wheel and 17 four-wheel box freight, 133 eight-wheel platform and 161 coal, gravel, etc., cars. On the Hartford, Providence and Fishkill division, (as reported to Railroad Commissions in 1876,) there were 35 locomotives and tenders, 37 passenger, 344 merchandise, 17 baggage, and 72 gravel and other cars.

**New York and Long Island Bridge Co.**

The directors of the New York and Long Island Bridge Company, organized for the purpose of bridging the East River at Blackwell's Island, have elected officers for the ensuing year as follows: President, Dr. Thomas Rainey, of Astoria; Secretary, R. M. C. Graham; Treasurer, Henry C. Schmidt. Mr. William Steinway declined the position of president, but promised his hearty co-operation as a director. The stockholders have been assessed to pay awards to successful competitors for bridge plans and for current expenses. It is thought that the New York Central Railroad will take a lively interest in the enterprise, with a view to effecting direct connection with the city of Brooklyn.

☞ Orders continue brisk at Richie Bros. Phila. Scale Works. They are putting in for the Georgia Railroad Co. Railroad Track Scales of 100,000 lbs. capacity, also one of 60,000 lbs. capacity for the Pennsylvania Railroad Co. at their Elevator in Philadelphia. A powerful Testing Machine (300,000 lbs. capacity) is in construction for the Empire Chain Works to test chain in 90 feet lengths, also a new machine for testing car and other Springs by compression for the Grand Trunk Railway of Canada.

☞ By the annual report of the New Haven and Northampton Railroad the passenger earnings for the year ending September 30 were $152,044, the freight earnings $392,406, other receipts $19,915, making a total income of $564,366 or $281,244 more than the operating expenses, of which $135,923 was taken for taxes and interest. The addition to the property account is $27,875 and the total cost of road and equipment is $4,832,623.

☞ The first regular passenger train from New York, via the New York Central and Hudson River Railroad, and the Syracuse, Geneva and Corning Railway, with Wagner drawing room and sleeping cars attached, arrived at Corning on the 10th inst.

☞ From the City of Mexico, December 1, we learn that the Rosecrans railroad concession is supported by a majority of both houses of Congress. It is believed in Mexico that the Rosecrans company has on deposit $10,000,000 in England, and that Col. Scott is the leading spirit of the company, which, it is said, has three millions ready to commence operations. The company agrees to deposit $300,000 as security with the Mexican Government, and to build 150 kilometres of the road before receiving any government subvention. It is also stated that there are many other railroad projects afoot, and that companies are organizing in the States of Jalisco, Hidalgo, Guanajuato and Michoacan.

☞ The Springfield, Jackson and Pomeroy Railroad, between Jackson and Waverly, 55 miles, is completed, as also the portion between Springfield and South Charleston. The section from South Charleston to Bainbridge is graded, and active work has been commenced on the section from Bainbridge to Waverly. It is expected that the entire road will be completed by the 1st of July next.

☞ The proposed narrow gauge railroad from Wellsburg via Bethany to Washington, Penn., will be twenty five miles and a fraction in length and will cost as follows: Grading, $57,500; ties, $11,000; iron, $58,000; telegraph, $1,500; equipment, $27,000; engineering, superintending, &c., $13,500; making a total of $148,500.

☞ The receipts of the Lawrence (Mass.) Horse Railroad for the year ending September 30, 1877, were $32,924 63; expenditures, $30,309 72; net earnings, $2614 91; number of miles run, 7,150.768; passengers carried, 512,804. The directors are: Wm. Russell, A. W. Stearns, Hezekiah Plummer, Jas. Walton, Moses T. Stevens.

☞ The contract for the construction of the Columbus and Gallipolis Railroad has been awarded to Hill and McKeekney, of Chicago. The road is to be constructed by the contractors ready for equipment. Sixty three miles of steel rails will be laid from Columbus south, and the balance will be of iron.

☞ Movements are on foot at Eureka, Humboldt county, Cal., to build a railroad, 25 miles in length, from that place to Eel river valley. A local company is proposed, with donations by citizens or a tax subsidy. The highest estimated cost is, broad gauge, $500,000; prismoidal, $175,000.

☞ It is announced that a sufficient amount of the stock of the Boston and Mystic Valley Narrow Gauge Railroad Corporation has been subscribed to secure a charter. An assessment of ten per cent. has been laid, and work will soon commence.

☞ The San Jose Argus says that the South Pacific Coast Railroad will be completed so as to put on regular trains between Gatos and Dumbarton by the 1st of January.

☞ P. P. Dickinson and W. S. Greene have been appointed Receivers of the Savannah and Memphis Railroad.

### Central Mississippi Railroad.

The Mississippi Central Railroad has passed out of the hands of its former owners, having been sold under the hammer for $372,000. This sale covers a line of road running from Canton, Miss., to a point on the Ohio river opposite Cairo, Illinois. The road is to be hereafter known as the Central Mississippi Railroad. The purchase was made nominally by nine men, who as incorporators become the "Central Mississippi Railroad Co.," but the road belongs as it did before, no doubt, to the Illinois Central Railroad Co., which has operated it for the last three years under the title of the New Orleans, Chicago and St. Louis Railroad Co.—*Phila Ledger.*

☞ A railroad from Montreal to Norwood, N. Y., is in contemplation, connecting at the latter place with the Rome, Watertown and Ogdensburg Railroad, thus making the route from the West to Montreal shorter than via the Grand Trunk Railway.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, November 30, 1877.

JOHN SHERMAN,
Secretary of the Treasury.

☞ The earnings of the Central Pacific Railroad for the month of November, 1877, were $1,597,000, against $1,675,532 for the month of November, 1876, and $1,513,835 for the month of November 1875. For the eleven months ending November 30, 1877, the earnings were $15,329,107, against $16,799,794 for the corresponding period of 1876, and $15,696,854 for the corresponding period of 1875.

☞ The earnings of the Chesapeake and Ohio Railroad for the year ending September 30, 1877, were $1,702,532 75, the expenses $1,363,224 86, and the net earnings $339,307 89—showing an increase in gross earnings, as compared with the previous year, of $103,020 20, an increase in expenses of $120,188 91, and a decrease in net earnings of $17,168 71.

☞ The three Commissioners appointed by the President to examine the sections of the Southern Pacific Railroad as completed, are now making their report on the section between San Gorgonio Pass and Yuma City, Arizona, 117 miles, preparatory to the issue of land patents.

## Financial and Commercial Affairs.

Under the later foreign advices, which were viewed as favorable to peace in Europe, less disposition has been manifested in the local market to operate freely in Produce and Merchandise, especially in Breadstuffs and Provisions, and more or less of hesitancy has been likewise apparent in the speculative dealings at the Stock Exchange. A less urgent inquiry has been reported for Money, which has been in ample supply to responsible borrowers. Call loans were quoted here at the close at from 4@7 as extremes, with the most important negotiations reported at 5@6 per cent to the Stock Exchange operators, and very choice to prime mercantile credits were rated at 5@7½ per cent per annum for the best names. The City bank exhibit of last week indicated a further enlargement in the loan and discount average of $148,600, with an increase in the item of circulation of $98,000. The average of deposits was reduced $49,200. The legal tender reserve was cut down $2,101,000; and the specie average augmented $671,000. The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $8,245,625, as against $9,663,425 the preceding week. The City bank exchanges in currency reached $488,942,229, or a daily average of $81,490,371.

On Wednesday of this week the cash balances of the Treasury Department at Washington were: of Currency, $5,952,985; special deposit of legal tenders for the redemption of certificates of de-

posit, $38,470,000; Coin, $133,710,566, including of Coin certificates, $34,645,500.

The outstanding amount of legal tender notes is $351,340,288. The National bank circulation is now $319,642,374 of currency notes and $1,432,120 of national gold bank notes. National Bank notes received at the Treasury Department last week for redemption were to the amount of $3,754,000.

A moderate business has been reported in most issues of Government securities, since our last, at variable prices, though closing more steadily. The further discussion of the financial projects before Congress has tended to check the investment inquiry. At the close on Wednesday the current quotations were as follows:

United States currency sixes, 120@120⅝; do. 6s, 1881, registered, 107@107¼; do. coupon, 110⅛@111; do. 1865, new, registered, 102⅞@103⅛; do. coupon, 105⅞@106⅛; do. 1867, registered, 105⅛@105⅜; do. coupon, 108⅜@108⅞; do. 1868, registered, 107⅛@107⅜; do. coupon, 110¾@111⅛; do. ten-forties, registered, 107⅛@108; do. coupon, 108¼@103⅛; do. five per cents, 1881, registered, 106⅛@107; do. coupon, 106⅛@106⅞; do. 4½ per cents, 1891, registered, 104⅜@104⅝; do. coupon, 104⅜@104⅝; do. 4 per cents, 1907, reg., 102½@103; do. coupon, 102½@103.

The amount of U. S. bonds held by the Treasurer of the United States as security for the National Bank circulation is $345,274,550, and $14,373,000 as security for public deposits.

Less activity has been noted in State Bonds, though prices of the favorite issues have been generally quoted toward the close firmer, on limited offerings. Railway Mortgage loans have been in fair request, on investment account, and have been quoted stronger. And in the line of Railway and Miscellaneous share property business has shown less animation, and a less confident temper in the speculative line, though toward the close more firmness was noted. The shares of the leading coal carriers were influenced to a considerable extent by the reports as to new combinations to regulate the production, and price of coal.

The income of the Government from internal revenues last week was about 2¼ millions, and from Customs last week again about 1¾ millions.

Gold has been more active and rather stronger in price. The speculative interest has been stimulated by the reports and rumors from Washington, relative to the pending financial measures before Congress. The extremes of the price during the week have been 102½@103⅛, closing on Wednesday at 103⅛, as against 102⅛ on Wednesday of the preceding week. The specie outflow last week was only $99,588, making the total exports of specie hence since January 1, $24,621,266 against $42,999,455, the same time in the preceding year. The imports of specie at this port last week reached $34,819, and since January 1st have been $14,323,044, as against $18,279,430 same time last year. The Customs demand for gold last week reached $1,238,246 or an average of $267,649 per day.

Foreign Exchange has been more sought after and quoted higher in price. Bankers' sixty day bills on London closed on Wednesday at $4 81¾@$4 82½; sight bills on London at $4 85¼@$4 86 to the £ sterling. The week's imports of Dry Goods and general merchandise were to the specie value of $5,738,487 as against $3,862,598 the corresponding week of 1876. The week's import entries of Foreign Merchandise at New York included $1,165,838 of Dry Goods, and $4,572,649 of General Merchandise. The week's export of Domestic Produce and Miscellaneous Goods from this port were to the value of $6,583,107, against $6,662,541 same week in 1876.

Less demand has been noted for the leading kinds of domestic produce, especially especially toward the close, with Breadstuffs, Cotton, and Provisions, quoted generally weaker. Foreign merchandise has been in moderate request and, as a rule, quoted heavy. Groceries stronger.

Metals have been in light request and quoted irregular as to prices. Eglinton Pig Iron quoted at $24@$24 50; Glengarnock $24 75@$25; Coltness $26 @$26 50; No. 1 American Pig at $18@$20; No. 2 do. at $17 50@$18 50. Forge $16@$17; American Rails at works $34@$38. Old Rails $18@$19. Wrought Scrap $22@$28. Steel Rails, on the basis of $44@$47. Ingot Copper in more request on the basis of 17¾@17⅞ for early delivery.

A slow movement has been noted in the leading kinds of Hardware, Boots and Shoes and Dry Goods, with prices quoted about as before.

Ocean freights have been fairly active since our last, and have been quoted firmer, with accommodation for Grain, Flour, Provisions, Cotton, and Petroleum in most request. The outward movement in Lard and Bacon is very extensive, mainly for the United Kingdom, Germany, and Belgium. Liverpool steamer rates at the close for Grain, quoted at 8@8½d. Flour, at 3@3d. Provisions, 35s.@40s.; Leather, 55s.@60s. Measurement Goods at 22s. 6d.@25s. per ton; Cotton, ½d.@9-32d. per lb. Liverpool, by sail. Cotton, ½d.@9-32d., Grain, at 7½d.; Flour, 2s.@6d.; Measurement Goods 15s.@17s. 6d.; Tobacco 30s.@32s. 6d.; Grain rates on charter hence for Cork and orders left off at 6s.@6s. 4½d. (the latter rate for vessels for Barley); for the Continent at 6s. 3d. @6s. 6d.; and from Baltimore for Cork and orders, 5s. 9d. and from Philadelphia at 5s. 7½d.@5s. 9d per quarter. Refined Petroleum hence for Cork and orders, 4s @4s. 6d.; for the Continent, 4s. @4s. 3d. Naptha for London at 4s. 4½d. per bbl. Cotton by sail from Charleston or Savannah to Liverpool or Havre at 13-32@7-16d; from Galveston, at ½d; from New Orleans for the Continent 7-8@15 32ct. The Cotton chartering business for Southern port loading has been on a moderate scale during the week. Naval Stores from Wilmington or Charleston for cork and orders at 4s. 3d.@4s. 6d. and 6s. 3d.@6s. 6d. Resin from Wilmington to Trieste at 4s. 6d. Lumber from Brunswick to the River Platte, $19@$20.

☞ Articles of incorporation has been filed in the office of the Secretary of State of California by Walter Blair and others of the Fourteenth Street Railroad Company, organized for the purpose of operating a street railroad in the city of Oakland. Capital, $100,000, in shares of $100 each.

☞ The Maryland and Delaware Railroad, from Oxford, Md., to Clayton, Del., length 55 miles, will be sold at Public Auction, at Easton, Md., on Thursday, December 20th, at 2 o'clock P. M., to satisfy first lien.

☞ The receipts of the Grand Trunk Railway Co. of Canada for the week ending December 1, 1877, were $202,509, against $160,828 for the corresponding week of 1876, an increase of $41,681. Miles open, 1,388½.

☞ A cablegram from England announces that the Councilors have ruled that the decision of the Supreme Court of Canada is final, and no further appeal to the Privy Council of England can be allowed. This decision is of great importance to Canada.

### Western Union Telegraph Co.

At a meeting of the Directors of the Western Union Telegraph Company, held on the 12th inst., the report of the last quarter of the present year was presented. On Oct. 1 there remained a surplus of $90,865 61. The net profits for the current quarter ending Dec. 31, based upon official returns for October, nearly complete returns for November, and an estimate of the December business, will be about $750,138 75, which, with the surplus noted above added, amounts to $841,004 86. Appropriating from this amount one quarter's interest on the bonded debt and one quarter's proportion of sinking fund, and deducting a dividend of 1½ per cent., leaves a balance of $188,073 86. A dividend of 1½ per cent. was accordingly declared payable January 15, 1878.

☞ Articles of incorporation have been filed with the Secretary of State of Ohio of the Columbus and Coal Valley Extension of the Columbus and Northwestern Railway, to run from Columbus through the counties of Franklin, Fairfield, Perry and Hocking to McConnellsville, Morgan County. The capital stock is $200,000, in shares of $50. The incorporators: J. A. Hutchinson, William Monypenny, Jamison R. C. Fulton, J. H. Anderson and William Hayes. The proposed line will serve as a valuable feeder to the proposed Columbus and Northwestern Narrow Gauge.

☞ About 100 miles of track on the Old Colony Railroad are now laid with steel rails, some of which have been in use over nine years, and show but little signs of wear. There can be no question of a considerable saving in expense in the substitution of steel for iron, and therefore an improvement in the value of the property of the company from this change.

☞ A certificate of incorporation has been filed in the office of the Secretary of State of Ohio of the River Valley and Lake Erie Narrow Gauge Railway Company, with termini at Farmington, Trumbull county, and Windsor, Ashtabula county; capital stock, $80,000; by Ephraim C. Cox and others.

☞ The American Transfer Company has finished its 4-inch pipe between Great Belt and Pittsburgh. The line is 80 miles long, and 125 men were six months laying it. It will supply 28 refineries in Pittsburgh, all owned by the Standard Oil Company. The line is under the management of A. C. Beason, of Petrolia.

☞ The Tiffin Street Railroad Company, Tiffin, Ohio, has been incorporated; capital stock $20,000, in shares of $50 each, by W. W. Myers and others.

☞ The dividend of $10 per share—2 per cent—recently declared by the Boston and Lowell Railroad company, is the first since January, 1875, when the dividend was 8 per cent.

☞ The Oil City, Penn., Derrick says that the Emlenton and Shippenville Railroad has been completed to Clarion.

☞ The Lehigh Valley Railroad Company have declared a quarterly dividend of one per cent, payable January 15, 1878.

☞ The track of the Kingston and Pembroke Railway is now laid across the Canadian Mississippi; about 28 miles remain to be completed before the connection with the Canada Central at Renfrew is made.

☞ A new rail cleaner for street cars, consisting of improved brushes held down by levers upon the tracks in front of the wheels, is the invention of Messrs. G. & S. Isaacs, of this city. Arrangements are provided to prevent the brush head turning out of true, and the tufts are so fastened in the heads that the bristles are prevented from becoming cut or broken.

☞ The project for the construction of a railroad up the Delaware valley is being revived. The road, if built, will run from the Delaware, Lackawanna and Western Railroad, at Stroudsburg, to the Erie Railway, at Port Jervis, and will give the Lehigh and Lackawanna coal fields an all rail route via the Erie Railway and connections to New England. It will also open to pleasure seekers the picturesque scenery along the upper Delaware, and make accessible the many summer resorts along the banks of that river.

☞ The Long Island Railroad Company will pay the interest due September 1, 1877, on the bonds of the Smithtown and Port Jefferson Railroad Company, on presentation at the office of the company, Long Island City, L. I., or at the banking house of Messrs. Drexel, Morgan & Co., New York.

☞ Hon. L. T. Drummond has been elected President, Hon. G. G. Stevens Vice President, H. L. Robinson Treasurer, and Jno. P. Noyes Secretary of the Stanstead, Shefford and Chambly Railway Co.

☞ The earnings of the Grand Trunk Railway Company of Canada for the week ending November 24, 1877, were $201,244, against $180,963 for the corresponding week of 1876, an increase of $20,281.

## Can I Obtain a Patent?

This is the first inquiry that naturally occurs to every author or discoverer of a new idea or improvement. The quickest and best way to obtain a satisfactory answer, without expense, is to write to us describing the invention, with a small sketch. All we need is to get the *idea*. Do not use pale ink. Be brief. Send stamps for postage. We will immediately answer and inform you whether or not your improvement is probably patentable; and if so, give you the necessary instructions for further precedure. Our long experience enables us to decide quickly. For this advice we make *no charge*. All persons who desire to consult us in regard to obtaining patents are cordially invited to do so. We shall be happy to see them in person at our office, or to advise them by letter. In all cases, they may expect from us a careful consideration of their plans, an honest opinion, and a prompt reply. TOTAL COST OF U. S. PATENT, ONLY $55. *N. B.—These are by far the* SAFEST, BEST *and* CHEAPEST *terms offered by any responsible Patent attorney in the United States.* For all further information, please address: HENRY GERNER & SON, 24 Barclay st., P. O. Box 4,544, New York.

### Hannibal and St. Joseph Railroad.

The committee appointed at the meeting of stockholders of the Hannibal and St. Joseph Railroad Company, held on the 18th of October, have completed their report. They state, among other things, that the assets of the company consist of the road and equipment: Hannibal to St. Joseph, main line, 206 41 miles; St. Joseph to Atchison, extension of the main line, 19.47 miles; Cameron branch, 53.05 miles; Palmyra branch, 12.77; total length of track, 290.7 miles; side track, 43.12 miles; total length of track and siding, 335.12 miles.

The equipment consists, according to an inventory made July 1, 1877, of 72 locomotives, 34 passenger coaches, 1,892 cars of all other descriptions, and a full stock of tools, machinery, materials and supplies, the whole being valued in the said inventory at $684,543 93. The floating debt of the company is about $250,000. The company has bills receivable and open accounts due from other corporations for more than this amount. The assets of the land department are estimated to be worth from $3,200,000 to $3,500,000, and produce a present annual revenue to the company of from $200,000 to $300,000.

The liabilities of the company are now as follows: $3,000,000 six per cent Missouri State bonds, annual interest $180,000; $4,000,000 eight per cent convertible bonds, annual interest $320,000; $1,200,000 Kansas City and Cameron Railroad ten per cent bonds, annual interest $120,000; $500,000 Quincy and Palmyra Railroad eight per cent bonds, annual interest $40,000. Total bonded indebtedness, $8,700,000. Total annual interest, $660,000.

### A New Through Route from the West to Liverpool via New Orleans.

The Philadelphia North American says that the new arrangements made by the Illinois Central Railroad Company, for through shipments of grain and provisions to Liverpool via New Orleans, ought to surprise no one here at the seaboard, as the project has long been in agitation, and naturally follows the success of the grain trade with Liverpool opened by St. Louis via the Mississippi and Gulf route, and then adds:

Hitherto the main through business of the Illinois Central Railroad has been in transporting produce to Chicago for transit east. Now, however, the tide sets in a new direction, and the commerce of Chicago will, of course, suffer. The company controls a complete through line of railroad to New Orleans, and one that is so much in need of traffic that it can afford to accept the very cheapest terms. During the past season the main reliance of the New York interests for the control of the western produce trade has been on the canal and lake route, as being the cheapest, and as an offset to the water routes via the St. Lawrence, the Mississippi, and around Cape Horn. Against these the trunk lines of railroad have made headway with difficulty, though they have done so pretty well. It remains to be seen how the addition of an entirely new rail route will work. Perhaps the most important consideration is that New Orleans will be very likely to see a large increase of her grain and provision trade, having two separate lines to depend upon, with two such cities as St. Louis and Chicago powerfully interested therein. The next change, will probably be the opening of an all-rail line through to New Orleans west of the Mississippi river from St. Paul. The Illinois Central has a through line to Mobile, and the Iowa Central offers the basis of a route from St. Paul to New Orleans. The Cincinnati interests have been trying to open a through trade with Europe via Savannah, but there is no great corporation concerned. We must look after our own interests now in the Western trade.

### Southern Pacific Railroad.

The bill introduced in the House of Representatives at Washington on the 12th inst., by Mr. Money, of Mississippi, asks Congress to give the Southern Pacific Railroad Company authority to construct its road eastward until it shall reach El Paso, and that, until it meets the Texas Pacific, it shall have the land grants and all the rights and privileges originally granted to the Texas Pacific. The bill recites that the act of March 3, 1871, and the act of May 3, 1872, relating to the construction of a railroad between a point in Northwestern Texas and the Bay of San Diego, California, have not been complied with by the construction of the road within the time and in the manner specified, and that the Southern Pacific Railroad Company, authorized by the same acts to construct a line between San Francisco and Fort Yuma, has complied with the law and now proposes to extend it further eastward, until it meets and connects with the Texas Pacific at the Rio Grande, at or near El Paso. It provides that the lands heretofore granted to the Texas Pacific, between the Colorado and Rio Grande Rivers, shall, for the purpose of the act, be granted to the Southern Pacific Company upon so much of the line as it may construct. It requires 100 miles to be constructed within two years of the passage of the act, and the whole road to El Paso within six years. If, when the Southern Pacific is constructed to the Rio Grande, neither the Texas Pacific or other roads from Eastern Texas are there to connect with it, it may, with the consent of that State, continue eastward till a junction is formed, and, in like manner, if the Texas roads first reach El Paso, either of them may proceed west to a junction with the Southern Pacific. No bonds or guarantee of interest is asked for in the bill, and no lands, except the transfer of lands already granted over the same route, to the company which shall build the road contiguous to them. The railroad is over substantially the same route as the Texas Pacific, but contemplates building

by two companies, working from opposite ends toward a meeting point.

The report says that a proper comparison of the figures presented in the foregoing statement with the corresponding period of the previous year requires that the business of the month of September, 1875, should be deducted from the gross earnings and expenses for 1876, as stated in the last annual report, and then adds:

On this basis, the gross receipts show a falling off of $122,626 72, viz.: on passengers, $87,880 74; on freight, $50,089 61; making a total of $137,970 35; the discrepancy of $15,342 63 being made up by increased dividends and rents received from the P. & S. S. Co. Comparing, on the same basis, the expenses, we find a decrease for the year of $53,000, and in the earnings a total decrease of about $70,000—a result not as satisfactory as could be desired, but, in view of all the circumstances, far from discouraging.

Comparing the amounts paid during the year for dividends and interest with the net earnings, there appears to be a deficiency of $44,000; but of this amount, $25,000 was the proportion divided for the month of September, 1876, and charged in this year's account, and nearly $18,000 appear as due and have since been paid by the Steamboat Company. The remaining $6,000 are more than made up by the Company's interest in the undivided profits of the P. & S. S. S. Company, of which it owns $804,900 out of the $1,260,000 of stock issued.

The receipts and expenditures for the year ending September 30, 1877, are given the annexed—

### Texas and Pacific Railway.

The bill introduced in the House of Representatives at Washington on the 7th inst., by Mr. Stephens, of Georgia, amendatory of and supplemental to the Texas Pacific Railroad acts, authorizes the construction of the main line of the road from Fort Worth through Texas to the Rio Grande, near El Paso; thence through Mexico and Arizona to a crossing of the Colorado river, at or near Fort Yuma, and thence via the most practical route, but not further north than Horner's Pass over the Sierra Nevadas, to Ship's Channel, in the Bay of San Diego, on the Pacific coast. The corporation is required to construct and put in operation at least one hundred miles of its road from its present terminus at Fort Worth, westward, by at least 60 miles from San Diego eastwardly within two years after its acceptance of the provisions of the act, and not less than 100 miles per annum or 200 miles every two years thereafter, and to complete a continuous railroad between Fort Worth and San Diego within six years from the date of said acceptance, provided that nothing in this act contained shall relieve the said company from any obligation to construct its line from Sherman to Fort Worth. The amount of bonds allowed by the bill is $25,000 per mile, and for difficult and mountain sections $35,000 per mile. These bonds are to be divided into classes, to be known as issue "A," for $20,000, and issue "B," for $5,000 per mile, all secured by first mortgages on the road, and on all the 13,000,000 acres of land granted by the United States and acquired from the State of Texas. The aggregate of bonds issued is not to exceed $38,750,000. The bonds are to be payable, principal and interest, in gold, and to run for fifty years from date.

Compared with the year 1876, the gross earnings of 1877 show a decrease of $103,600 10, with a decrease in expenses, including interest, taxes and rent of leased lines, of only $7,627—showing a decrease in the net income, as compared with

the previous year, of $95,973 10. The report says:

A serious element of expense is the alarming increase in State and municipal taxes, which railroad corporations have been subjected to within a few years. State and municipal debts have increased so fast, that the authorities have became alarmed, and are driven to every expedient to find the means to meet their expenses.

As corporations are bodies whose complaint can only be made by proxy, advantage has been taken of them, and a large share of this increased municipal indebtedness has been put upon them, until the taxes on railroads have become a grievous burden. The increase in taxes on the Boston and Maine Railroad has been from $6,000 per annum in 1860 to $100,000 per annum in 1876.

Another large item of expense on our road the past year has been that of steel rails. We have purchased and laid down during the year 2,060 tons, which cost us more than one hundred thousand dollars. Twenty thousand dollars, the difference between the cost of steel and iron, could have been properly charged to construction, but the whole amount has been charged to expenses. These are facts, and while they account in part for the reduced receipts and the comparatively small reduction in expenses, they at the same time show a healthy and sound condition in the road. If your property could, under all these disadvantages, yield one dividend of two, and another of three per cent for the year, and have something left to add to its reserve profit, there is certainly nothing very discouraging in such a result.

Business fluctuations will always more or less affect the revenues of railroads. This is necessarily so, from the object and purpose for which railroads are constructed. They are designed to be the great agent and promotor of vast business, and form the natural channel through which such business flows; and they will flourish or decline, as business and trade shall flourish and decline.

Accidents on railroads, of a greater or less degree, to persons and property will always occur. The greater precaution and the employment of the most tried and trusty servants, will not secure us from accidents. A misplaced switch, a broken rail, a heated axle, or a false signal may, in a moment's time, destroy valuable lives and a large amount of property. Improvements are constantly being made in the interest of safety in the management of railroads. Within a few years the safety switch, the power brake, the Miller platform and electric signal have been applied to most of the first class roads. Railroad managers are slow to adopt new inventions of which the world is full, until the same have been proved, but when satisfied of their value they do not hesitate or delay to adopt every known and tried means of safety in the running of trains. For all these new and improved appliances, which have been and are constantly being added to our railroads, the roads themselves are heavily taxed, with no additional tax upon the public who use them.

Our floating debt has been reduced, during the past year, $120,000, and stood, at the close of business on the thirtieth day of September, 1877, at $32,009 08. The $99,500 of the 1894 bonds, unsold at the date of our last report, have since been sold and applied to liquidate our floating debt.

The passenger and freight business of the past year, as compared with that of the previous year, stands as follows:

| | 1876. | 1877. |
|---|---|---|
| Passengers carried | 5,086,819 | 4,442,019 |
| Do. carried one mile | 67,897,723 | 61,779,876 |
| Tons of freight carried | 701,945 | 698,881 |
| Do. carried one mile | 80,421,902 | 86,036,093 |

Showing a net loss of 644,800 passengers, and for one mile a net loss of 6,118,147, and in freight a loss of 3,064 tons, and for one mile a gain of 5,614,291 tons.

Our road bed and track are in good condition. As before stated, we have laid 2,060 tons of steel rails during the year. Our experience with steel shows their great superiority over iron rails. The first introduction of steel on this road on a large scale was commenced in the year 1871, and has been continued every year since; so that at the close of business, Sept. 30, 1877, our trains run on 91.3433 miles of steel track.

Four new first class locomotives have been purchased, and two have been entirely rebuilt during the year. We have added during the year to our rolling stock two combined smoking and baggage cars. No addition to the number of our freight cars has been made during the year.

The equipment consists of 77 locomotives, 11 snow ploughs, 168 passenger and bargage cars, and 1620 merchandise and other cars.

☞ Col. D. V. Ahl, president of the Harrisburg and Potomac Railroad Co., and Col. Eichelberger, president of the Hanover and Gettysburg Railroad Co., were in Baltimore on the 13th inst. in connection with the construction of the proposed extension of the Oxford branch of the latter road to Petersburg, Pa., a distance of ten miles. The Harrisburg and Potomac Co. propose to complete their line to Petersburg, a distance of twenty-two miles from Harrisburg. The bridge at New Cumberland, near Harrisburg, to connect the Philadelphia and Reading Railroad with a complete line to Baltimore, will be undertaken if is promised, when the ten miles of road referred to is assured.

### Baltimore and Hanover Railroad.

The new railroad project to connect the Bachman Valley railroad with the Western Maryland railroad at Reisterstown, forming a continuous line from Hanover, Pa., to Baltimore is being pushed forward with considerable energy. The Board of directors of the Baltimore and Hanover railroad, by which name the proposed connection is known, met at Hanover last week, and let out the contracts for grading the first six miles of their road from the Bachman Valley railroad to Maple Swamp. The entire line will be in the neighborhood of twenty miles, and the contracts for the remainder will be let out when the route is decided. The contracts were awarded to Archibald Favorite, I. D. and B. B. Gonder, Jr., A. Greider and Cyrus Diller.

☞ A survey is about to be made from West Brookfield Mass., to Belchertown, N. H., for a new route to the Hoosac Tunnel. This link, with a road from Belchertown to the nearest point on the Hoosac Tunnel line, would reduce the distance from Schenectady, N. Y., to Boston, 28 miles. From West Brookfield to Belchertown it is but fourteen miles by the shortest route, and with no grades of more than thirty feet to the mile. This route would cross the Ware River Railroad below Ware Village.

☞ The Canada Central Railway has been transferred to the Brockville and Ottawa Railway Company, and a complete change made in the management of the amalgamated roads. The officers elected are: President, J. G. Richardson; A. B. Chaffee, Vice President; H. Abbott, Managing Director; A. Baker, Secretary Treasurer. Directors, J. G. Richardson, Hon. J. J. C. Abbott, Jno. Ashworth, Jno. N. Traverse, Jno. Smith, D. Galbraith, M. P. Lanark, A. P. Chaffee, H. V. Noel, and H. Abbott.

☞ Messrs. Hill, McKelvey & Co., of Chicago, the contractors for building the Columbus and Gallipolis railroad, have bought iron for forty miles, to be delivered at Gallipolis as fast as needed, and they expect to have that part of the road between McArthur and Gallipolis finished by the first of March. The distance from Columbus to McArthur is to be laid with steel rail and the balance with iron.

☞ The citizens of Cumberland, Md., have voted, 1,088 to 175, in favor of the ordinance proposing to pledge the credit of that city for $65,000 to aid in the construction of six miles of railroad needed to form a connection with the Bedford and Bridgeport and the Pennsylvania railroads.

☞ The Columbus and Northwestern Railway company have filed papers with the Secretary of State of Ohio, extending the line from Columbus through the counties of Franklin, Fairfield, Hocking, Perry and Morgan, to McConnelsville, in Morgan county.

☞ The first locomotive passed over the St. Maurice iron bridge, on the Montreal, Ottawa and Occidental Railway on the 15th inst. This completes communication between Three Rivers and Quebec

## Baltimore and Ohio Railroad.

The London Times of the 5th instant, in its money article, notices J. S. Morgan & Co.'s announcement for subscription to $8,000,000 of the Baltimore and Ohio Railway Company bonds. The bonds are redeemable in 1927 or by an annual sinking fund of £7,500; the issue price is 88½ per cent, payable 10 per cent on allotment and the remainder in January next. These bonds have been created by the Baltimore and Ohio Company to reimburse in part a cash outlay of $11,055,071 incurred by it in constructing the Baltimore and Ohio and Chicago Railroad Company's lines between Chicago Junction and Baltimore Junction. They form a first and only mortgage on the line, and are secured in addition by almost the entire share capital which is held by the Baltimore and Ohio Company.

### Financial and Commercial Affairs.

As a rule, the course of Money has been favorable to borrowers, notwithstanding the disturbing reports and rumors as to financial and commercial failures and embarrassments, especially in relation to the troubles of savings banks in various sections of the country. The offerings of capital here have been on a liberal scale, and responsible borrowers have found little difficulty in making prompt provision for their wants. Call loans were quoted here at the close at from 4@7 as extremes, with the most important negotiations reported at 5@6 per cent to the Stock Exchange operators, and very choice to prime mercantile credits were rated at 5@8 per cent per annum for the best names. The City bank exhibit of last week indicated a contraction in the loan and discount average of $1,074,200, with a further increase in the item of circulation of $468,400. The average of deposits was reduced $1,015,900. The legal tender reserve was cut down $915,800; and the specie average augmented $571,600. The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $8,155,600, as against $8,245,625 the preceding week. The City bank exchanges in currency reached $426,935,792, or a daily average of $71,155,965.

On Wednesday of this week the cash balances of the Treasury Department at Washington were: of Currency, $4,501,999; special deposit of legal tenders for the redemption of certificates of deposit, $39,565,000; Coin, $134,097,966, including of Coin certificates, $31,070,500.

The outstanding amount of legal tender notes is $351,340,288. The National bank circulation is now $320,306,104 of currency notes and $1,432,120 of national gold bank notes. National Bank notes received at the Treasury Department last week for redemption were to the amount of $4,377,000.

More or less of irregularity has been apparent in the market for Government securities, influenced, in good part, by the course of Gold, as reflecting the variable reports and rumors from Washington, and the prevalent interpretation of the cable advices as to the general situation in Europe. The demand for the leading issues has been good, mainly for investment account. Prices closed more firmly. At the close on Wednesday the current quotations were as follows:

United States currency sixes, 121½@123½; do. 6s, 1881, registered, 106¾@107; do. coupon, 110@110½; do. 1865, new, registered, 103@103¼; do. coupon, 106@106¼; do. 1867, registered, 105⅝@105⅞; do. coupon, 108¾@108⅞; do. 1868, registered, 107@107½; do. coupon, 110¼@110½; do. ten-forties, registered, 107½@107¾; do. coupon, 108@108½; do. five per cents, 1881, registered, 106¼@106½; do. coupon, 106¼@106½; do. 4½ per cents, 1891, registered, 104¼@104½; do. coupon, 104¼@104⅝; do. 4 per cents, 1907, reg., 101⅛@101⅝; do. coupon, 103@103¼.

The amount of U. S. bonds held by the Treasurer of the United States as security for the National Bank circulation is $345,693,550, and $14,038,000 as security for public deposits.

State Bonds have been in more active demand, chiefly on investment account, and prices of the favorite issues have been quoted toward the close stronger, on very moderate offerings. Railway Mortgage loans have been moderately sought after, partly on investment account, at variable prices, closing less firmly. And in the line of Railway and Miscellaneous share property a fairly active business has been reported, but with frequent, and, in several instances, wide fluctuations in prices, closing generally stronger, under a more confident speculative inquiry.

The income of the Government from internal revenues last week was about 2½ millions, and from Customs last week again about two millions.

Gold opened stronger, under the advices from Washington, as to the position and outlook of pending financial prospects before Congress; but soon weakened, and attracted less attention from outside operators, closing, however, more steady. The extremes of the price during the week have been 102⅝@103¾, closing on Wednesday at 102⅝, as against 103½ on Wednesday of the preceding week. The specie outflow last week was only $163,000, making the total exports of specie hence since January 1, $24,784,266 against $43,331,700, the same time in the preceding year. The imports of specie at this port last week reached $125,587, and since January 1st have been $14,448,631, as against $20,420,500 same time last year. The Customs demand for gold last week reached $1,416,539 or an average of $226,089 per day.

More inquiry has been reported for Foreign Exchange which has shown more firmness as to price. Bankers' sixty day bills on London closed on Wednesday at $4 82@$4 82½; sight bills on London at $4 85@$4 86 to the £ sterling. The week's imports of Dry Goods and general merchandise were to the specie value of $3,969,595 as against $4,044,054 the corresponding week of 1876. The week's import entries of Foreign Merchandise at New York included $834,072 of Dry Goods, and $3,135,623, of General Merchandise. The week's export of Domestic Produce and Miscellaneous Goods from this port were to the value of $6,819,059, against $5,724,257 same week in 1876.

Dealings in the leading kinds of Hardware, Boots and Shoes and Dry Goods, have been on a restricted scale, and almost wholly to meet urgent wants of the heavy trade, with prices quoted generally unchanged.

A moderate business has been transacted in the leading kinds of domestic produce, with Breadstuffs, Cotton, and Provisions, quoted toward the close generally easier in price. Foreign merchandise has been in slack request at irregular prices.

Metals have been quite moderately sought after as a rule, though the advantage as to prices has been in favor of buyers. Scotch Pig held rather more firmly. Eglinton Pig Iron quoted at $24@$24 50; Glengarnock $25@$25 50; Coltness $26 50@$27; No. 1 American Pig at $17@$20; (200 tons Poughkeepsie sold at $17.) No. 2 do. at $17 50@$19. Forge $16@$17; American Rails at works $34@$38. Old Rails $18@$19. Wrought Scrap $22@$23. Steel Rails, on the basis of $44@$46, (with 40,000 tons reported sold to the Penna. R. R. Co. on p. t.) Ingot Copper in slack request on the basis of 17⅝@17¾ for early delivery.

Ocean freights have been less active, and have been quoted generally weaker though leaving off more firmly, with accommodation for Grain, Flour, Provisions, and Cotton in most request. The outward movement in Lard and Bacon continues large, mainly for the United Kingdom, Germany, and Belgum. Liverpool steamer rates at the close for Grain, quoted at 8@8½d. Flour, at 8@3d. Provisions, 32s. 6d.@40s.; Leather, 55s.@60s. Measurement Goods at 22s. 6d.@25s. per ton; Cotton, ½d. per lb. Liverpool, by sail, Cotton, ½d. Grain, at 7@7½d.; Flour, 2s.@6d.; Measurement Goods 17s. 6d.; Tobacco 30s.@32s.@6d.; Grain rates on charter hence for Cork and orders left off at 5s. 9d.@6s.; for the Continent at 6s.@6s. 3d.@6s. 6d.; and from Baltimore for Cork and orders, 5s. 9d.@6s. and from Philadelphia at 5s. 9d. per quarter. Refined Petroleum hence for Cork and orders, 4s. 3d.@4s. 6d.; for the Continent, 3s. 9d.@4s. 3d. Cotton by sail from Charleston or Savannah to Liverpool or Havre at 13-32@7-16d; from Galveston, at ½d; from New Orleans for the Continent 7-8@15 32ct. Naval Stores from Wilmington or Charleston for cork and orders at 4s. 3d.@4s. 4½d. and 6s. 3d.@6s. 4½d. Resin from Wilmington to Trieste at 4s. 6d. Lumber from Brunswick to the River Platte, $19@$20. Through Provision freights from the West for Liverpool, by steam, 72½@82½ per 100 lbs.

### Debt of California.

The Governor, in his message, says that the total funded debt of the State on November 1, 1875, was $3,472,000, and on the 30th of June, 1877, it was $3,411,000, and then adds:

Under an Act of the Legislature, the moneys arising from the sale of the 16th and 36th sections, donated to the State by Congress for the support of the common schools, have been invested in bonds of the State. The State also passed an Act making a donation to the State University of a sufficient sum, from the proceeds of the sales of the salt marsh and tide lands, to produce an annual revenue of $50,000. This sum was invested in State bonds. In addition the Regents of the University have invested funds of the University, derived from other sources, in State bonds.

Under these several Acts, bonds of the State are held now, as follows:

| | |
|---|---|
| By the State Treasurer, for the School Fund | $1,737,500 00 |
| By the State Treasurer, for the University Fund | 811,500 00 |
| By Regents of University | 116,000 00 |
| Total | $2,665,000 00 |

Thus, of the $3,411,000 bonded indebtedness of the State, the State herself holds $2,665,000 for the benefit of the common schools and the State University.

The State bonds held in private hands June 30, 1877, were only $746,000. Deduct from this sum $91,928 57, the amount in the Interest and Sinking Fund at that date, applicable to the redemption of bonds, and there would remain in private hands $731,500. The annual interest on this sum is $44,985, which is the sum total of interest which the State pays to parties other than the common schools and the University.

☞ The directors of the New York, Providence and Boston Railroad Company, elected on the 12th inst., are: Samuel D. Babcock, Henry Morgan, Wm. F. Cary, Jr., J. Boorman Johnston, D. S. Babcock and George M. Miller of New York, Henry Howard of Coventry, Charles H. Salisbury of Providence, Nathan F. Dixon of Westerly, John A. Burnham of Boston and A. S. Matthews of Stonington.

☞ The directors of the Rhode Island and Massachusetts Railroad Company, elected on the 12th inst., are: Harvey Chace, George F. Wilson, Jonathan Chace, E. J. Nightingale, Henry B. Metcalf, Arnold B. Chace, Stafford W. Razee, George L. Littlefield and Jesse H. Boynton.

☞ The Board of Directors of the Baltimore and Ohio Railroad Co. have unanimously re-elected John W. Garrett President, making his twentieth consecutive year as President.

☞ The Minneapolis and St. Louis Railroad was formally opened on the 11th inst. The completion of the road marks an era in railroad building in Minnesota, it having been built entirely without state or government aid, but with home capital through the energy of President D. W. Washburn and his associates. The line traverses a rich section of the state and has already proved exceedingly remunerative.

### Zanesville and Pomeroy Railroad.

A certificate of incorporation has been filed in the office of the Secretary of State of Ohio of the Zanesville and Pomeroy Railroad company, with termini at Zanesville and Pomeroy, passing through the counties of Muskingum, Perry, Morgan, Athens and Meigs, capital stock $300,000, by Thomas E. Sturgeon and others. A preliminary survey is to be commenced at once. The road, as projected, will pass through the only unoccupied portion of the twelve feet coal seam in Perry county, besides the rich agricultural portions of the remaining counties, through which $5000 a mile is guaranteed.

### Regulating Commerce by Railroad.

A bill has been introduced into the House of Representatives by Mr. Townsend, of Illinois, to regulate commerce by railroad among the several States. It proposes to require railroads to receive and transport freight cars of other companies without charging any greater rate than is charged where the cars are the property of the road over which they pass. It prescribes as a penalty for any violation of this provision a forfeiture of three times the amount of damages sustained by the aggrieved parties to be paid by the latter.

☞ It is announced from Chicago that the Illinois Central Railway has established a freight route between Chicago and New Orleans, and has entered into an arrangement with a New Orleans and Liverpool steamship company whereby it will issue through bills of lading to Liverpool, and will be enabled to ship grain from Chicago to Europe at 70 cents per 100 pounds, the same as now charged by the Eastern trunk lines between the same points.

☞ The Philadelphia and Reading Railroad Company has ordered all the stoves to be taken from their passenger cars and their places to be supplied with furnaces under the cars. In this way it is expected that much of the danger of conflagration in cases of accidents will be averted.

☞ The earnings of the Grand Trunk Railway of Canada for the week ending December 8, 1877, were $200,419, against $163,977 for the corresponding week of 1876, an increase of $36,442. Miles open, 1,388½.

☞ The rails on the Pittsburgh, Wheeling and Kentucky road are laid to within three miles of Wheeling. It is expected that the gap will be closed by the end of the week.

☞ A Port Huron Paper pronounces the great canal built by the U. S. government at St. Clair Flats, between Sarnia and Detroit, at an expense of millions, to be a failure.

☞ The Allentown Times says that the Philadelphia and Reading Railroad company will shortly extend the line of their road from East Penn Junction to that city.

☞ Arrangements are being made for the construction of a railroad from East Saginaw to Vassar, in Tusola county, Michigan.

### An American Palace Car in Norway.

In a description of the opening of the extension of the Norwegian State Railroad to Trondhjem, the *Aftenbladet*, published at Christiana, Norway, thus speaks of the palace car recently sent out by the Jackson & Sharp Co., of Wilmington, Del.:

"The royal car moved throughout the entire trip with wonderful steadiness and uniformity, in fact to such an extent that His Majesty King Oscar was able for quite a period to carry on his regular correspondence without being disturbed by any jolting or unpleasant motion of the car. In order that the public might examine the royal car, it was put upon a siding after the completion of the trip, so that ladies and gentlemen desiring to do so might have a good view of it inside and outside. It was, in fact, full of curious visitors all day and was much admired. The royal car, as is well known, is the first railroad car in this country of the American pattern. It possesses great practical advantages, both as regards comfort and convenience of passengers and the train hands."

☞ Steam has been used on the Erie canal this year to a considerable extent, and it is officially reported that the steamers worked well, received a slight preference in freights, and established the entire practicability of steam transportation, on the New York canals at least.

☞ In the Supreme Court on the 18th inst., an order was made for a rehearing of the motion in the case of the Mobile and Ohio Railroad, on which the court heretofore suspended the supersedeas in the case. The road will not, therefore,

be sold until the further order of the court. The rehearing is set down for the 14th of January 1878.

☞ A new telegraph company has been organized under the laws of the State of New York, with a capital of $10,000,000, for the purpose of building and operating telegraph lines between New York and all the other important cities in the United States. The Company was chartered in October, under the name of the "Continental Telegraph Company," and contracts are said to have been made for the immediate construction of a line from Boston to Washington, passing through New York, Philadelphia and Baltimore and other cities.

☞ The Western Union Telegraph Company has concluded a lease of the telegraph lines owned and operated by the Central Pacific Railroad Company west of Salt Lake and throughout California for a term of five years, and thereafter until one year's notice by either party shall be given for its termination. This consolidates and harmonizes all telegraph interests on the Pacific coast.

☞ A change has been made in the method of calling the United States currency sixes. Some of these bonds mature in 1895 and others in 1899, and in the sale it has been optional up to the present time to deliver either class. For the future, however, the bonds will be called separately, with reference to the date of their maturing.

☞ The Supreme Court of Iowa has decided in a case appealed from Scott county that the legislative act allowing cities and towns to vote a tax in aid of railroad or other public corporations is constitutional.

## Can I Obtain a Patent?

This is the first inquiry that naturally occurs to every author or discoverer of a new idea or improvement. The quickest and best way to obtain a satisfactory answer, without expense, is to write to us describing the invention, with a small sketch. All we need is to get the *idea*. Do not use pale ink. Be brief. Send stamps for postage. We will immediately answer and inform you whether or not your improvement is probably patentable; and if so, give you the necessary instructions for further procedure. Our long experience enables us to decide quickly. For this advice we make *no charge*. All persons who desire to consult us in regard to obtaining patents are cordially invited to do so. We shall be happy to see them in person at our office, or to advise them by letter. In all cases, they may expect from us a careful consideration of their plans, an honest opinion, and a prompt reply. TOTAL COST OF U. S. PATENT, ONLY $55. *N. B.—These are by far the* SAFEST, BEST *and* CHEAPEST *terms offered by any responsible Patent attorney in the United States.* For all further information, please address: HENRY GERNER & SON, 24 Barclay st., P. O. Box 4,544, New York.

**What is A "Modoc" Engine?**

These powerful engines are in use on the Pennsylvania Railroad. They are taking the place of the smaller engines and are a saving of both labor and fuel. Their dimensions, etc., compared with the smaller engines are as follows: Modocs—weight, 96,000 pounds; cylinder, 24x22; driving wheels, 50.—Small engines, 74,600 pounds; cylinder, 18 by 20; driving wheels, 54. The Modocs with train are manned by a crew of seven all told: They draw a train of thirty-one to thirty-seven loaded cars to Philadelphia, and burn on the round trip an average of 275 bushels of coal. The smaller engines and train, manned by a crew of six men, draw only from twenty to twenty-four loaded cars to the same point, and burn on round trip an average of 200 bushels of coal; that is with the addition of one man to a crew and the additional consumption of about seventy five bushels of coal, the company is able to transport from thirteen to sixteen more cars over the road to Philadelphia.

### European and North American Railway.

At a meeting of the land grant bondholders of the European and North American Railway Company, held in Bangor, Me., on the 20th inst., Hannibal Hamlin and William B. Hayford, trustees, made a report for the year ending September 30, last. The gross earnings were $360,940, and the net earnings $144,087 42, which they regard as a large percentage, in view of the great outlay on the road in iron, ties, bridges, ballasting, etc. During the year they transported 153,120 passengers and 134,899 tons of freight. Referees have fixed the tariff at 35 cents per passenger and 35 cents per ton of freight, hauled for the Bangor and Piscataquis Railroad between Oldtown and Bangor. The new contract with the Bucksport Railroad gives the European and North American Company 75 per cent of the gross earnings, the Bucksport Road to keep up its line and assume all the risks.

The gauge has been narrowed between Bangor and Vanceboro', also on the Western extension, Fredericton branch, New Brunswick and Canada and Bucksport roads. The trustees state that the important work of effecting a change of gauge on all these roads is due largely to the persevering and energetic efforts of F. W. Cram, Superintendent of the European and North American Company. The cost of narrowing the locomotives and rolling stock will be some $35,000 less than the estimates. Freight and passenger traffic have held good through the year. The trustees mention that several suits are still in process of litigation, and anticipate results favorable to the company. The cashier's report shows a balance of $74,255 55, after paying certain liabilities, and some $24,000 on account of the change of gauge, and gives a statement of payments to be met from October 1, 1877, to October 1, 1878, aggregating $72,689 19.

### Lake Shore and Michigan Southern Railway.

NEW YORK, Dec. 21, 1877.

At a meeting of the Board of Directors, held this day, the following report from the Auditor, as to the business for the year 1877, compared with 1876, was presented:

| | 1876. | 1877. |
|---|---|---|
| Gross earnings (December partly estimated)..... | $13,949,177 | $13,582,939 |
| Operating expenses and taxes (December partly estimated)..... | 9,574,835 | 9,028,955 |
| Per cent of expenses .... | (68.64) | (66.60) |
| Net earnings..... | $4,374,342 | $4,508,984 |
| Interest, rents and dividends on guaranteed stock..... | 2,759,989 | 2,742,000 |
| Balance ..... | $1,614,353 | $1,766,984 |
| Per cent to stock..... | (3.57) | (3.25) |
| Appropriated as follows: | | |
| To Ashtabula accident..... | $493,940 | |
| To Sinking Fund, 1877..... | 250,000 | |
| To dividend of 2 per cent, payable February 1, 1878. | 989,330 | |
| | | 1,733,270 |
| Surplus..... | | $33,714 |

During the year about 15,000 tons of steel rails have been substituted for iron. The cost of the substitution was paid out of the current revenue, and is included in the amount of expenses above stated. The amount so substituted in 1876 was about 10,500 tons.

The company has no floating debt, nor outstanding obligations in that nature. Claims on account of the Ashtabula accident have substantially all been settled.

During the year the bonded debt has been reduced $250,000 by the fulfillment of the requirement of the Sinking Fund, and now stands at an aggregate of $35,750,000, against $36,000,000 at end of 1876.

The road, machinery and property have been, in all respects, fully maintained at their high standard condition, and in many respects materially improved. E. D. WORCESTER, Secretary.

### Billerica and Bedford Railroad.

This road is 8.63 miles in length, extending from the Bedford Station on the Middlesex Central Railroad through South Billerica and Billerica Centre to the North Billerica Station on the Boston and Lowell Railroad, and between the termini there are eleven stations. The road is built upon a two-feet gauge, and all the rolling stock is especially adapted to this narrow superstructure. The heaviest grade is 158 feet to the mile, and there are three curves, the radius of which is between 600 and 900 feet. The rails are 30 feet long and weigh 25 pounds to the yard. The rolling stock consists of two locomotives, double enders, which, with the coal and water, weigh twelve tons each, and have a hauling capacity of between three hundred and four hundred tons on a level, two passenger cars, one being a combination of passenger, mail and baggage, each forty feet long and six feet two inches wide, with two rows of single seats for thirty and twenty passengers; two observation cars which will accommodate fifty-five or sixty passengers; six flat and one box car. The weight of the passengers cars is four and a half tons against the eighteen ton-cars of ordinary railroads. The capacity of the freight cars is eight tons. The cost of the locomotives was $3500 each, passenger cars $2000, observation cars $475, box $300 and flat cars $260 each. All the passenger cars are equipped with the Miller platform and Empire vacuum air brakes. The trains have been run with perfect safety thirty-five miles an hour, although the ordinary speed is from twenty to twenty-five miles. The running time between Bedford and North Billerica is thirty-five minutes, and the consumption of coal is only ten pounds to the mile. The expense of operating the road is $18 per day. The cost of the road and equipments, exclusive of land damages, has been $60,000. The owners of estates through which the road passes have given a free right of way for eight miles and several depots have been erected by subscription.

The road owes its existence to the energy and perseverance of Mr. George B. Mansfield, the

present manager. The capital stock of the company is $50,000, of which sum $42,000 has been paid in—$12,000 by the town of Billerica. Capt. Charles A. Ranlet is President, and George P. Elliott, L. W. Faulkner, Charles H. Hill, W. K. Hayden, Thomas Stiles and Joshua B. Holden, Directors.

### Eastern (Mass.) Railroad.

The earnings of the Eastern Railroad Company for the years ending September 30, 1876 and 1877, were as follows:

| | 1876. | 1877. |
|---|---|---|

Compared with the year 1875-'76, the gross earnings of 1876-'7 show an increase of $37,136 49, with a decrease in operating expenses of $78,586 76, making the increase in net earnings $115,723 25. The report says:

The financial condition of the company is much stronger than it was a year ago. The ability of the road to earn from its present business an amount over and above operating expenses, necessary to meet rentals and interest upon the debt, has been clearly shown by the results of the past year. A marked improvement in credit has been the natural consequence. It is hoped that the earnings may, in the next five years, increase sufficiently to meet the increase in the rate of interest on the certificates of indebtedness. The amount of the debt still outstanding to be funded is comparatively small, and there is reason to think that, within the coming year, the entire debt, excepting that part fully secured by special mortgages or good collateral, will be converted into certificates of indebtedness.

There has been no increase of debt during the year. The pay roll of employes has been paid promptly each month, and all purchases of supplies and material have been for cash. All expenditures other than for interest and rents have been charged to operating expenses, and nothing to construction or equipment account.

It is a matter of congratulation that since the last report some important litigations have been brought to a conclusion in a manner not unfavorable to the interests of the corporation.

The suit of the Boston and Maine Railroad against the Portland, Saco and Portsmouth Railroad, for permanent betterments and improvements made upon the latter under the old lease, and a corresponding suit of the Portland, Saco and Portsmouth Railroad against the Boston and Maine Railroad, for traffic balances withheld by the latter, have been both settled in a manner satisfactory to the Eastern Railroad, which was party to the suit as lessee of the Portland, Saco and Portsmouth Railroad.

The questions at issue between the Eastern Railroad and the Portland, Saco and Portsmouth Railroad have also been finally adjusted. The outstanding debt of the Portland, Saco and Portsmouth Railroad, indorsed by the Eastern Railroad, for whose benefit it had been created, has been provided for, and a permanent modification of the lease, beneficial to this company in securing a reduction in the rental, has been effected.

By a supplementary agreement between the two companies this company pay for the use of the Portland, Saco and Portsmouth Railroad about four dollars on each share of stock semi-annually for four years, from July 1, 1877, and after that perpetually at the rate of three dollars per share.

Since the last annual report, the question therein alluded to respecting the rights of creditors holding ten-years notes of the company as collateral, and then litigating in the Supreme Judicial Court, has been finally decided by that tribunal. The effect of the opinion of the court is, that all creditors, with collateral of that nature, are entitled to receive certificates of indebtedness only for their respective debts, computed as cash as of Sept. 1, 1876, and only upon the surrender of the notes held as collateral.

It was stated in the last annual report that the suit brought by the Eastern Railroad in New Hampshire for the abrogation of its contracts with this company of 1840 and 1862, respectively, had been transferred to the Circuit Court of the United States. Soon after that transfer, and as if the hope of accomplishing anything through the original suit was abandoned, the Attorney General of New Hampshire, on the relation of certain stockholders of the Eastern Railroad in New Hampshire, commenced an information in the Supreme Court of that State, the ostensible object of which is a forfeiture of the charter of the Eastern Railroad in New Hampshire for violation of its franchises. The real object undoubtedly is to accomplish by this public proceeding the same private ends sought by the original suit transferred to the United States Court; but the directors feel justified in repeating the remark with which they closed their notice of this litigation in the last annual report, "that there is no reason to expect any other result than one favorable to the interests of the corporation."

While, as already shown, the great mass of the creditors have acquiesced in the just and equitable scheme embodied by the Legislature in the act of 1876, and have come in under the mortgage and taken certificates of indebtedness for their debts, two of them, the Merchants' Bank of Salem and the Bank of Commerce of Boston, have brought suits in the New Hampshire courts, involving comparatively small amounts. How soon they will be decided cannot now be stated.

To determine the question of the payment of the interest accruing December 1 on the bonds of the Portsmouth, Great Falls and Conway Railroad Company, a petition for instructions has been filed in the Supreme Judicial Court. Meanwhile, the amount of the interest has been set aside as a fund with which to respond to the judgment of the court, should its decision be in favor of the road to pay the interest. The bondholders have been notified of this action, and it is believed that they will do nothing to embarrass the road pending the decision of the court, which may probably be expected within three or four months.

The relations with connecting roads are on a satisfactory basis. Among the changes of the year, the following promise to be very advantageous to this company. The Portland and Ogdensburg Railroad, Eastern Division, has made close connection with this road at North Conway, so that trains run through without change. The Portland and Ogdensburg Railroad, Vermont Division, completed in August their road through to Swanton, on Lake Champlain. At the same time the Burlington and Lamoille Railroad effected a junction with the Portland and Ogdensburg Railroad at Cambridge, Vt., making close connection, so that trains have been run without change from Boston, by North Conway, through the White Mountain Notch, to Burlington and Swanton on Lake Champlain. These connections form a route having unusual attractions for pleasure travel, and make the shortest line from Boston into the heart of the White Mountains. They also secure to the Eastern Railroad a not inconsiderable amount of freight from points in New Hampshire and Vermont, which this road has not had before.

The European and North American Railway from Bangor to St. John, and the New Brunswick and Canada Railway which connects with the European and North American Railway at McAdam Junction, have both very recently changed their gauge to conform to the standard (4 feet 8½ inches) now nearly universal. This may justly be regarded a very important gain, as it does away with the freight transfer at Bangor, and makes it possible to compete with the water transportation. Cars can now run through to St. John, and to Houlton, Me., furnishing a better outlet for the important productions of Aroostook County.

Comparative statements are given showing the results of the business of the road for the past five years that from it a judgment may be formed of the probable future of the road. The gross earnings, operating expenses and net earnings during those years were as follows:

| | Gross earnings. | Operating expenses. | Net earnings. |
|---|---|---|---|
| 1872–3 | $2,229,889 28 | $1,686,697 41 | $543,141 87 |
| 1873–4 | 2,987,299 57 | 1,998,981 63 | 988,317 94 |
| 1874–5 | 2,827,290 74 | 2,069,871 61 | 757,419 13 |
| 1875–6 | 2,470,971 02 | 1,787,376 96 | 683,594 06 |
| 1876–7 | 2,508,107 51 | 1,708,790 20 | 799,317 31 |

The following statement will show the number of passengers carried, and the number of passengers carried one mile, during each of the years named:

| | Number passengers carried. | Number carried one mile. |
|---|---|---|
| 1872–3 | 5,696,851 | 76,789,970 |
| 1873–4 | 6,019,990 | 85,730,313 |
| 1874–5 | 5,386,038 | 75,201,867 |
| 1875–6 | 4,796 275 | 69,458,812 |
| 1876–7 | 4,978,255 | 68,502,002 |

The tons of freight carried, and the number of tons carried one mile during the years named were as follows:

| | Tons of freight carried. | Tons carried one mile. |
|---|---|---|
| 1872–3 | 586,158 | 20,651,884 |
| 1873–4 | 669,420 | 37,086,866 |
| 1874–5 | 661,886 | 35,687,333 |
| 1875–6 | 634,508 | 34,224,383 |
| 1876–7 | 704,810 | 39,099,659 |

The passenger and freight mileage to and from other roads was as follows:

| | Passenger. | Freight. |
|---|---|---|
| 1872–3 | 9,930,048 | 12,804,672 |
| 1873–4 | 9,286,168 | 18,012,840 |
| 1874–5 | 14,101,884 | 18,788,948 |
| 1875–6 | 12,041,110 | 12,777,314 |
| 1876–7 | 11,469,300 | 15,134,642 |

The general business of the road shows an increase over last year. The continued falling off in passenger earnings is more than made good by the increase in freight earnings. The fact of an increase in local passenger as well as freight earnings (developed by the above statements) may fairly be considered as an evidence of returning activity and prosperity upon the line of the road, and may warrant the belief that, so far as this section of country is concerned, the tide has at last turned.

In the management of this property the Board have felt that the financial condition of the company demanded an unusually careful and economical expenditure of money; but they were equally convinced that whatever expenditure was necessary to secure a high degree of efficiency in

the running of the road was the truest economy. In no respect, therefore, has the property been allowed to deteriorate, while in several matters essential to its proper working very decided improvement has been made. Of the first importance was the condition of the road-bed and track; and, to improve this, the renewals by ties and steel rails have been larger than usual.

Second only to this was the maintenance of the rolling stock; and, with the exception of the loss of cars by the Marblehead fire, the condition of the locomotives is better, and of the passenger and freight cars fully equal to that a year ago.

All expenditures have been charged to operating expenses, as well as those for new work, additions, improvements, etc., as those for ordinary repairs, and maintenance of the property. Nothing has been charged to construction or equipment account.

ROAD BED AND TRACK.

| Expenses for— | 1875-76. | 1876-77. |
|---|---|---|
| Repairs of road bed and track | $152,745 80 | $166,157 36 |
| New rails, iron or steel, less value of old rails, taken up | 46,468 00 (500 tons steel, 981 is, re r'd iron.) | 65,961 16 (2204 tons steel.) |
| New ties laid | $19,927 12 (56,238 ties) | $23,125 88 (68,047 ties) |

The road bed and track are at present in better condition than they have been for some years past. More ballast has been put on the road than usual, and the ditches have been cleaned out and deepened. Steel rails only have been used in renewal of track. Within the year, 2204½ tons, equal to 24 miles, have been laid, making the total length of steel track 107.32 miles. All renewals will, hereafter, be of steel; and it is estimated that 1500 tons will be required for the coming year.

About 68,000 new ties have been put into the track. This was fully up to the requirement, but an equal number will probably be needed the coming year.

A most important improvement has been made in the matter of switch signals. Each switch upon the main line from Boston to Portland has been connected with a semaphore signal, about fourteen feet above the track, which indicates safety or danger with absolute certainty. These signals can in most places be seen for a long distance; and there is ample time in all cases for the engineer of an approaching train to stop his train, if, by accident or design, a switch is misplaced. Thus the liability to accidents from misplaced switches is reduced to a minimum.

The expenditure for bridge repair and renewals in 1875-76 was $47,719 52; in 1876-77, $41,005 39; decrease, $6,714 13.

Included in the expenditure for the year is the cost of the new bridge over the Saco river near North Conway; alluded to in the last report; and also of a new one at Union, on the same division. The former is a combination of wood and iron; the latter is wholly iron; but both are of approved construction, and are substantial and permanent in character.

The pile bridges have received due attention. The one at Boston, in particular, has required considerable repairs and renewals. A moderate annual expenditure will be sufficient to keep this class of property in safe condition, and gradually to improve it; but permanent structures should be substituted, where practicable, for such older ones as have to be renewed.

The expenditure of $9,090 70 for fences, road crossings and signs is unusually large, owing to neglect of former years. Fourteen miles of fence have been built this year. A much smaller sum will probably be sufficient hereafter for each year's repairs and renewals.

The new freight yard at Peabody gives the much needed accommodations for the large bark business at that station. It also lessens the evil, if it does not wholly do away with it, connected with the crossings of the public square, which has been complained of by the town. The lot has been graded, and 2,900 feet of new side track has been laid. This will give standing room for seventy-five cars.

The expenditure for buildings, repairs and renewals in 1875-76 was $35,812 45; in 1876-77, $48,972 87; increase, $13,160 42.

The necessity for new and larger coal sheds was forcibly brought to notice by the ice-blockade of the soft coal shipping ports last winter. Had there been facilities for storing up by the first of December a four months' supply of coal, the company would have saved a considerable amount of money expended for extra freight alone.

The new coal sheds have accordingly been built at Prison Point, with a capacity of 7,000 tons—nearly double that of the old sheds; and at Cape Elizabeth, near Portland, a new dock has been dredged, a wharf made, and ground filled for a shed, to be built during the coming year. This will furnish storage for a supply of coal sufficient for four months' consumption.

Two passenger depots—at Marblehead and Belmont—have been burned. They were insured for a part of their value. The depot at Marblehead was burned June 25, in the fire which started in a building near by and destroyed the centre of the town. Work is going on upon the new depot, on the site of the old one; and, by the contract, it is to be finished by the first of January. In some important particulars it will be an improvement upon the one burned.

The depot at Belmont was set on fire July 18, apparently to cover up the robbing of the ticket office the same night, and burned to the foundation. A new one will soon be built on the same site.

The depot at Manchester has been moved away from the crossing and repaired, the platform lengthened and covered by a shed. There are several depots which it would be advisable to replace by new buildings when the financial condition of the company admits of it. All the buildings of the company have been kept in repair, and they are in as good condition at least as they have been for the past few years.

There has been a large reduction in the expenses for repairs of locomotives and cars, which has been effected without neglecting any part of the rolling stock. On the contrary an unusually large amount of work has been done in this department, in spite of reduced outlay. The records of former years are, unfortunately, not sufficiently complete for an accurate comparison of results, but some idea of the work done the past year may be got from the following statement:

Undergone general repairs, 44 engines; tires turned off on 29 engines; new driving-shafts on 2 engines; new tires on 2 engines; rebuilt, 2 engines; building (new), 1 engine; tenders repaired, 3; tank repaired, 1; new boiler, 1; new fire-boxes, 8; fire-boxes stayed, 5.

The passenger, baggage and mail cars have been kept up in good order. Six were entirely destroyed in the Marblehead fire in June. Two new "observation" cars have already been added, and four more passenger cars will be purchased to make good the loss by fire.

From the statement of the car shop it appears that there were:

Passenger cars rebuilt and painted, 5; passenger cars repaired and painted, 4; passenger cars repaired and varnished, 55: total, 64. Baggage cars rebuilt and painted, 2; baggage cars repaired and painted, 7; baggage cars repaired and varnished, 3; total, 12.

Thirty-two new freight cars have been purchased and paid for.

Trains have been run with regularity, punctuality and safety, and no passenger has lost his life from any cause and none has suffered injury from any fault on the part of the company. The property has been well maintained. The gross earnings have increased and the operating expenses decreased. The Directors, therefore, cannot but regard the general result of the year's operations as exceedingly gratifying; and it strengthens the hope, expressed in the last report, that the road may ultimately be extricated from its embarrassments and a foreclosure of the mortgage be avoided.

The equipment consists of 94 locomotives, 27 snow ploughs, 138 passenger, 87 mail and baggage, 714 eight-wheel and 79 four-wheel box freight, 512 eight-wheel and 262 four-wheel platform, and 32 coal, gravel, etc., cars. The total number of freight, coal, etc., cars, on a basis of eight wheels is 1,426. The number of cars equipped with the Miller Platform and Buffer is 168, and with the Westinghouse brake, 175.

Number of miles run by passenger trains, 1,069,833; by freight trains, 558,671; by working trains, 56,298—total, 1,704,802.

### A New Railroad Tie.

A number of iron railroad ties, recently patented by A. H. Campbell, of Indiana, a civil engineer, have been placed in the track of the Cincinnati, Hamilton and Dayton railroad. The tie, with the exception of two blocks, each about eight inches square is of iron, cast. The wooden blocks are made to fit tightly by means of their shape and wedges into sockets coming under the rail, affording sufficient elasticity. The advantages claimed for the tie over common wooden ties are: It is more economical, and requires less work to keep the track in shape; it is safer, and makes the track more solid.

☞ A. E. Folsom, Superintendent of the Connecticut and Passumpsic Rivers Railroad, has been appointed Receiver of the Missisquoi and Clyde River Railroad.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, November 30, 1877.

JOHN SHERMAN,
Secretary of the Treasury.

### Southern Pacific Railroad.

The official distance between San Francisco and Yuma is 719.4 miles. The San Diego Division has been extended to a new station called "Santa Ana," 7 miles south of Anaheim, and 33.6 miles from Los Angeles. The official distance between San Francisco and Santa Ana is 504.3 miles. The Coast Line Stages for San Diego now connect with the Southern Pacific Railroad at Santa Ana, instead of at Anaheim as formerly. The Colorado River Steamers leave Yuma every Saturday for Ehrenberg and Aubrey.

☞ The Ligonier Valley Railroad, extending from Lathrobe, on the Pennsylvania Railroad, to the old town of Ligonier, was formally opened on the 21st inst.

☞ The regular opening of the Scioto Valley road through to Portsmouth will take place on the 31st of December.

☞ The formal opening of the Emlenton, Shippensville and Clarion Railway took place on the 24th inst.

## American Railroad Journal.

**Saturday, December 29, 1877.**

### Financial and Commercial Affairs.

Important shipments of currency to the West and South have diminished the reserves of the City banks, which were further drawn upon to provide for the first of January interest and dividend disbursements. The effect on the Money market was manifest in the more urgent inquiry for accommodation, chiefly from speculative sources, and stronger range of rates in the loan and discount lines. Though the recurrence of Christmas Day lessened the number of business days in the week to five, the fine weather served to stimulate operations in Produce and Merchandise, and the markets in these important connections closed up more firmly, and with a more encouraging outlook. Call loans were quoted here at the close at from 5@7 as extremes, with the most important negotiations reported at 6@7, closing on Wednesday at 7 per cent to the Stock Exchange operators, and very choice to prime mercantile credits were rated at 5@8 per cent per annum. The City bank exhibit of last week indicated an increase in the loan and discount average of $2,260,200, with a further enlargement of the item of circulation of $617,200. The average of deposits was reduced $1,058,900. The legal tender reserve was cut down $1,495,400; and the specie average augmented $107,800. The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $7,031,475, as against $8,155,600 the preceding week. The City bank exchanges in currency reached $412,404,648, or a daily average of $68,784,108.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency, $3,893,070; special deposit of legal tenders for the redemption of certificates of deposit, $40,425,000; Coin, $135,700,973, including of Coin certificates, $32,103,700.

The outstanding amount of legal tender notes is $351,340,288. The National bank circulation is now $320,253,765 of currency notes and $1,432,120 of national gold bank notes. National Bank notes received at the Treasury Department last week for redemption were to the amount of $4,079,000.

A moderately active demand has been reported for Government securities, chiefly on investment account; but the market has been variable, and toward the close more or less depressed, partly by apprehensions of the return from Europe of important amounts of the several issues held there, especially in the event of a general war abroad. At the close on Wednesday the current quotations were as follows:

United States currency sixes, 120@121; do. 6s, 1881, registered, 106⅜@106⅝; do. coupon, 109¾@110; do. 1865, new, registered, 102¾@103; do. coupon, 105¾@106; do. 1867, registered, 105⅜@105½; do. coupon, 108⅜@108½; do. 1868, registered, 107@107½; do. coupon, 110@110½; do. ten-forties, registered, 107¼@107⅜; do. coupon, 107¾@108; do. five per cents, 1881, registered, 106¾@106; do. coupon, 105⅝@105⅞; do. 4½ per cents, 1891, registered, 103¾@104; do. coupon, 103¾@103⅞; do. 4 per cents, 1907, reg., 101@101½; do. small, 102¾@103; 500 and 1,000, coupon, 103@103⅛.

The amount of U. S. bonds held by the Treasurer of the United States as security for the National Bank circulation is $346,277,550, and $13,988,000 as security for public deposits.

State Bonds have been less sought after, even on investment account, and prices have been quoted weaker, though the favorite issues toward the close exhibited more firmness on limited offerings. Railway Mortgage loans have been in comparatively limited request and quoted less firm but leaving off more steadily. And in the line of Railway and Miscellaneous share property business has been on a restricted scale, and prices have been depressed and irregular influenced in part by the activity in the Money line.

The income of the Government from internal revenues last week was about 2¼ millions, and from Customs last week again about 1⅞ millions.

Gold has been less confidently dealt in, and has shown weakness and irregularity. The customs call has been light, and the export drain unimportant, having been only about two thirds of the imports. The extremes of the price during the week have been 102⅝@103, mostly 102¾@102⅞, closing on Wednesday at 102¾, as against 103⅜ on Wednesday of the preceding week. The specie outflow last week was only $481,073, making the total exports of specie hence since January 1, $25,265,339 against $43,573,070, the same time in the preceding year. The imports of specie at this port last week reached $660,181 and since January 1st have been $15,108,812, as against $22,931,618 same time last year. The Customs demand for gold last week reached $1,551,278 or an average of $258,546 per day.

A fair demand prevailed for Foreign Exchange which has been further advanced in price, closing firmly. Bankers' sixty day bills on London closed on Wednesday at $4 82¼@$4 83; sight bills on London at $4 85¼@$4 86⅛ to the £ sterling. The week's imports of Dry Goods and general merchandise were to the specie value of $4,977,686 as against $4,778,528 the corresponding week of 1876. The week's import entries of Foreign Merchandise at New York included $974,608 of Dry Goods, and $4,003,028, of General Merchandise. The week's export of Domestic Produce and Miscellaneous Goods from this port were to the value of $6,467,126, against $5,160,305 same week in 1876.

Preparations for the Spring trade are now in active progress, in connection with the important interests of Hardware, Boots and Shoes and Dry Goods, which have been held with a fair show of confidence, with however a moderate actual movement in the distributing line, as usual in the holiday season.

A more satisfactory business has been reported in the leading kinds of domestic produce, and values of Breadstuffs and Provisions have been quoted toward the close generally firmer; Cotton and Petroleum, weaker; Naval Stores, steadier. Foreign merchandise has been in rather more request and prices have been fairly supported.

The dealings in Metals have been on a restricted scale, throughout, yet prices have been quoted as a rule about steady. Scotch Pig held rather more firmly. Eglinton Pig Iron quoted at $24@$24 50; Glengarnock $25@$25 50; Coltness $26 50@$27; No. 1 American Pig at $17@$20; (200 tons Poughkeepsie sold at $17.) No. 2 do. at $17 50@$19. Forge $16@$17; American Rails at works $34@$38. Old Rails $18@$19. Wrought Scrap $22@$28. Steel Rails, on the basis of $44@$46. Ingot Copper inactive on the basis of 17⅜@17¾ for early delivery.

Ocean freights have been fairly active, for the closing days of the old year and have been quoted generally firmer, with accommodation for Grain, Flour, and Provisions in most demand; and for Cotton, Petroleum, and Tobacco moderately sought after. The outward movement in Lard and Bacon continues on a liberal scale, mainly for the United Kingdom, Germany, and Belgium and largely on through freight account. Liverpool steamer rates at the close for Grain, quoted at 8d. Flour, at 3@3d. Provisions, 40s.@50s.; Leather, 55s.@60s. Measurement Goods at 22s. 6d.@27s. 6d. per ton; Cotton, ⅛d.@9-32d. per lb. Liverpool, by sail. Cotton, ⅛d. Grain, at 7d@8d.; Flour, 2s.@9d.; Measurement Goods 17s. 6d.; Tobacco 35s.; Oil Cake at 25s. Grain rates on charter hence for Cork and orders left off a 6s.; for the Continent at 6s.@6s. 3d.; and from Baltimore for Cork and orders, 5s. 10½d.@6s. and from Philadelphia at 5s. 9d. per quarter. Refined Petroleum hence for Cork and orders, 4s. 3d.@4s. 6d.; for the Continent, 4s. 4s. 3d. Cotton by sail from Charleston or Savannah to Liverpool or Havre at 13-32@7-16d; from Galveston, at ⅛d; from New Orleans for the Continent 7-8@15 32ct. Naval Stores from Wilmington or Charleston for Cork and orders at 4s. 3d.@4s. 4½d. and 6s. 3d.@6s. 4½d. Resin from Wilmington to Trieste at 4s. 6d. Lumber from Brunswick to the River Platte, $19. Through Provision freights from the West for Liverpool, by steam, 72½@82½; for the Continent at 85@91 per 100 lbs.

### Canadian Railways.

The earnings of the following Canadian Railways for November, 1877, compare as follows with the same month last year:

| | 1876. | 1877. |
|---|---|---|
| Grand Trunk | $751,976 | $842,056 |
| Great Western | 319,020 | 356,722 |
| Northern | 61,756 | 63,267 |
| Midland | 27,207 | 28,050 |
| Toronto Grey & Bruce | 26,439 | 24,102 |
| | $1,186,401 | $1,314,197 |

---

☞ Work on the Nova Scotia, Nictaux and Atlantic Railway, in Nova Scotia, has been stopped, the Government refusing to pay $33,000 of subsidy due the Company until the latter settles with its employes. The contract provides that the subsidy shall be payable only after such an amount has actually been expended by the company.

---

☞ The Maryland and Delaware railroad was sold at auction at Easton, Md., on the 20th inst by ex-Gov. Jas. B. Groom, trustee, for $94,200 and purchased by William T. Hart, of Boston, for the bondholders. The Maryland division, with rolling stock, brought $75,000; the Delaware division $19,200.

---

☞ It is said that the Pennsylvania Railroad Company is surveying a branch road from Wilkesbarre to Northumberland to develope their coal trade. At present their cars have to run over other roads between Nanticoke and Northumberland.

### Finances of Ohio.

The Commissioners of the Sinking Fund report the total receipts into the Treasury for the six months ending November 15, 1877, at $635,841 81; disbursements, $211,721 60; balance in treasury, $424,120 21.

The following table will give a summary of the operations of the Sinking Fund for the entire fiscal year of 1877:

| | | |
|---|---|---|
| Receipts: | | |
| Balance in the Treasury, Nov. 15, 1876 | | $248,143 33 |
| Taxes | | 782,748 13 |
| Trust funds | | 24,238 86 |
| Other sources | | 21,186 24 |
| Total | | $1,076,261 56 |
| Disbursements: | | |
| Interest on funded debt | $396,831 76 | |
| Interest on irreducible debt | 250,270 75 | |
| Expenses | 2,143 89 | |
| Judgment in favor of A. Bassett | 2,895 00 | |
| | | 652,141 35 |
| Balance in Treasury Nov. 15, 1877 | | $424,120 21 |

The only change that has been made in the condition of the Public Funded Debt of the State since the last report, has been the redemption of $5000 of the loan of 1875.

---

☞ The Northern Pacific Railroad Company has completed the branch road from New Tacoma to the Puyallup coal mines, a distance of 31 miles. Regular trains are now running between these points, and large quantities of coal are being taken down to tide water. The railroad company is expending a large sum of money in the development of these mines, which promise to be the most extensive and profitable on the coast.

---

☞ The report of the Receiver of the Erie Railway Company for the month of October shows the balance on hand at the close of the previous month to have been $374,777 47, the receipts of the month to have been $2,831,832 28, the disbursements for the month $2,190,499 72, and the balance on hand at the close of the month $641,332 56. The certificates and interest unpaid at the close of the month are given at $1,962,147 68.

---

☞ Work on the Philadelphia, Newtown and New York Railroad is rapidly approaching completion. The line was built as far as Fox Chase, in Bucks county, last summer, and by January 1st it will probably be in successful operation to Newtown. The roadbed is said to be solid, the bridges substantial and the rails strong, while stone, instead of gravel, has been used to a great extent for ballasting purposes.

---

☞ R. M. Pomeroy has been elected President, W. C. Wetmore Vice President, E. H. Nichols Treasurer, and Thomas M. Souther Secretary of the Central Branch Union Pacific Railroad Company.

---

☞ The officers of the Republican Valley Railroad Company, recently elected, are: R. M. Pomeroy, President; A. S. Barnes, Vice President; A. W. Greenleaf, Treasurer.

---

☞ In 1859 there were 1,600 miles of railway in Italy; on January 1, 1877, 8,000 miles were in operation. The total cost of these railways was $478,436,200.

### Great Southern Railway.

An examination of the railways which now, or by the construction of short links, may be made to connect with the terminus of the Texas and Pacific road, will show that there is no important point east of the Mississippi river which cannot be reached and benefited by the completion of the Great Southern Railway. It will require only ninety miles of road from Shreveport to Monroe to connect them with all the lines, viz: via Vicksburg, through Mississippi, Alabama, Georgia, and the Carolinas, and verging to the Capital of the nation, thence to Baltimore, Philadelphia, New York, and New England, while a line from Shreveport to Vermillionville would form complete rail connection with New Orleans, and thence by other lines to all points on the coast. The entire Eastern seaboard can be reached by lines through Virginia and Kentucky, and the Gulf ports of Galveston and Houston by the Texas Central and great Northern roads already constructed.—*Mobile Register.*

### Great Western Railway of Canada.

The following figures exhibit a comparison of the half-years operations with those of the corresponding half year ended 31st July, 1876:

| | 1876. | 1877. |
|---|---|---|
| Gross receipts | £394,769 | £370,514 |
| Cash working expenses, exclusive of credits to reserve funds (being at the rate of 74.41 per cent., as against 73.63 per cent. for the corresponding period) | 290,647 | 275,716 |
| | £104,122 | £94,798 |
| Cash loss on working leased lines, interest on bonds, debenture stock, &c | 101,514 | 97,995 |
| Surplus | £2,608 | ..... |
| Deficit | ..... | £3,197 |

The interest on the company's bonds and debenture stock having exhausted the entire surplus on the working account, the credits to the reserve funds for this half-year have been suspended, except to the extent of the actual revenue expenditure charged on them, amounting to—

| | |
|---|---|
| Rail and bridge renewal fund | £8,117 10 9 |
| Car renewal fund | 1,644 11 9 |
| | £9,762 2 6 |

The above sums are included in the expenditure debited to revenue. Excluding in former half-years the net transfers to the funds, the present account exhibits a deficiency of £3,916, as against a surplus of £2,608 in 1876, and as against a deficiency of £75,699 in 1875. The aggregate balance to the credit of the reserve funds is £181,889. The dividend on the preference stock, amounting for the half-year to £13,644, will remain a charge against future revenue.

The average rate at which conversions of American currency have been effected during the half-year is 105.54 as against 113.18 in the corresponding half year.

The Directors have felt very great difficulty in deciding how to deal with the credits for the present half year to the reserve funds, the amended basis of which has been brought before the Shareholders in recent reports. On the other hand it is, in their opinion, desirable that the total credits to the funds during the series of years, in respect of which the amounts of the half-year's credits have been arrived at, should not be diminished. On the other hand it must be remembered that the provisions of the Great Western Railway Act, 1876, authorizing the Board specially to deal with over drafts in the revenue account, expired on January 31 last; and it would, therefore, appear doubtful whether they would be justified in creating a fresh over draft by charges, not in the nature of cash payments, but having reference to the prospective expenditures of future years. On the whole, and after consultation with the Auditors, to whose remarks the Board would call attention, the Directors have decided to suspend the credits to these accounts for the present half year, with the distinct understanding that the amounts so held back will be made good out of the revenue of future half-years. The Directors hope that the Shareholders will approve of this decision. The funds accordingly remain on July 31 in credit as follows:

| | Balance July 31, 1877. £. | s. | d. |
|---|---|---|---|
| Rail and bridge renewal fund | 18,992 | 8 | 10 |
| Locomotive renewal fund | 111,128 | 18 | 6 |
| Car renewal fund | 39,394 | 3 | 0 |
| Ferry steamers renewal fund | 11,521 | 12 | 8 |
| Fire insurance fund | 552 | 4 | 6 |
| | £181,889 | 7 | 6 |

Omitting the charge for interest on the London, Huron, and Bruce Bonds, and the transfer to renewal funds, the aggregate loss on working leased lines for the past half year, including the rent of the Welland railway, amounts to £3,723 as compared with £6 784 for the corresponding half-year. The gross traffic of the Wellington, Grey, and Bruce line, in comparison with the corresponding half of 1876, exhibits a decrease of £6,446, mainly due to the deficient wheat harvest of last autumn and to the stagnation of the lumber trade. The cash lost on working this line (after crediting the Wellington, Grey and Bruce Company with 30 per cent. of the gross traffic) has been £6,483 against £7,586 in 1876. The London, Huron and Bruce Railway shows a profit on working (exclusive of bond interest) of £3,304. Under the traffic agreements with the Wellington, Grey, and Bruce Company, the sum of £2,747, being 20 per cent of the earnings derived from additional traffic interchanged with that railway (for the six months to July 31, 1877), will be applied to the acquirement of the Wellington, Grey, and Bruce bonds at par. Some additional expenditure for the renewal of bridges on the London and Port Stanley railway has been found necessary, but it will be spread, through the operation of the leased lines suspense account, over the remaining term of the lease. The increased charge for this half year is £360.

The charges against capital account during the half-year amount to £38,209. They include the transfer of the adjusted balance of the London, Huron, and Bruce capital expenditure, leaving a sum of £2,081 still available for similar outlay on that line, which is entirely the property of this company. The balance available for capital expenditure on the Wellington, Grey, and Bruce railway is £3,610.

Since the termination of the half-year (viz., on October, 1877, 5½ per cent. bonds to the amount of £485,000 have fallen due, and have been duly paid off, or exchanged for three or five years 7 per cent. bonds, on presentation. With a view to provide in part for paying off or exchanging these bonds, but so that no increased annual charge on account of bond interest might be incurred, the shareholders at a special meeting held on August 8, 1877, authorized the Directors to issue 81,714 additional shares. These shares were allotted at that date to the Shareholder, at the rate of 12 for every 100 existing shares, and at the price of £5 5s. per share. The whole issue has been taken up by the Shareholders. The particulars of these operations will be shown in the next half-years' accounts.

On behalf of the Board of Directors,
HUGH C. E. CHILDERS, President.
London, November 28, 1877.

☞ Trains commenced running regularly on the 20th inst. on the Castle Shannon Narrow Gauge extension, from Kown's Mills to Pittsburg. This opens up six miles of new road, and in two or three weeks the road will be in operation as far as Finleyville, six miles distant from Kown's. The work of tracklaying is being pushed forward vigorously, the mild weather being very favorable.

### Elkton and Massey's Railroad.

The obsequies of the Elkton and Massey's railroad were duly celebrated last week. The Stockholders met in Elkton, took a view of the corpse, pronounced the subject dead, and unanimously voted to recall what was left of paid up subscriptions after deducting enough to provide decent burial. About eighty-five cents on the dollar was realized by the stockholders—probably a good deal more than could have been saved if the work had progressed further. The $58,000 of State subscription may now become available to some work of better promise.—*Cecil Democrat.*

Solicitor U. S. & Foreign Trade Marks & Patents.

Make a note of the time when you first think of an invention, date and keep all writings, sketches, drawings and models of it. It will be well to have persons sign the former as witnesses, and this may be done without exhibiting the contents. To establish title to your invention, even after obtaining a patent, you may have to prove that you made it before any one else, and never gave it up.

## Can I Obtain a Patent?

This is the first inquiry that naturally occurs to every author or discoverer of a new idea or improvement. The quickest and best way to obtain a satisfactory answer, without expense, is to write to us describing the invention, with a small sketch. All we need is to get the idea. Do not use pale ink. Be brief. Send stamps for postage. We will immediately answer and inform you whether or not your improvement is probably patentable; and if so, give you the necessary instructions for further procedure. Our long experience enables us to decide quickly. For this advice we make *no charge*. All persons who desire to consult us in regard to obtaining patents are cordially invited to do so. We shall be happy to see them in person at our office, or to advise them by letter. In all cases, they may expect from us a careful consideration of their plans, an honest opinion, and a prompt reply. TOTAL COST OF U. S. PATENT, ONLY $55. *N. B.—These are by far the* SAFEST, BEST *and* CHEAPEST *terms offered by any responsible Patent attorney in the United States.* For all further information, please address: HENRY GERNER & SON, 24 Barclay st., P.
